

## Green 2 Blue Subsidiary Enters Medical Technology Field

**July 6, 2020 (Vancouver, BC): Green 2 Blue Energy Corp.** (CSE:GTBE, OTCQB:GTGEF, FWB:1NZ.F) (the “Company” or “Green 2 Blue”) announces today that its wholly owned subsidiary, Arsenal Health Sciences Corporation (“Arsenal”), has entered into a 90-day interim partnership agreement with a private firm based in Korea that includes an option to execute a definitive agreement after 90 days, upon mutual agreement of the parties. The interim partnership agreement gives Arsenal the right to act as an authorized vendor for a number of Korean medical and bioscience companies that conduct research and manufacture products related to immunological diagnostics and blood monitoring. The products—which bear various approvals from the Conformité Européene (CE), the U.S. Food and Drug Administration (FDA), and/or Health Canada—aid in the diagnosis and monitoring of a variety of medical conditions and pathogens, including SARS-CoV-2 (the COVID-19 virus).

This is the next step in Arsenal’s ongoing exploration of commercial opportunities in the medical technology sector. Arsenal is devising a strategy to distribute testing products and collect and commercialize anonymized diagnostic data on a large scale. Arsenal is also evaluating the possible benefits of incorporating Blockchain technology into its data collection and storage processes.

“Today, Arsenal has entered into an agreement that represents continued forward momentum as Arsenal explores medical technology opportunities around the world,” commented Slawek Smulewicz, CEO of Green 2 Blue. “We are confident that the experience and expertise offered by Arsenal’s Korean partners will aid Arsenal in meeting its diagnostics technology and data platform objectives,” continued Smulewicz.

Arsenal CEO, John Costigan commented, “Arsenal is positioning itself to be a contender in the diagnostics and medical data spheres and we believe the relationships we have established in Korea will provide a pathway for us to meet our goals.”

On Behalf of the Board,
