In September, the board of directors and management assisted with the developments described in Section 1 above. Also in September, the Issuer advised the Canadian Securities Exchange ("CSE") that it will extend for a further 120 days from September 28, 2018, the time within which existing options to acquire additional Convertible Debentures of the Issuer may be exercised.

As previously announced, the Issuer received CSE approval for a private placement to a maximum of \$3,000,000 of debentures convertible at the option of the Issuer into units with a deemed value of \$21 per unit (each a "Unit") under which each subscriber receives an option (the "Option") to acquire an equal amount of additional debentures at any time within 120 days from closing. Each Unit is comprised of four KWG.A multiple voting shares and four multiple voting share purchase warrants, with each such warrant enabling its holder to acquire one further KWG.A multiple voting share from treasury upon payment of \$7.50 at any time within two years from the date of the debenture's issuance. The debentures bear interest at a rate of 12% per annum, accruing daily, compounding annually and payable at the earlier of maturity, redemption or conversion, in KWG.A multiple voting shares from treasury at their volume-weighted average price ("VWAP") for the ten trading days prior to payment. The debentures secure repayment of the principal, plus interest earned thereon to the date of payment, plus a premium of 20% of the original principal amount payable immediately following issuance of the debenture by the issuance of Units with a deemed value of \$21 per Unit. At any time and from time to time, the Issuer has the right to redeem the debenture in whole or in part by payment in cash, or convert the debentures in whole or in part into Units.
