The accompanying notes are an integral part of these condensed interim consolidated financial statements.

1. NATURE OF OPERATIONS AND GOING CONCERN

Hertz Energy Inc. (the “Company” or “Hertz”) was incorporated on February 15, 2019, in the province of British Columbia, Canada as Hybrid Ventures Inc., and on January 24, 2022, the Company changed its name to Hertz Lithium Inc and then to Hertz Energy Inc. on February 9, 2024. The Company’s head office and registered address is located at 1055 West Georgia Street, 1500 Royal Centre, Vancouver, British Columbia, V6E 4N7, Canada.

The Company is engaged in the exploration and development of mineral resources, currently focusing on projects in British Columbia, Quebec, New Brunswick and Yukon, Canada. Currently, the Company does not own any operating mines and has no operating income from mineral production. Funding for operations is raised primarily through public and private share offerings. It is not known whether the Company’s mineral properties contain reserves that are economically recoverable. The recoverability of amounts recorded by the Company for exploration and evaluation assets is dependent upon the discovery of economically recoverable reserves, the ability to raise funding for continued exploration and development, the completion of property option expenditures and acquisition requirements, or from proceeds from disposition.

These condensed interim consolidated financial statements have been prepared with the assumption that the Company will realize its assets and discharge its liabilities in the normal course of business. The Company’s ability to meet its obligations and maintain its current operations through the ensuing twelve-month period and thereafter is contingent upon successful completion of additional financing arrangements and ultimately upon the discovery of proven reserves and generating profitable operations.

Management expects to be successful in arranging sufficient funding to meet operating commitments for the ensuing year. However, the Company’s future capital requirements will depend on many factors, including the costs of exploring and developing its resource properties, operating costs, the current capital market environment and global market conditions. As of January 31, 2026, the Company has not generated any operating income and has a cumulative deficit of \$5,217,477 (July 31, 2025 - \$4,886,814). Consequently, there is a material uncertainty that may cast significant doubt on the Company’s ability to continue as a going concern. For significant expenditures and resource property development, the Company will depend almost exclusively on outside capital. Such outside capital will include the issuance of additional equity shares. There can be no assurance that capital will be available, as necessary, to meet the Company’s operating commitments and further exploration and development plans. These condensed interim consolidated financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue in existence.

2. BASIS OF PRESENTATION

Statement of compliance

These condensed interim consolidated financial statements of the Company have been prepared in accordance with IFRS Accounting Standards (“IFRS”), as applicable to interim financial reports including International Accounting Standards (“IAS”) 34 Interim Financial Reporting.

These condensed interim consolidated financial statements have been prepared based on accounting principles and methods consistent with those used in the preparation of the audited consolidated financial statements for the year ended July 31, 2025 and should be read in conjunction with the Company’s audited consolidated financial statements for the year ended July 31, 2025. The Company’s interim results are not necessarily indicative of its results for a full year.

Basis of consolidation

These condensed interim consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries, Hertz Lithium USA LLC. (“Hertz US”), incorporated in Utah, USA, Hertz Uranium Inc. (“Hertz Uranium”), incorporated in British Columbia, Canada, and Canuck Lithium Corp. (“Canuck”). Subsidiaries are all entities over which the Company has control. The Company controls an entity where the Company is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity. Subsidiaries are fully consolidated from the date on which control is

HERTZ ENERGY INC.
NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS
FOR THE THREE AND SIX MONTHS ENDED JANUARY 31, 2026 AND 2025
(UNAUDITED – EXPRESSED IN CANADIAN DOLLARS)

transferred to the Company and are deconsolidated from the date that control ceases. All intercompany balances and transactions have been eliminated upon consolidation.

Judgments and estimates

The preparation of the Company's financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, and contingent liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Estimates and assumptions are continuously evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. However, actual outcomes can differ from these estimates. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

Significant estimates and judgments made by management in the preparation of these condensed interim consolidated financial statements are outlined below:

Going concern of operations

Management has applied judgements in the assessment of the Company's ability to continue as a going concern when preparing these condensed interim consolidated financial statements. Management prepares its financial statements on a going concern basis unless management either intends to liquidate the entity or to cease trading or has no realistic alternative but to do so.

Impairment of exploration and evaluation assets

Management considers both external and internal sources of information in assessing whether there are any indications that the Company's exploration and evaluation assets are impaired. External sources of information management considers include changes in the market, economic and legal environments in which the Company operates, that are not within its control and that affect the recoverable amount of its mining properties. Internal sources of information that management considers include the manner in which mining properties are being used, or are expected to be used, and indications of economic performance of the assets.

