Report on Business

1. Provide a general overview and discussion of the development of the Issuer's business and operations over the previous month. Where the Issuer was inactive disclose this fact.

Report on Business: The Company drilled three wells at the Catriel Oeste Oil Concession, located in Rio Negro Province, Argentina, which was the property of Central Argentina International Sucursal Argentina ("Central"). Central now has advised Jagercor that the Province of Rio Negro has rejected its offer, denying an extension of the actual concession agreement. Without an extension agreement, production rights over the 3 wells terminate.

These wells were drilled as part of a project agreed to by Jagercor with Central pursuant to the Development Agreement (the "Development Agreement") announced on August 7, 2014.

The Company will evaluate its business options as a result of the effective termination of the Development Agreement as a result of Central's inability to obtain a concession extension from the Province.

2. Provide a general overview and discussion of the activities of management.

General Overview and Discussion: Management plans to continue to evaluate and explore commercial opportunities, with an emphasis on acquiring and developing oil and gas properties with particular focus in the near term, over energy concessions in South America. The Issuer has a skillful technical and highly trained management team with many years of operational experience in the oilfield operation sector in Argentina.

On February 17, 2017, Jagercor announced that in its November 7, 2016 and December 12, 2016 News Releases, Central had advised Jagercor that the Province had granted a temporary extension of the actual concession agreement until December 10, 2016 to maintain actual commercial conditions in order to complete negotiations for the requested 10 year concession extension period. The Catriel Oeste Oil Concession, located in Rio Negro Province, Argentina is the property of Central, and the Company holds its interest in Catriel Oeste through a Development Agreement between the Company's Argentine subsidiary and Central as previously announced on August 7, 2014.

In January, Central advised Jagercor that Central continued to be involved in negotiations with the Rio Negro Province to extend the concession and had advised of a new offer to the Province related to extension agreement. However, Central now has advised Jagercor that the Province of Rio Negro has rejected its offer, denying an extension of the actual concession agreement. As of today, Central is operating the Catriel Oeste oilfield until the Province initiates transfer of the asset (concession) to Provincial Hydrocarbons Company. Without an extension agreement, production rights over the 3 wells terminate.

In the meantime, Central has failed to make payments to Jagercor under the Development Agreement for the periods of December and January, which the Company estimates to be approximately \$90,000. Jagercor is considering the options available to it to recover the payments owed under the Development Agreement.

The Company will continue to update the market as it obtains additional information about the Central situation. The Company will evaluate its business options as a result of the effective termination of the Development Agreement as a result of Central's inability to obtain a concession extension from the Province.

4. Describe and provide details of any products or services that were discontinued. For resource companies, provide details of any drilling, exploration or production programs that have been amended or abandoned.
