Liht Cannabis Corp. Announces Letter of Intent for ‘Track-and-Trace’ Software and Hardware for its Nevada Operations

Liht Cannabis Corp. (CSE: LIHT) (OTCQX: LIHTF) or the “Company”) is pleased to announce that it has entered into an arm’s length letter of intent dated March 11, 2019 with Trackloop Analytics Corp. (“Trackloop”) for the purpose of testing and implementing Trackloop’s technology in our Nevada cannabis operations. Trackloop’s real-time tracking software will be used by the Company, to monitor the movement of all inventory throughout the supply chain, providing visual data mapping of temperature monitoring, real-time records of pick up/drop off, location tracking and full integration with existing inventory management and other Enterprise Resource Planning (ERP) solutions.

An integral component to the legal cannabis supply chain is the transporting of all cannabis products between cultivator, producers and retailers. We are interested in onboarding this all in one, real-time tracking and logistics solution because it addresses a key pain point that exists in cannabis logistics, which is tracking and monitoring the movement of product through the supply chain.

Further details regarding the proposed transaction and its terms and conditions will be negotiated and provided in a comprehensive press release if and when the parties enter into a definitive agreement.