Where a potential impairment is indicated, assessments are performed for each area of interest. To the extent that deferred exploration expenditures are not expected to be recovered, an impairment is charged to profit or loss. Exploration areas where reserves have been discovered but require major capital expenditure before production can begin, are continually evaluated to ensure that commercial quantities of reserves exist or to ensure that additional exploration work is underway as planned.

An impairment charge relating to an exploration and evaluation asset may be subsequently reversed when new exploration results or actual or potential proceeds on sale or farm-out of the property result in a revised estimate of the recoverable amount but only to the extent that this does not exceed the original carrying value of the property that would have resulted if no impairment had been recognized.

Although the Company has taken steps to verify title to the properties on which it is conducting exploration and evaluation activities, and in which it has an interest, in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company's title. Property title may be subject to unregistered prior agreements, non-compliance with regulatory requirements or aboriginal land claims.

During the year ended July 31, 2025, the Company assessed the existence of impairment indicators with respect to its exploration and evaluation assets and recorded an impairment charge of \$314,986.

CURRENT AND ACTIVE MINERAL PROJECTS:

AC/DC and La Fleur Project, Quebec:

The AC/DC and La Fleur Project consists of certain lithium properties located in Quebec.

On January 31, 2023, Canuck entered into a property purchase agreement (the “Glenn Purchase Agreement”) with Glenn Griesbach, to acquire a 100% beneficial interest in certain lithium mineral tenements located in Quebec, Canada. Pursuant to the Glenn Purchase Agreement, the payments required are as follows:

- a) Cash payment of \$15,000 (paid on January 31, 2023);
- b) Issue 15,000 common shares within 7 days of execution of the agreement (issued on August 15, 2023);
- c) Issue 25,000 common shares upon surface samples results returning samples in excess of 1% lithium; and
- d) Issue 25,000 common shares upon drill results returning minimum of 25 meters with assays of 1% lithium or greater.

The Company also agreed to pay Glenn a 2% NSR Royalty upon commencement of commercial production. The NSR Royalty may be reduced by 1% at any time by paying cash of \$500,000.

On March 31, 2023, Canuck entered into a property purchase agreement with Prospectus Capital Inc. (“Prospectus”), to acquire a 100% beneficial interest in certain mineral tenements located in Quebec, Canada, in exchange for the following considerations:

- a) Cash payment of \$100,000 due 30 days after obtaining a listing on a recognized stock exchange, which has been extended to September 30, 2026 pursuant to an amendment dated September 30, 2024; and
- b) Issue 1,220,000 shares (issued on August 16, 2023).

The Company also agreed to pay Prospectus a 2% NSR Royalty upon commencement of commercial production.

On July 4, 2023, Canuck entered into a property purchase agreement with Anna-Rosa Giglio and 9219-8845 QC. Inc. (collectively referred to as the “Quebec Optionors”), to acquire a 100% beneficial interest in certain mineral tenements located in Quebec, Canada in exchange of 300,000 common shares of Canuck (issued on August 16, 2023). The Company agreed to pay the Quebec Optionors a 2% NSR Royalty upon commencement of commercial production. The NSR Royalty may be reduced by 1% at any time by paying cash of \$500,000.

Harriman Antimony Property, Quebec:

On August 29, 2024, the Company, through its wholly owned subsidiary Canuck, entered into an option agreement with Glenn Griesbach, to acquire a 100% interest in the Harriman Antimony Property, located in the Gaspé region of Québec. The property originally comprised of 49 mineral claims, of which 44 remained in good standing as at January 31, 2026 and July 31, 2025. To exercise the option, the Company must:

- a) Make a cash payment of \$20,000 within 7 business days of execution (paid on November 5, 2024); and
- b) Issue 400,000 common shares as follows:
 - 100,000 common shares upon execution of the agreement and upon receipt of approval from the exchange (Issued on January 9, 2025, valued at \$60,000 based on the Company’s stock trading price at the date of issuance);
 - 150,000 common shares on or before the 12-month anniversary of the agreement date; and
 - 150,000 common shares on or before the 24-month anniversary of the agreement date.

Upon full exercise of the option, the vendor will retain a 2.5% NSR Royalty which may be reduced to 1% upon payment of \$1,500,000 in cash.

Lake George, New Brunswick:

On September 9, 2024, Canuck staked 97 claims surrounding the historic Lake George antimony mine, located approximately 30 km southwest of the city of Fredericton, New Brunswick. As at January 31, 2026, these claims were held in trust by Louis Martin on behalf of the Company pursuant to a trust agreement.

Agastya Property, Quebec:

On December 9, 2024, Canuck entered into a property purchase agreement with Prospectus, to acquire a 60% interest in 207 mineral claims comprising the Agastya Property, located in Quebec, Canada. As consideration, the Company issued 3,200,000 common shares valued at \$1,200,000 based on the Company's 10-day volume-weighted average trading price as of the date of issuance on March 5, 2025. Pursuant to the same agreement, the Company also granted a 2% Gross Metal Royalty to Prospectus. As at January 31, 2026, the property titles remained registered under the name of the original claim holders and were in the process of being transferred to Canuck.

