15. Discuss any trends which are likely to impact the Issuer including trends in the Issuer's market(s) or political/regulatory trends.

The Company may be impacted by business interruptions resulting from pandemics and public health emergencies, including those related to COVID-19. An outbreak of infectious disease, a pandemic, or a similar public health threat, such as the outbreak of COVID-19, or a fear of any of the foregoing, could adversely impact the Company by causing operating, manufacturing, supply chain, and project development delays and disruptions, labor shortages, travel, and shipping disruption and shutdowns (including as a result of government regulation and prevention measures). It is unknown whether and how the Company may be affected if such a pandemic persists for an extended period of time, including as a result of the waiver of regulatory requirements or the implementation of emergency regulations to which the Company is subject. Although the Company has been deemed essential and/or has been permitted to continue operating its facilities in the states in which it cultivates, processes, manufactures, and sells cannabis during the pendency of the COVID-19 pandemic, subject to the implementation of certain restrictions on adult-use cannabis sales in both Massachusetts and Nevada, which have since been lifted, there is no assurance that the Company's operations will continue to be deemed essential and/or will continue to be permitted to operate. The Company may incur expenses or delays relating to such events outside of its control, which could have a material adverse impact on its business, operating results, financial condition and the trading price of the Company's common shares.

Regulatory Risks

Conflicts of Interest

Certain directors of the Company also serve as directors and/or officers of other companies involved in other business ventures. Consequently, there exists the possibility for such directors to be in a position of conflict. Any decision made by such directors involving the Company will be made in accordance with their duties and obligations to deal fairly and in good faith with the Company and such other companies. In addition, such directors will declare, and refrain from voting on, any matter in which such directors may have a conflict of interest.

Negative Operating Cash Flows

As the Company is in the early start-up stage it may continue to have negative operating cash flows. Without the injection of further capital and the development of revenue streams from its business, the Company may continue to have negative operating cash flows until it can realize stable cash flow from operations.

Risks Related as a Going Concern

The ability of the Company to continue as a going concern is uncertain and dependent upon its ability to achieve profitable operations, obtain additional capital and receive continued support from its members. Management of the Company will have to raise capital through private placements or debt financing and proposes to continue to do so through future private placements and offerings. The outcome of these matters cannot be predicted at this time.

Passive Foreign Investment Company

There is a risk that the Company is a passive foreign investment company ("PFIC"). If the Company is a passive foreign investment company, its shareholders in the U.S. are likely subject to adverse U.S. tax consequences. Under U.S. federal income tax laws, if a company is a PFIC for any year, it could have adverse U.S. federal income tax consequences to a U.S. shareholder with respect to its investment in the Company's shares. The Company earns significant royalty and franchise revenue, which may be treated as passive income unless the royalty and franchise revenue is derived in the active conduct of a trade or business. Assessing whether royalty or franchise revenue received by the Company and its subsidiaries is derived in the active conduct of a trade or business involves substantial factual and legal ambiguity.

Therefore, whether the Company is a PFIC is unclear, and the Company believes there is a significant risk that the Company will be considered a PFIC currently or in the future. The Company has not yet made a determination as to whether the Company is a PFIC, and even if the Company were to make determinations of its PFIC status, there can be no assurances that the U.S. Internal Revenue Service will agree with such determinations. Furthermore, because PFIC determinations are made annually, it is possible that the Company will meet the requirements to be treated as a PFIC in one or more years but not meet such requirements in other years. U.S. shareholders should consult their own tax advisors regarding the potential adverse tax consequences to owning PFIC stock, and whether they are

able to and should make any elections or take other actions to mitigate such potential adverse tax consequences.

Cannabis-related Practices or Activities are Illegal Under U.S. Federal Laws

The concepts of “medical cannabis” and “retail cannabis” do not exist under U.S. federal law. The Federal Controlled Substances Act classifies “marijuana” as a Schedule I drug. Under U.S. federal law, a Schedule I drug or substance has a high potential for abuse, no accepted medical use in the United States, and a lack of safety for the use of the drug under medical supervision. As such, cannabis-related practices or activities, including without limitation, the manufacture, importation, possession, use or distribution of cannabis are illegal under U.S. federal law. Strict compliance with state laws with respect to cannabis will neither absolve the Company of liability under U.S. federal law, nor will it provide a defense to any federal proceeding which may be brought against the Company. Any such proceedings brought against the Company may adversely affect the Company’s operations and financial performance.

Dividends

The Company does not anticipate paying any dividends on the common shares in the foreseeable future. Dividends paid by the Company would be subject to tax and, potentially, withholdings.

Reliance on Key Personnel and Advisors

The Company relies heavily on its officers. The loss of their services may have a material adverse effect on the business of the Company. There can be no assurance that one or all of the employees of, and contractors engaged by, the Company will continue in the employ of, or in a consulting capacity to, the Company or that they will not set up competing businesses or accept positions with competitors. There is no guarantee that certain employees of, and contractors to, the Company who have access to confidential information will not disclose the confidential information.

Certificate Of Compliance

The undersigned hereby certifies that:

1. The undersigned is a director and/or senior officer of the Issuer and has been duly authorized by a resolution of the board of directors of the Issuer to sign this Certificate of Compliance.
2. As of the date hereof there is no material information concerning the Issuer which has not been publicly disclosed.
3. The undersigned hereby certifies to the Exchange that the Issuer is in compliance with the requirements of applicable securities legislation (as such term is defined in National Instrument 14-101) and all Exchange Requirements (as defined in CNSX Policy 1).
4. All of the information in this Form 7 Monthly Progress Report is true.
