World-Class is an innovation-driven company which deploys and manages custom-built extraction centers for licensed cannabis and hemp processors. Utilizing its custom technology and processes, World-Class enables its licensed partners to efficiently produce high-margin cannabis and hemp concentrates and oils. Through its relationships with licensed partners, World-Class has the ability to offer toll processing of cannabis and hemp to licensed third parties that lack the expertise and equipment required to produce high-quality cannabis and hemp concentrates and end-products. In addition, Pineapple Express Delivery Inc., a World-Class subsidiary, offers legal cannabis delivery services for both the medical

and recreational markets in Ontario, as well as certain other provinces within Canada.

2. Provide a general overview and discussion of the activities of management.

During the month of May, management re-evaluated its business plan to streamline operations and determine which business ventures the Company would concentrate on moving forward.

3. Describe and provide details of any new products or services developed or offered. For resource companies, provide details of new drilling, exploration or production programs and acquisitions of any new properties and attach any mineral or oil and gas or other reports required under Ontario securities law.

During May 2020, PED expanded its services and entered into a delivery agreement for the delivery of liquor from Saskatoon Co-operative Association Ltd.'s wine-spirits-beer retail stores. In accordance with the Alcohol Control Regulations, Saskatoon Co-op operates a retail liquor store within the terms and conditions established by the authority.

PED continues to provide same day and next-day delivery options servicing both B2B (business to business) and B2C (business to consumer) customers in the legal medical and recreational cannabis industry since October 17th, 2018. PED has established in-depth security and delivery protocols with provincial offices set up across Canada.

4. Describe and provide details of any products or services that were discontinued. For resource companies, provide details of any drilling, exploration or production programs that have been amended or abandoned.

While the Company continues to grow and expand, management has re-evaluated its business plan to align with changing market conditions. These market circumstances have impacted some of the Company's previously announced ventures and as a result, during the month of May, the Company announced that the following ventures will not be proceeding:
