Our proprietary cultivation methodologies at our North Las Vegas Apex facility maximize the potential for our unique genetic library of organic cannabis strains and produce a retail product that garners a market premium. Being a premium organic producer in one of the biggest markets in the U.S. positions Fiore well for growth into 2021 and beyond. We have installed full spectrum LED lighting from Fluence in the facility and are eagerly looking forward to increasing supply of a highly sought-after product in the Nevada market.”
