

Kontrol receives UL standards approval for BioCloud technology - *Kontrol BioCloud a Safe Space Technology™* -

TORONTO, ON / November 12th, 2020 / Kontrol Energy Corp. (CSE:KNR) (OTCQB:KNRLF) (FSE:1K8) ("Kontrol" or "Company") is pleased to announce that it has received UL standards approval for its BioCloud® technology. As referenced in the press release dated November 5th, 2020, Kontrol has previously received CSA standards approval and has now received UL standards approval.

"We continue to execute on the important milestones for commercialization of BioCloud," says Paul Ghezzi, CEO of Kontrol. "With CSA and UL we now have standards approval that covers Canada, the United States and various other global regions. We continue to work towards CE standards certification which is primarily for the European market."

Field Certification was provided by ESAFE

Underwriters' Laboratories or UL regulations require manufacturers of products sold in the United States to receive UL Standards approval for electrical safety.

ESAFE is accredited by the Standards Council of Canada (SCC), as an Inspection Body (ISO 17020) and Certification Body (ISO 17065). As an accredited agency, ESAFE is authorized to approve and label equipment for electrical safety.

About Kontrol BioCloud®

BioCloud® is a real-time analyzer designed to detect airborne viruses. It has been designed to operate as a safe space technology by sampling the air quality over time. With a proprietary detection chamber that can be replaced as needed, viruses are detected, and an alert system is created in the Cloud or over local intranet. BioCloud® has been designed for spaces where individuals gather including classrooms, retirement homes, hospitals, mass transportation and others

BioCloud® is not a medical device and the Company is not making any express or implied claims that its product has the ability to eliminate, cure or contain the COVID-19 (or SARS-2 Coronavirus).

About Kontrol Energy

Kontrol Energy Corp. (CSE: KNR) (OTCQB: KNRLF) (FSE: 1K8) is a leader in the energy efficiency sector through IoT, Cloud and SaaS technology. With a disciplined mergers and acquisition strategy, combined with organic growth, Kontrol Energy Corp. provides market-based energy solutions to our customers designed to reduce their overall cost of energy while providing a corresponding reduction in greenhouse gas (GHG) emissions.

Kontrol Energy is one of Canada's fastest growing companies in 2018 and 2019 as ranked by Canadian Business and Maclean's.

Forward-Looking Statements

This news release contains "forward-looking information" within the meaning of applicable securities laws. All statements contained herein that are not clearly historical in nature may constitute forward-looking information. In some cases, forward-looking information can be identified by words or phrases such as "may", "will", "expect", "likely", "should", "would", "plan", "anticipate", "intend", "potential", "proposed", "estimate", "believe" or the negative of these terms, or other similar words, expressions and grammatical variations thereof, or statements that certain events or conditions "may" or "will" happen, or by discussions of strategy.

Where the Company expresses or implies an expectation or belief as to future events or results, such expectation or belief is based on assumptions made in good faith and believed to have a reasonable basis. Such assumptions include, without limitation, that sufficient capital will be available to the Company and that technology will be as effective as anticipated.

However, forward-looking statements are subject to risks, uncertainties, and other factors, which could cause actual results to differ materially from future results expressed, projected, or implied by such forward-looking statements. Such risks include, but are not limited to, that sufficient capital and financing cannot be obtained on reasonable terms, or at all, that technologies will not prove as effective as expected, that customers and potential customers will not be as accepting of the Company's product and service offering as expected, and government and regulatory factors impacting the energy conservation industry. In particular, successful development and commercialization of the Kontrol BioCloud Analyzer (BioCloud®) are subject to the risk that the Kontrol BioCloud Analyzer may not prove to be successful in detecting the virus that causes COVID-19 effectively or at all, uncertainty of timing or availability of any regulatory approvals and Kontrol's lack of track record in developing products for medical applications.

Accordingly, undue reliance should not be placed on forward-looking statements and the forward-looking statements contained in this press release are expressly qualified in their entirety by this cautionary statement. The forward-looking statements contained herein are made as at the date hereof and are based on the beliefs, estimates, expectations, and opinions of management on such date. Kontrol does not undertake any obligation to update publicly or revise any such forward-looking statements or any forward-looking statements contained in any other documents whether as a result of new information, future events or otherwise or to explain any material difference between subsequent actual events and such forward-looking information, except as required under applicable securities law. Readers are cautioned to consider these and other factors, uncertainties, and potential events carefully and not to put undue reliance on forward-looking information.
