

Isodiol Receives Government Approval for Pure, Natural CBD as an Active Pharmaceutical Ingredient

Isodiol's subsidiary, BSPG Laboratories, LTD. has commercialized manufacturing of pure, natural CBD as an API for the pharmaceutical and research industry.

April 26, 2018 - Vancouver, BC – [Isodiol International Inc.](#) (CSE: [ISOL](#)) (OTC: [ISOLF](#)) (FSE: [LB6A.F](#)) (the “Company” or “Isodiol”), a global CBD innovator specializing in the development of pharmaceutical actives and health and wellness products, is pleased to announce that the Company’s wholly owned subsidiary BSPG Laboratories, LTD. has received government approval from United Kingdom’s Medicines and Healthcare Products Regulatory Agency (MHRA), in accordance with The Human Medicines Regulations 2012 (SI 2012/1916), for the manufacturing of the active substance Cannabidiol (CBD) under certificate number: UK API 48727.

[MHRA](#) is an executive agency of the United Kingdom’s Department of Health and is the regulatory agency that regulates medicines and medical devices. The MHRA is also a part of the European system of approval, where the MHRA or other national bodies can take on the verification work on behalf of all its members. Further, the MHRA is recognised globally as an authority in its field and plays a leading role in protecting and improving public health and supports innovation through scientific research and development.

“This approval validates the consistent quality of our pure, natural CBD isolate and the patented manufacturing processes,” said CEO of Isodiol, Marcos Agramont. “This event is a first in the industry and now enables Isodiol to focus on the development of CBD based drugs that will address a myriad of conditions that are affecting so many people around the world. With this approval, we will now rapidly advance our pharmaceutical and drug development divisions.”

With the MHRA approval and because it meets all legal requirements under international law, the Company is now able to export the pure, natural CBD anywhere in the world, subject to pharmaceutical regulations. This approval sets Isodiol apart from all other CBD companies globally as a secure and reliable supplier positioned to be able to serve this newly created demand for CBD drug development, approved pharmaceutical applications, research, clinical studies, and clinical trials. Upon completion of the company’s new state-of-the-art manufacturing facility in Q1-2019, the Company’s production output

capabilities will increase to approximately 20,000 kilos of CBD - API quality input material annually.

Dean Billington, QP Consultant of BSPG Laboratories LTD stated, "This is a huge achievement by BSPG laboratories and reflects the significant work and efforts made by the staff and management. The API registration also clearly demonstrates the commitment of BSPG Laboratories and Isodiol to manufacture the highest quality CBD currently available worldwide."
