Report on Business

- 1. Provide a general overview and discussion of the development of the Issuer's business and operations over the previous month. Where the Issuer was inactive disclose this fact.**

UpSnap provides highly-targeted mobile advertising for brands big and small. Combining first-party proprietary data and real-time analytics, UpSnap goes beyond location to deliver site agnostic and results-driven campaigns that produce qualified, engaged customers. UpSnap tailors each mobile advertising campaign to align with unique business goals, delivering the right customers for more meaningful exposure and better business results.

UpSnap offers its mobile advertising services to national brands on a campaign basis. UpSnap offers its mobile advertising services to small businesses on a subscription basis. Small business advertisers pay a monthly fee in return for a fixed number of mobile display ads. The ads typically target a local area and are associated with a strong call to action such as "tap to call", "tap for directions", "tap for appointment", "tap for coupon", or "tap for website". UpSnap generally sells these subscriptions through a reseller network.

In addition to its mobile advertising services, UpSnap provides software and services that allow customers such as telephone carriers to run their own mobile advertising exchanges and software and services that allow customers to perform voice and data searches on proprietary business directories.

UpSnap's products and services are available internationally in 8 countries in North America, Europe and other parts of the world. The principal countries in which UpSnap operates, directly and indirectly, are the United States, Canada and Denmark.

On June 14, 2017, UpSnap issued 22,750,000 common shares to User Friendly Media ("UFM"), a related party, to settle outstanding payable amounts totalling \$455,000. UFM holds, directly or indirectly, an aggregate of 131,398,751 common shares, representing about 49% of outstanding shares.

On June 22, 2017, UpSnap issued a secured debenture for gross proceeds of \$200,000 to UFM, a related party. The debenture bears interest at a rate of 13.5% per annum and matures on June 22, 2018.

2. Provide a general overview and discussion of the activities of management.

Management's focus remains on increasing mobile advertising revenue. Mobile advertising revenue generally comes from two sources: local subscription based campaigns and large or national campaigns.

UpSnap's subscription based product provides small businesses with locally targeted mobile ads that are associated with a strong call to action in return for a monthly fee. UpSnap sells these local ads primarily through a reseller network. In recent months UpSnap's management focus has been on adding new resellers and working with existing resellers to accelerate subscriber growth. There were no significant developments during the month.

Increasing revenue from national campaigns requires establishing long-term relationships with advertisers or their agencies. UpSnap markets to the advertisers and agencies directly through a dedicated sales force. In recent months management has worked at increasing the size and quality of the sales force. There were no significant developments during the month.

In order to earn mobile advertising revenue, UpSnap must source mobile publishers who have places to insert advertisements. UpSnap establishes long-term relationships with publishers as well as with mobile advertising exchanges and mobile RTB networks through a dedicated business development team. There were no significant developments during the month.

17. Discuss any trends which are likely to impact the Issuer including trends in the Issuer's market(s) or political/regulatory trends.

UpSnap is positioned at the intersection of two fast growing trends in the technology industry, being the widespread adoption of smartphones and mobile apps and the rapid growth of mobile advertising.

Based on the benefits of mobile advertising as compared to traditional offline advertising and PC-based advertising, UpSnap believes that advertisers will continue to shift their advertising budgets to mobile. The proliferation of smartphones, mobile apps downloads and general reliance on mobile connectivity provides a high growth market for mobile advertising. In April 2017, PWC released its survey of Interactive Advertising Bureau members for 2016. The report estimates U.S. mobile revenues climbed to \$36.6 billion, up 77% from the prior year. Mobile now represents 51% of the revenues generated by the entire internet advertising marketplace. Management believes that the Company is well positioned to capitalize on opportunities in these markets and views the Company's established presence in such markets as a competitive advantage.