Crag and Rod Properties, Yukon:

On January 26, 2026, Canuck entered into an option agreement with Strategic Metals Ltd. to acquire a 100% interest in the Crag and Rod properties, together with and including the Craig silver-lead-zinc deposit (collectively, the "Crag and Rod Properties"), located in east-central Yukon.

Under the option agreement, the Company will earn the 100% interest for a total consideration of \$2,350,000, comprised of the following:

- a) \$100,000 in cash upon execution (paid subsequent to January 31, 2026);
- b) 2,500,000 common shares issued within 10 business days of execution;
- c) \$1,500,000 payable in cash or common shares of the Company (at the Company's election) on or before the earlier of (i) 10 days following receipt of a Yukon quartz mining land use permit to conduct drilling or (ii) the first anniversary of the agreement.

Upon exercise of the option, Strategic Metals Ltd. shall retain a 2% NSR Royalty on all mineral production from the properties, which may be reduced to 1% at any time prior to a production decision by delivering 500 ounces of gold or the cash equivalent to Strategic Metals Ltd.

PAST AND INACTIVE PROJECTS:

Maskwa Property, Quebec:

On December 20, 2023, the Company entered into an option agreement with Sirios Resources Inc. to acquire a 100% interest in certain mineral claims of Maskwa property located in Eeyou Istchee James Bay in Quebec. Total payments made included cash payment of \$100,000 and exploration expenditures incurred of \$214,986.

During the year ended July 31, 2025, due to a lack of significant results from its prospecting and sampling program, the Company decided not to pursue this project. As a result, the Company fully impaired the property and recorded an impairment loss of \$314,986.

4. SHARE CAPITAL AND RESERVES

The authorized share capital of the Company consists of an unlimited number of common shares without par value.

As at January 31, 2026, the Company had 14,104,671 (July 31, 2025 – 9,904,671) common shares issued and outstanding.

Share consolidation

Effective December 11, 2024, the Company consolidated the issued share capital on the basis of 4 old common shares for one new common share. Effective September 19, 2025, the Company completed another consolidation of its common shares on the basis of one new common share for 2.5 old common shares. These condensed interim consolidated financial statements reflect the share consolidation for all shares, warrants, options and per share amounts retrospectively.

Share issuances

During the six months ended January 31, 2026:

On January 16, 2026, the Company closed a non-brokered private placement for gross proceeds of \$420,000, which consists of 4,200,000 units of the Company at a price of \$0.10 per unit. Each unit consists of one common share and one common share purchase warrant granting the holder the right to purchase one additional common share of the Company at a price of \$0.125 at any time on or before 36 months from closing. In connection with the private placement, the Company paid finders a cash fee totalling \$28,000 and issued a total of 400,000 finder's warrants. Each finder's warrant is exercisable at \$0.125 per share until January 15, 2029. The fair value of the finder's warrants was \$142,138, calculated using Black Scholes Option Pricing model with the following assumptions: stock price - \$0.375 per share, risk-free rate – 2.52%; expected life – 3 years; expected volatility – 190.81%; forfeiture rate – Nil and expected dividends – \$Nil.

During the years ended July 31, 2025:

On January 9, 2025, pursuant to an option agreement for the Harriman Antimony Property, the Company issued 100,000 common shares valued at \$60,000 based on the Company's stock trading price at the date of issuance.

On March 5, 2025, pursuant to a property purchase agreement for the Agastya Property, the Company issued 3,200,000 common shares valued at \$1,200,000 based on the Company's 10-day volume-weighted average trading price as of the date of issuance on March 5, 2025.

Stock Options

On August 29, 2022, the Company adopted and approved a stock option plan for directors, officers, employees, consultants or subsidiaries of the Company (the "Stock Option Plan"). The plan provides that the aggregate number of shares issuable under the plan is limited to 10% of the Company's issued and outstanding common shares at the time the options are granted.

On September 6, 2024, the Company granted an aggregate of 100,000 stock options to consultants, with an exercise price of \$0.85 per share for a period of two years. All stock options vested immediately. The stock options were valued at \$0.57 per option using Black Scholes Option Pricing model with the following assumptions: stock price - \$0.80 per share, risk-free rate – 3.05%; expected life – 2 years; expected volatility – 151.57%; forfeiture rate – Nil and expected dividends – \$Nil.

For the six months ended January 31, 2026, the Company recorded \$1,383 (2025 – \$59,716) as share-based compensation expense.

A summary of the movements of the stock options is presented below:
