2. Provide a general overview and discussion of the activities of management.

During the month of September 2019, management of the Issuer continued to focus on its core business of residential and commercial wood pellet production.

The technical team in Poland, despite many attempts, due to very limited financial resources, were unable to repair the new wood sawdust drying system to this day.

Because of unsuccessful the Debenture Offering and the Units Offering, the Company failed to realized the purchase of the property in Rzeczenica, to prepare and start operating a new pellet production facility in Szczyrkowice and to complete announced on January 18, 2019 a buyout of the lease equipment of the initial pellet production line G2BE Production in Rzeczenica facility. In addition, the company decided to suspend the project related to mobile pellet lines ("MPLs") announced in NR on July 2, 2019 due to limited financial resources.

The Company's planned business objectives for 2019 to establish and increase production in both facilities and integrate a biomass gasification co-generation plant at the facility in Rzeczenica are not achievable because of insufficient funding available and because the current production does not provide sufficient funds to continue operations.
