The outbreak of the coronavirus ("COVID-19") pandemic is likely to impact the Issuer's plans and activities. The Issuer may face disruption to operations, supply chain delays, travel and trade restrictions and impact on economic activity in affected countries or regions can be expected and can be difficult to quantify. The duration of the COVID-19 outbreak and the resultant travel restrictions, social distancing, government response actions, business closures and business disruptions, can all have an impact on the Issuer's operations and access to capital. There can be no assurance that the Issuer will not be impacted by adverse consequences that may be brought about by the COVID-19 pandemic on global financial markets which may result in reduced resource prices, share prices and financial liquidity and thereby may severely limit the financing capital available.
