

FORM 7

MONTHLY PROGRESS REPORT

Name of Listed Issuer: GLOBAL HEMP GROUP INC. (the "Issuer").

Trading Symbol: GHG

Number of Outstanding Listed Securities: 188,197,016

Date: August 7, 2019

1. Provide a general overview and discussion of the development of the Issuer's business and operations over the previous month. Where the Issuer was inactive disclose this fact.

Scio, Oregon Hemp Project – Covered Bridge Acres (CBA)

With all planting activities now complete, the CBA team has turned its attention to planning for the fall harvest.

As discussed in the June monthly report Richardson Gap Farm LLC (RGF) has been unable to process the agreed upon quantities of CBA's biomass due to unforeseen issues with their processing equipment. In light of that, CBA shucked the biomass (removal of the stalks and stems) to prepare the biomass for sale to other processors. The Company has been in discussions with a number of purchasers for the material.

In addition, CBA has entered into an exclusive supply contract with Q Worx LLC (see below for information on Q Worx) to provide all of the hemp fiber required to develop and manufacture the Field Agent, a hemp biocomposite drone for agriculture monitoring. This relationship furthers GHG's efforts to develop a "whole plant processing" model. While cannabinoids are extracted from the flowers and leaves, GHG's Hemp Agro-Industrial Zone model was designed for whole plant processing, to not only extract cannabinoids, but to also process the straw, root and grain into additional value-added sustainable products that are higher quality and longer lasting than the petrochemical based products currently on the market.

Development of Hemp Biocomposite Drone

On July 18, 2019 the Company entered into a Technology Development Agreement with [Q Worx LLC](#) ("QWorx") to develop the world's first commercial hemp biocomposite (H-Fiber) drone specifically designed to monitor large scale cultivations, initially focusing on hemp.

Qworx, in association with [FPV Militia](#), has developed a line of H-Fiber First Person View drones for competitive racing, freestyle and cinematic use. The agreement, for the development of an agricultural monitoring drone dubbed the “Field Agent”, is for a next generation drone that will be capable of monitoring various aspects of hemp cultivation on the farm.

The Field Agent is being constructed out of industrial hemp composites, making this drone stronger than similar models currently on the market made out of carbon fibre. It is non-conductive, made from renewable source materials, and has improved end of use recyclability. In addition, due to the nature of carbon fiber conductance, carbon fiber itself causes major radio frequency interference which can lead to signal degradation and drop out, which can lead to GPS satellite loss, as well as loss in video quality. Using hemp composites have completely eliminated these issues resulting in a far superior flight. The drone will be complete with a custom software platform which will enable the user to preprogram exact flight paths, altitudes and missions, allowing the user to fully automate the drone.

The Field Agent will reduce labour costs as it will reduce the need for team members to walk the field to monitor each plant for sufficient water, nutrients and to identify male plants that need to be culled. The Field Agent will be equipped with multiple cameras to identify potential disease and will connect to sensors strategically placed throughout the field to collect water saturation, soil temperature, nutrient content, among other data. API's are being developed to interface with Agri-Analytics systems to collect and analyze data that can be used to optimize crop production.

Further research with the Field Agent project will be to identify male plants and hermaphrodites that must be culled prior to pollination of the female plants, so as to maintain the highest level of cannabinoid production from the plants, with the ultimate goal of using the drone to also cull the male plants once identified.

QWorx expects to have a working prototype ready to begin beta testing within in 30 to 45 days. Upon successful completion of the on-farm testing, GHG and QWorx will explore manufacturing and marketing of the Field Agent.

GHG and QWorx are in discussions regarding the development of other H-Fiber products in addition to the Field Agent project. With the legalization of hemp in the United States, Research & Development into the use of hemp biocomposites is ramping up. H-Fiber will undoubtedly be utilized as a replacement for carbon or glass fiber in a myriad of commercial applications as a result of this R&D.

2. Provide a general overview and discussion of the activities of management.
See above.
3. Describe and provide details of any new products or services developed or offered. For resource companies, provide details of new drilling, exploration or production programs and acquisitions of any new properties and attach any mineral or oil and gas or other reports required under Ontario securities law.
None
4. Describe and provide details of any products or services that were discontinued. For resource companies, provide details of any drilling, exploration or production programs that have been amended or abandoned.
None
5. Describe any new business relationships entered into between the Issuer, the Issuer's affiliates or third parties including contracts to supply products or services, joint venture agreements and licensing agreements etc. State whether the relationship is with a Related Person of the Issuer and provide details of the relationship.

On July 18, 2019 the Company entered into a Technology Development Agreement with Q Worx LLC to develop the world's first commercial hemp biocomposite (H-Fiber) drone specifically designed to monitor large scale cultivations, initially focusing on hemp. (See #1 above for more detail)

6. Describe the expiry or termination of any contracts or agreements between the Issuer, the Issuer's affiliates or third parties or cancellation of any financing arrangements that have been previously announced.
None
7. Describe any acquisitions by the Issuer or dispositions of the Issuer's assets that occurred during the preceding month. Provide details of the nature of the assets acquired or disposed of and provide details of the consideration paid or payable together with a schedule of payments if applicable, and of any valuation. State how the consideration was determined and whether the acquisition was from or the disposition was to a Related Person of the Issuer and provide details of the relationship.
None
8. Describe the acquisition of new customers or loss of customers.
None

9. Describe any new developments or effects on intangible products such as brand names, circulation lists, copyrights, franchises, licenses, patents, software, subscription lists and trade-marks.
None
10. Report on any employee hirings, terminations or lay-offs with details of anticipated length of lay-offs.
None
11. Report on any labour disputes and resolutions of those disputes if applicable.
None
12. Describe and provide details of legal proceedings to which the Issuer became a party, including the name of the court or agency, the date instituted, the principal parties to the proceedings, the nature of the claim, the amount claimed, if any, if the proceedings are being contested, and the present status of the proceedings.
None
13. Provide details of any indebtedness incurred or repaid by the Issuer together with the terms of such indebtedness.
None
14. Provide details of any securities issued and options or warrants granted.

Security	Number Issued	Details of Issuance	Use of Proceeds (1)
			N/A

(1) State aggregate proceeds and intended allocation of proceeds.

15. Provide details of any loans to or by Related Persons.
None
16. Provide details of any changes in directors, officers or committee members.
None
17. Discuss any trends which are likely to impact the Issuer including trends in the Issuer's market(s) or political/regulatory trends.
None

Certificate of Compliance

The undersigned hereby certifies that:

1. The undersigned is a director and/or senior officer of the Issuer and has been duly authorized by a resolution of the board of directors of the Issuer to sign this Certificate of Compliance.
2. As of the date hereof there where is no material information concerning the Issuer which has not been publicly disclosed.

3. The undersigned hereby certifies to CNSX that the Issuer is in compliance with the requirements of applicable securities legislation (as such term is defined in National Instrument 14-101) and all CNSX Requirements (as defined in CNSX Policy 1).
4. All of the information in this Form 7 Monthly Progress Report is true.

Dated: August 8, 2019.
