***BIG Blockchain Intelligence Group Inc.** ("BIG" or the "Company") (CSE: BIGG) has developed from the ground up a Blockchain agnostic search and analytics engine allowing Fintech, Regtech, Law Enforcement & Government Agencies to trace, track and monitor cryptocurrency transactions at a forensic level. Our commercial product, BitRank*

Verified™, offers a “risk score” for bitcoin wallets allowing banks, exchanges and eCommerce sites to meet traditional regulatory/compliance requirements.

This status simplifies the process of investors and brokers trading and exchanging our stock in the United States, which will benefit BIG and our shareholders. We also expect that being DTC-eligible will improve our overall share liquidity and the attractiveness of BIG’s shares on the market, particularly as we continue to sign on new clients around the world.

In April 2018, BIG added a client and entered into additional value-added reseller agreements with respect to our proprietary cryptocurrency risk-scoring service BitRank Verified™ (see items 5 & 8 below).

- *Blockchain Next Corporation (“Blockchain Next”) – a new distribution partner, Blockchain Next was granted an exclusive agreement for the Japanese territory, to market BIG’s proprietary KYC (Know Your Customer) and AML (Anti-Money Laundering) cryptocurrency verification and risk-scoring product, BitRank Verified™. This is significant as Japan is the global leader in cryptocurrency market development, with a solid legal system designed to support the industry and regulate cryptocurrency trading. As of late 2017, Japan had 16 companies operating cryptocurrency exchanges, and the country accounted for roughly half the global trade volume in Bitcoin. At that time, over 4,500 stores in Japan accepted payments in Bitcoin, with the Nikkei forecasting that number could rise fivefold. Roughly 260,000 businesses were already using the Air Regi point-of-sale app and had the option to accept payments in Bitcoin.*

- *SHS Viveon AG (“SHS Viveon”) – SHS VIVEON is integrating the BitRank Verified™ service into its software-based customer management platform to help assess client risk and provide enhanced virtual currency transaction transparency and confidence. SHS VIVEON's software solutions being integrated with BIG's BitRank Verified™ service include DebiTEX (credit management), GUARDEAN RiskSuite (risk management) and profitBOX (payment method control in e-commerce). BIG will receive fees for all virtual currency transactions processed through SHS VIVEON's platform that utilize BitRank Verified™. Founded in 1991, and headquartered in Munich, Germany, SHS VIVEON offers solutions for risk and credit management, including customer assessments to minimize default risks.
