17. Discuss any trends which are likely to impact the Issuer including trends in the Issuer's market(s) or political/regulatory trends.

On March 11, 2020, the World Health Organization declared the outbreak of the novel strain of coronavirus ("COVID-19") a pandemic, which has resulted in governments worldwide enacting emergency measures to combat the spread of the virus.

These measures, which include the implementation of travel bans, self-imposed quarantine periods and social distancing, have caused material disruption to businesses globally resulting in an economic slowdown. Global equity markets have experienced significant volatility and weakness.

Governments and central banks have reacted with significant monetary and fiscal interventions designed to stabilize economic conditions. The duration and impact of the COVID-19 outbreak is unknown at this time, as is the efficacy of the government and central bank interventions.

It is not possible to reliably estimate the length and severity of these developments and the impact on the financial results and condition of the Company in future periods as well as the Company's ability to find new business opportunities, raise capital or restructure the Company's finances.
