

FORM 7

MONTHLY PROGRESS REPORT

Name of Listed Issuer: Intellabridge Technology Corporation (the “Issuer”, “Intellabridge”, or the “Company”).

Trading Symbol: KASH

Number of Outstanding Listed Securities: 72,567,476

Date: April 6, 2026

This Monthly Progress Report must be posted before the opening of trading on the fifth trading day of each month. This report is not intended to replace the Issuer’s obligation to separately report material information forthwith upon the information becoming known to management or to post the forms required by Exchange Policies. If material information became known and was reported during the preceding month to which this report relates, this report should refer to the material information, the news release date and the posting date on the Exchange website.

This report is intended to keep investors and the market informed of the Issuer’s ongoing business and management activities that occurred during the preceding month. Do not discuss goals or future plans unless they have crystallized to the point that they are “material information” as defined in the Policies. The discussion in this report must be factual, balanced and non-promotional.

General Instructions

- (a) Prepare this Monthly Progress Report using the format set out below. The sequence of questions must not be altered nor should questions be omitted or left unanswered. The answers to the items must be in narrative form. State when the answer to any item is negative or not applicable to the Issuer. The title to each item must precede the answer.
- (b) The term “Issuer” includes the Issuer and any of its subsidiaries.
- (c) Terms used and not defined in this form are defined or interpreted in Policy 1 – Interpretation and General Provisions.

Report on Business

1. Provide a general overview and discussion of the development of the Issuer’s business and operations over the previous month. Where the Issuer was inactive disclose this fact.

During the period, Intellabridge continued to execute its 2026 strategic roadmap, focusing on operational mobilization and financial reporting.

Following the strategic staging performed in the first two months of the year, Management utilized March to finalize the technical orchestration layer required for the upcoming pilot program. This phase is a critical prerequisite for the transition from R&D to active deployment, ensuring that the Company is prepared for real-world mobility environments. Management is pleased to report that this final stage of preparation is concluding, with the commencement of the pilot program scheduled for April 2026.

In addition to operational readiness, a significant portion of Management's focus was dedicated to the finalization of the 2025 year-end audit. Ensuring rigorous financial transparency remains a core priority as the Company scales its business model. By maintaining a lean operational profile and focusing on capital efficiency, the Company is strengthening its foundation ahead of the data-driven milestones expected from the pilot results in Q2 2026. Management continues to work toward the deployment of an integrated solution aimed at establishing a consistent revenue stream within the 2026 calendar year.

2. Provide a general overview and discussion of the activities of management.

During the month of March, Management's primary activities were centered on operational finalization and regulatory compliance. Key focus areas included:

- **Pilot Program Readiness:** Completing the foundational orchestration protocols required for the April pilot launch. This phase ensures the Company's framework is prepared to support the upcoming mobility initiatives.
- **Audit Coordination:** Working with the Company's auditors to finalize the 2025 annual financial statements. This process is essential for maintaining the Company's standing as a transparent reporting issuer on the CSE.
- **Capital Mobilization:** Continuing discussions with financial partners to support the expansion of the Company's business plan and the long-term acquisition of strategic assets.
- **Risk-Based Validation:** Conducting final stress-tests of the "simulate-then-deploy" methodology to identify any remaining operational contingencies before the pilot moves into the active phase.
- **Strategic Positioning:** Aligning the Company's technical roadmap with SDG 7 (Clean Energy), SDG 9 (Innovation and Infrastructure) and SDG 11 (Sustainable Cities) to ensure the upcoming pilot data reflects the Company's sustainability mandates.

3. Describe and provide details of any new products or services developed or offered. For resource companies, provide details of new drilling, exploration or production programs and acquisitions of any new properties and attach any mineral or oil and gas or other reports required under Ontario securities law.

N/A

4. Describe and provide details of any products or services that were discontinued. For resource companies, provide details of any drilling, exploration or production programs that have been amended or abandoned.

N/A

5. Describe any new business relationships entered into between the Issuer, the Issuer's affiliates or third parties including contracts to supply products or services, joint venture agreements and licensing agreements etc. State whether the relationship is with a Related Person of the Issuer and provide details of the relationship.

