1. Nature of Operations and Continuance of Business

Fasttask Technologies Inc. (the "Company") was incorporated under the laws of the province of British Columbia, Canada, on December 3, 2010. On May 18, 2017, the Company changed its name from Morvin Holdings Inc. to Sativio Holdings Inc. On June 28, 2018, the Company changed its name from Sativio Holding Inc. to HeyBryan Media Inc. On July 11, 2018, the Company changed its name from HeyBryan Media Inc. to Fasttask Technologies Inc. On October 18, 2018, the Company changed its name from Fasttask Technologies Inc. to HeyBryan Media Inc. The address of the Company's corporate office and principal place of business is Suite 501, 318 Homer Street, Vancouver B.C., V6B 2V2.

These condensed interim consolidated financial statements have been prepared on the basis that the Company will continue as a going concern, which assumes that the Company will be able to realize its assets and satisfy its liabilities in the normal course of business for the foreseeable future. Management is aware, in making its going concern assessment, of material uncertainties related to events and conditions that may cast significant doubt upon the Company's ability to continue as a going concern.

The Company has incurred a net loss of $2,002,011 during the six months ended June 30, 2020 and has incurred an accumulated deficit of $8,483,613 as at June 30, 2020. The continued operations of the Company are dependent on future profitable operations, management's ability to manage costs and the future availability of equity or debt financing. Whether and when the Company can generate sufficient operating cash flows to pay for its expenditures and settle its obligations as they fall due is uncertain. These condensed interim consolidated financial statements do not reflect the adjustments to the carrying values of assets and liabilities and the reported expenses and statement of financial position classifications that would be necessary were the going concern assumption inappropriate. These adjustments could be material.

In March 2020, the World Health Organization declared coronavirus COVID-19 a global pandemic. This contagious disease outbreak, which has continued to spread, and any related adverse public health developments, has adversely affected workforces, economies, and financial markets globally, potentially leading to an economic downturn. It is not possible for the Company to predict the duration or magnitude of the adverse results of the outbreak and its effects on the Company's business or ability to raise funds.

2. Basis of Presentation

a) Statement of Compliance

These condensed interim consolidated financial statements have been prepared in accordance with International Accounting Standards 34, *Interim Financial Reporting*, and based on the principles of International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and the interpretations of the International Financial Reporting Interpretations Committee ("IFRIC").

These condensed interim consolidated financial statements should be read in conjunction with the Company's annual consolidated financial statements for the year ended December 31, 2019, which include the Company's significant accounting policies, and have been prepared in accordance with the same methods of application.

b) Basis of Presentation

These condensed interim consolidated financial statements have been prepared on a historical cost basis. In addition, these condensed interim consolidated financial statements have been prepared using the accrual basis of accounting, except for the cash flow information. The presentation and functional currency of the Company is the Canadian dollar. In the opinion of the Company's management, all adjustments considered necessary for a fair presentation have been included.

(Expressed in Canadian Dollars)

2. Basis of Presentation (continued)

c) Basis of Consolidation

These condensed interim consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company, HeyBryan Inc. and Fasttask Inc. Control is achieved where the Company has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. All intercompany transactions and balances are eliminated upon consolidation.

d) Significant Accounting Estimates and Judgments

The preparation of these condensed interim consolidated financial statements in accordance with IFRS requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

Significant areas requiring the use of estimates include the collectability of amounts receivable, the useful lives and carrying values of property and equipment and intangible assets, the measurement of share-based compensation, the fair value of warrants issued as compensation, and the measurement of unrecognized deferred income tax assets.

Judgments made by management in the application of IFRS that have a significant effect on the condensed interim consolidated financial statements include the factors that are used in determining the application of the going concern assumption which requires management to take into account all available information about the future, which is at least but not limited to, 12 months from the end of the reporting period.

3. Recently Adopted Accounting Standards

Other accounting standards or amendments to existing accounting standards that have been issued but have future effective dates are either not applicable or are not expected to have a significant impact on the Company’s financial statements.

The principal bears interest at 12% per annum and matures 12 months from the date of issuance of the debentures. The Company received proceeds of $105,000, net of debt financing costs of $5,000. Until the principal and interest are paid in full by the Company, the holder may convert any amount of the principal amount and accrued interest into units of the Company at $0.25 per unit. Each unit consists of one common share of the Company and one share purchase warrant, which is exercisable at $0.90 per share for a period of 2 years following the issuance of the warrant. The holder shall convert a minimum of $10,000 of the principal amount, unless there is less than $10,000 of the principal amount outstanding.

The present value of the convertible debentures at issuance was $107,131, with the residual value of $2,869 being allocated to the equity component. The debt financing costs were allocated between the liability and equity component on a proportional basis, resulting an initial discount of $7,739, which will be recognized over the term of the loan using the effective interest rate method, and $2,739 related to the equity component, which was recognized in equity reserves.

Subsequent to the six months ended June 30, 2020, the Company amended and restated the Convertible Debenture Purchase Agreements (Note 17). Until the principal and interest are paid in full by the Company, the holder may convert any amount of the principal amount and accrued interest into units of the Company at $0.25 per unit. Each unit consists of one common share of the Company and one share purchase warrant, which is exercisable at $0.90 per share for a period of 2 years following the issuance of the warrant. The holder shall convert a minimum of $10,000 of the principal amount, unless there is less than $10,000 of the principal amount outstanding.

The present value of the convertible debenture at issuance was $243,478, with the residual value of $6,522 being allocated to the equity component.

Each unit consisted of one common share and one common share purchase warrant exercisable at $0.12 per share for a period of 24 months. The revised conversion terms represent an inducement to the holder to convert the convertible debenture. As a result, the Company recognized the difference between the fair value of the consideration the holder received on conversion under the revised terms and the fair value of the consideration the holder would have received under the original terms of $171,739 as a loss on settlement of debt.
