Except for statements of historic fact, this news release contains certain "forward-looking information" within the meaning of applicable securities law. Forward-looking information is frequently characterized by words such as "plan", "expect", "project", "intend", "believe", "anticipate", "estimate" and other similar words, or statements that certain events or conditions "may" or "will" occur. Forward-looking statements are based on the opinions and estimates at the date the statements are made, and are subject to a variety of risks and uncertainties and other factors that could cause actual events or results to differ materially from those anticipated in the forward-looking statements including, but not limited to delays or uncertainties with regulatory approvals. The security symbol, FNTYF, is part of the OTC Grey Market, where Fantasy 6 does not provide any reports and has no obligation to do so. There are no market makers under this symbol of this security. It is not listed, traded nor formally quoted on any U.S. stock exchange or the OTC Markets. However, trades in Fantasy 6's stock are reported by broker-dealers to their Self Regulatory Organization ("**SRO**") and the SRO distributes the trade data to market data vendors and financial websites so investors can track price and volume. Since grey market securities are not traded or quoted on an exchange or interdealer quotation system, investor's bids and offers are not collected in a central spot so market transparency is diminished and best execution of orders is difficult. Fantasy 6 is not a filer on EDGAR.
