1. Provide a general overview and discussion of the development of the Issuer's business and operations over the previous month. Where the Issuer was inactive disclose this fact.

New Brunswick ("NB") Hemp Project

Drying of the biomass is complete at the project, the approximate 17.5 tonnes of material is currently being stored awaiting further processing. The partners continue to evaluate how best to monetize this material. At this point, they have had discussions with a number of potential purchasers of the biomass.

Management is in the process of securing hemp cultivars containing up to 4% cannabidiol (CBD) which would more than double the performance of cultivars used in 2018.

Scio Oregon High Yielding CBD Hemp Project

The Company is currently looking for approximately 4,000 sq. ft. of warehouse space to store the dried biomass produced from the 2018 harvest and to begin the hammer milling the material in preparation for further processing.

Extraction - Management continues to explore opportunities to partner with seasoned cannabinoid extraction businesses to potentially construct an extraction facility on site to process the 2018 and 2019 harvests while also continuing ongoing discussions with potential off takers for the purchase of the biomass.

The project's operating company Covered Bridge Acres (CBA) has received its registration to cultivate hemp for 2019 from the Oregon Department of Agriculture. Also, for the 2019 season, CBA is now registered to produce or handle agricultural hemp seed, so that the company can establish a breeding program that will potentially generate additional revenue for the project.

Discussions with Local Farmers

Management continues discussions with a number of local farmers interested in consulting, contract farming and share cropping for the 2019 season.
