FORM 7

MONTHLY PROGRESS REPORT

Name of CNSX Issuer: **Musk Metals Corp. (formerly Gold Plus Mining Inc.)** (the "Issuer").

Trading Symbol: **MUSK**

Number of Outstanding Listed Securities: **40,537,366**

Date: **May 3, 2021**

Report on Business

1. Provide a general overview and discussion of the development of the Issuer's business and operations over the previous month. Where the Issuer was inactive disclose this fact.

On April 1, 2021 the Issuer granted 1,200,000 stock options at an exercise price of $0.115 for a one year term to directors, officers and consultants pursuant to its Stock Option Plan. Edge Growth Holdings Corp. and the Issuer mutually concluded the investor relations and capital markets advisory agreement.

On April 7, 2021 the Issuer announced that it had entered into an agreement to acquire a 100% interest in the Pakeagama Lithium claims, located in the "Electric Avenue" pegmatite field of northwestern Ontario. The property consists of four contiguous mining claims covering approximately 1,490 hectares.

The Issuer entered into an option agreement with two arm's length parties pursuant to which the Issuer agreed to the following terms: (a) payment of $8,000 and issuance of 300,000 common shares of the Issuer within three business days of signing the option agreement; (b) payment of $12,000 and issuance of 300,000 common shares of the Issuer on the first-year anniversary; (c) payment of $20,000 on the second-year anniversary; and (d) payment of $30,000 on the third-year anniversary. The property is subject to a 1.5% Net Smelter Return ("NSR") to the Vendor of which the Issuer has the right to purchase a 0.5% NSR for $500,000. The agreement is subject to normal course due diligence and applicable regulatory approval.

On April 12, 2021 the Issuer announced that it had retained Prospectair Geosurveys Inc. ("Prospectair") to complete a high-resolution heliborne magnetic survey on its 100% owned Elon Lithium property. The survey covers over 245 hectares in the La Corne and Fiedmont townships of Quebec, approximately 40 kilometres north of the mining town of Val d'Or.

On April 26, 2021, the Issuer announced that Prospectair had completed a high-resolution heliborne magnetic survey on its Elon Lithium property and had identified magnetic anomalies in preliminary data.

The survey consisted of traverse lines oriented N015 to properly map the dominant magnetic/geological strike, and with a 50m line spacing. Control lines were flown perpendicular to traverse lines and at a 500m line spacing with a total survey distance of 205 l-km. The closely spaced flight lines and low flying high resolution magnetic survey comissioned by the Issuer will vector future exploration efforts to those areas of high merit. The Issuer is planning a two-phase exploration work program includes: data compilation, geological mapping, trenching and sampling in Phase 1 followed by diamond drilling and metallurgical testing in Phase 2.

The Elon Property appear to contains the three favorable geological features for rare metal pegmatites, such as the presence of concordant stacked sills; the presence of a compressed, near vertical, syntectonic mobile zone that is the host of pegmatite intrusion; and dominantly mafic volcanics lithologies as host rocks, often with intercalated metasediments and gabbroic rocks (Pearse & al., 2016).

The circular shaped low magnetic anomaly in the central part of the Property might be associated to a felsic/intermediate intrusion and could the original source of the mineralized fluids in the area. Magnetic high structures could be associated with mafic and ultramafic horizon, which appear to fit with observation by the MERN and is consistent with historic geological observations in the area. Interpreted magnetic lineaments west and south of the interpreted intrusion could be the manifestation of regional faults. These faults could have been used for the fluids to migrate from the intrusion to a flexing competent host rock (the mafic unit) to be trapped and accumulate.

The interpreted intrusion, the interpreted magnetic structures and the interpreted mafic units may be good targets for a Phase 1 exploration campaigns.

The Issuer continued to maintain its business activities including acquiring, exploring and evaluation of mineral properties.

2. Provide a general overview and discussion of the activities of management.

During the month ended April 2021, management continued to work towards developing the Issuer's business as described under Item 1 above.

