Marapharm Ventures Inc. Updates shareholders on its North Las Vegas, Nevada facilities

Marapharm Ventures Inc. (CSE: MDM) (OTCQX: MRPHF) (FSE: 2M0) (“Marapharm” or the “Company”) provides an update to shareholders on the status of permitting for final occupancy and continued cultivation in the temporary buildings.

Our Contractor, Rafael Construction and Engineer, Pacific Design Concepts are “quarterbacking” their efforts to complete requirements as quickly as possible. Working with the City of North Las Vegas, Fire Department, and general contractors to conclude the final permitting necessary for our Certificates of Occupancy. Many of the city departments including Planning, Building Inspection and Fire have been extremely short staffed which have contributed to delays.

Kurt Keating, Director of Operations, reports: The existing vegetative plants are flourishing and vibrant. We are preparing our core genetics for propagation by increasing our plant count to meet our production cycle demands, in preparation for transitioning to the new buildings.

Over 100+ varieties of supplemental genetics in seed form have recently been added to our inventory. In addition to our core offerings, these supplemental genetics will be limited time offerings (LTO), seasonal offerings and special releases to keep pace with market demand and keep Marapharm ahead of the competition.

We’re greatly anticipating our transition to full production. Our cultivation and compliance teams are building the future for Marapharm each day. Our objective is grand and achievable; we will focus on classic,

award winning, and new varieties for the Vegas market all cultivated under certified organic protocol to ensure customer satisfaction and safety. Kurt Keating, Director of Operations.

MARIJUANA INDUSTRY INVOLVEMENT:

Canadian listings (CSE) will remain in good standing as long as they provide the disclosure that is rightly required by regulators and complying with applicable licensing requirements and the regulatory framework enacted by the applicable state in which they operate.

Marapharm owns marijuana licenses in California and Nevada. Marijuana is legal in each state however marijuana remains illegal under US federal law and the approach to enforcement of US federal law against marijuana is subject to change. Shareholders and investors need to be aware that adverse enforcement actions could affect their investments and that Marapharm's ability to access private and public capital could be affected and or could not be available to support continuing operations. Marapharm's business is conducted in a manner consistent with state law and is in compliance with licensing requirements.

Copies of licenses are posted on Marapharm's website. Marapharm has internal compliance procedures in place and has compliance focused attorneys engaged in jurisdictions to monitor changes in laws for compliance with US federal and state law on an ongoing basis. These law firms inform any necessary changes to our policies and procedures for compliance in Canada and the US.
