

Kontrol Energy Announces DTC Eligibility

Increases Accessibility for US Investors

TORONTO, ON / June 4th, 2019 / Kontrol Energy Corp. (CSE: KNR, OTCQB: KNRLF, FSE:1K8) ("Kontrol" or 'Company') a leader in the energy efficiency sector through IoT, Cloud and SaaS technology announces that its shares have received Depository Trust Company (DTC) full-service eligibility in the United States.

DTC eligibility is expected to simplify the process of trading and enhance liquidity of the Company's common shares in the United States. Securities that are eligible to be electronically cleared and settled through DTC are considered DTC eligible. DTC eligibility enables shares of Kontrol to be distributed, settled and serviced through DTC's automated processes, thereby taking advantage of the efficiencies created in the electronic method of clearing securities and the resulting cost benefits that DTC provides through accelerated settlement processes.

Companies that are DTC eligible may experience higher trading volumes in their stock given the additional accessibility and availability of shares for trading. "DTC eligibility is another milestone for Kontrol," said Paul Ghezzi, CEO. "With improved settlement for our common shares, it creates the opportunity for US investors to more easily participate in the Company's growth."

About Kontrol Energy

Kontrol Energy Corp. (CSE: KNR) (OTCQB: KNRLF) (FSE: 1K8) is a leader in the energy efficiency sector through IoT, Cloud and SaaS technology. With a disciplined mergers and acquisition strategy, combined with organic growth, Kontrol Energy Corp. provides market-based energy solutions to our customers designed to reduce their overall cost of energy while providing a corresponding reduction in greenhouse gas (GHG) emissions.

Kontrol Energy was recently announced as the 7th fastest growing Startup in Canada by *Canadian Business* and *Maclean's*.

Forward-Looking Information

Certain information included in this press release, including information relating to future financial or operating performance and other statements that express the expectations of management or estimates of future performance constitute "forward-looking statements". Such forward-looking statements include, without limitation, higher trading volumes in their stock given the additional accessibility and availability of shares for trading, statements regarding possible future acquisitions and/or investments in operating businesses and/or technologies, accelerated organic growth, expansion of smart energy technologies into US markets, strategic partnerships to expand into North American Markets, acceleration of recurring SaaS revenues, the provision of solutions to customers and Greenhouse Gas emissions reductions, proposed financial savings and sustainable energy benefits and energy monitoring. Where the Company expresses or implies an expectation or belief as to future events or results, such expectation or belief are based on assumptions made in good faith and believed to have a reasonable basis. Such assumptions include, without limitation, that suitable businesses and technologies for acquisition and/or investment will be available, that such acquisitions and or investment transactions will be concluded, that sufficient capital will be available to the Company, that technology will be as effective as anticipated, that organic growth will occur, and others. However, forward-looking statements are subject to risks, uncertainties and other factors, which could cause actual results to differ materially from future results expressed, projected or implied by such forward-looking statements. Such risks include, but are not limited to, lack of acquisition and investment opportunities or that such opportunities may not be concluded on reasonable terms, or at all, that sufficient capital and financing cannot be obtained on reasonable terms, or at all, that technologies will not prove as effective as expected that customers and potential customers will not be as accepting of the Company's product and service offering as expected, and government and regulatory factors impacting the energy conservation industry. Accordingly, undue reliance should not be placed on forward-looking statements and the forward-looking statements contained in this press release are expressly qualified in their entirety by this cautionary statement. The forward-looking statements contained herein are made as at the date hereof and the Company does not undertake any obligation to update publicly or revise any such forward-looking statements or any forward-looking statements contained in any other documents whether as a result of new information, future events or otherwise, except as required under applicable securities law.