3. Describe and provide details of any new products or services developed or offered. For resource companies, provide details of new drilling, exploration or production programs and acquisitions of any new properties and attach any mineral or oil and gas or other reports required under Ontario securities law.

Described under Item 1 above.

4. Describe and provide details of any products or services that were discontinued. For resource companies, provide details of any drilling, exploration or production programs that have been amended or abandoned.

None.

5. Describe any new business relationships entered into between the Issuer, the Issuer's affiliates or third parties including contracts to supply products or services, joint venture agreements and licensing agreements etc. State whether the relationship is with a Related Person of the Issuer and provide details of the relationship.

Described under Item 1 above.

6. Describe the expiry or termination of any contracts or agreements between the Issuer, the Issuer's affiliates or third parties or cancellation of any financing arrangements that have been previously announced.

None.

7. Describe any acquisitions by the Issuer or dispositions of the Issuer's assets that occurred during the preceding month. Provide details of the nature of the assets acquired or disposed of and provide details of the consideration paid or payable together with a schedule of payments if applicable, and of any valuation. State how the consideration was determined and whether the acquisition was from or the disposition was to a Related Person of the Issuer and provides details of the relationship.

Described under Item 1 above. The option agreement in respect to the Pakeagama Lithium property was not with any Related Persons of the Issuer. The valuation for the property was determined by arm's-length negotiations.

8. Describe the acquisition of new customers or loss of customers.

None.

9. Describe any new developments or effects on intangible products such as brand names, circulation lists, copyrights, franchises, licenses, patents, software, subscription lists and trade-marks.

None.

10. Report on any employee hiring's, terminations or lay-offs with details of anticipated length of lay-offs.

None.

11. Report on any labour disputes and resolutions of those disputes if applicable.

None.

12. Describe and provide details of legal proceedings to which the Issuer became a party, including the name of the court or agency, the date instituted, the principal parties to the proceedings, the nature of the claim, the amount claimed, if any, if the proceedings are being contested, and the present status of the proceedings.

None.

13. Provide details of any indebtedness incurred or repaid by the Issuer together with the terms of such indebtedness.

None.

14. Provide details of any securities issued and options or warrants granted.

Security	Number Issued	Details of Issuance	Use of Proceeds
Common Shares	**1,269,000**	**April 1, 2021 1,269,000 warrants were exercised at $0.05/share**	**N/A**
Common Shares	**400,000**	**April 1, 2021 400,000 options were exercised at $0.13**	**N/A**
Common Shares	**300,000**	**April 7, 2021**	**Pakeagama Lithium Property Acquisition**
Common Shares	**500,000**	**April 7, 2021 500,000 options were exercised at $0.07**	**N/A**
Common Shares	**1,160,000**	**April 28, 2021 1,160,000 warrants were exercised at $0.05/share**	**N/A**

15. Provide details of any loans to or by Related Persons.

None.

16. Provide details of any changes in directors, officers or committee members.

None.

17. Discuss any trends which are likely to impact the Issuer including trends in the Issuer's market(s) or political/regulatory trends.

The Issuer, like many other listed and private companies, continues to be impacted by the ongoing COVID-19 pandemic. This pandemic has had an impact on the issuer's key markets, and will likely continue to do so until the COVID-19 pandemic is resolved.

The trends and risks which are likely to impact the Issuer are detailed in the Issuer's Form 2A Annual Listing Statement dated January 29, 2020 (the "Listing Statement") under the heading "Item 17. Risk Factors". The Listing Statement was posted on the CSE website on January 29, 2020.

Certificate Of Compliance

The undersigned hereby certifies that:

1. The undersigned is a director and/or senior officer of the Issuer and has been duly authorized by a resolution of the board of directors of the Issuer to sign this Certificate of Compliance.

2. As of the date hereof there is no material information concerning the Issuer which has not been publicly disclosed.

3. The undersigned hereby certifies to CNSX that the Issuer is in compliance with the requirements of applicable securities legislation (as such term is defined in National Instrument 14-101) and all CNSX Requirements (as defined in CNSX Policy 1).

4. All of the information in this Form 7 Monthly Progress Report is true.
