Development

*During December 2018, Glance announced it had entered into a strategic alliance and referral agreement with Merchant Advance Capital Limited Partnership, to work towards being able to provide funding to small and medium-sized businesses by purchasing a specified percentage of future receivables. Under the terms of the Strategic Alliance Agreement, Glance and Merchant Advance Capital will collaboratively market and promote each other's businesses through their respective marketing and sales channels. Under the terms of the Referral Agreement, Glance will be paid a fee for each transaction that Merchant Advance Capital closes from a Glance generated lead. Through this new partnership, small businesses operating on the Glance platforms may now be eligible to receive financing in as little as one to three business days.*

*Glance also announced that it has filed a provisional patent application with the United States Patent and Trademark Office directed at methods, systems and techniques for cryptographic token transfers. This patent application is for a foundational technology to lower costs and improve speed and efficiency of cryptocurrency transactions, even where the value of the transaction may be relatively small, as well as to facilitate converting between cryptocurrencies whose transactions are recorded on different blockchains. It also facilitates storing information of different sensitivity levels on differently permissioned blockchains, which can be useful when privacy is important.*

*Also in December, Glance announced its proprietary fraud prevention technology has resulted in less than 0.018% of its transactions being fraudulent across all of its live locations.*