N/A

6. Describe the expiry or termination of any contracts or agreements between the Issuer, the Issuer's affiliates or third parties or cancellation of any financing arrangements that have been previously announced.

N/A

7. Describe any acquisitions by the Issuer or dispositions of the Issuer's assets that occurred during the preceding month. Provide details of the nature of the assets acquired or disposed of and provide details of the consideration paid or payable together with a schedule of payments if applicable, and of any valuation. State how the consideration was determined and whether the acquisition was from or the disposition was to a Related Person of the Issuer and provide details of the relationship.

N/A

8. Describe the acquisition of new customers or loss of customers.

No material updates.

9. Describe any new developments or effects on intangible products such as brand names, circulation lists, copyrights, franchises, licenses, patents, software, subscription lists and trade-marks.

N/A

10. Report on any employee hirings, terminations or lay-offs with details of anticipated length of lay-offs.

N/A

11. Report on any labour disputes and resolutions of those disputes if applicable.

N/A

12. Describe and provide details of legal proceedings to which the Issuer became a party, including the name of the court or agency, the date instituted, the principal parties to the proceedings, the nature of the claim, the amount claimed, if any, if the proceedings are being contested, and the present status of the proceedings.

N/A

13. Provide details of any indebtedness incurred or repaid by the Issuer together with the terms of such indebtedness.

N/A

14. Provide details of any securities issued and options or warrants granted.

N/A

15. Provide details of any loans to or by Related Persons.

N/A

16. Provide details of any changes in directors, officers or committee members.

N/A

17. Discuss any trends which are likely to impact the Issuer including trends in the Issuer's market(s) or political/regulatory trends.

- **The Transition from Digital to Physical AI:** In the first half of 2026, U.S. investment sentiment has shifted from speculative "AI mentions" to the tangible monetization of Physical AI. With an estimated \$3 trillion in global AI-related infrastructure investment projected through 2028, the market is increasingly rewarding "second-order beneficiaries"; firms that position themselves within the orchestration and operational layers of the physical economy. This "industrial build-out" phase of AI highlights the growing value of the systems required to integrate autonomous intelligence into the U.S. transportation and logistics sectors.
- **U.S. Federal Regulatory Convergence (The SELF DRIVE Act of 2026):** A pivotal trend in April 2026 is the formal advancement of the SELF DRIVE Act in the U.S. House of Representatives. This legislation seeks to establish a unified national framework for the deployment and oversight of autonomous vehicles (AVs), specifically clarifying the authority of the National Highway Traffic Safety Administration (NHTSA). The market is trending toward favoring frameworks that can adapt to these emerging federal safety standards while navigating the complex preemption rules between state and federal authorities.
- **Modernization of Federal Motor Vehicle Safety Standards (FMVSS):** In early 2026, the U.S. Department of Transportation and NHTSA have initiated formal rulemaking to modernize several FMVSS to accommodate vehicles designed to operate without traditional human controls. This regulatory shift signals a move away from experimental testing toward standardized, large-scale commercial deployment. This environment places a high premium on operational safety and data transparency, rewarding a "simulate-then-deploy" methodology that prioritizes system robustness before active commercialization.
- **The "Bridge Infrastructure" Strategy:** Within the U.S. domestic market, a significant trend is the utilization of established, compliant vehicle platforms as a "bridge" to validate

advanced autonomous capabilities. This strategy allows for the collection of critical real-world data within existing legal frameworks while more advanced, driverless systems undergo rigorous validation. Adopting this bridge strategy is becoming a standard industry practice to ensure operational stability and regulatory compliance during the transition to Level 4 autonomous vehicle networks.

18. Other Information

N/A

Certificate Of Compliance

The undersigned hereby certifies that:

- 1) The undersigned is a director and/or senior officer of the Issuer and has been duly authorized by a resolution of the board of directors of the Issuer to sign this Certificate of Compliance.
- 2) As of the date hereof, there was no new material information concerning the Issuer which had not been publicly disclosed.
- 3) The undersigned hereby certifies to the Exchange that the Issuer is in compliance with the requirements of applicable securities legislation (as such term is defined in National Instrument 14-101) and all Exchange Requirements (as defined in CNSX Policy 1).
- 4) All of the information in this Form 7 Monthly Progress Report is true.
