The Issuer is the registered holder of exploration licence (the "Licence") 10577 in the Province of Nova Scotia. The Licence is comprised of 80 mineral claims covering approximately 1,280 hectares known as the Millen Mountain Property (the "Property"). The Property is subject to an option agreement (the "Option Agreement") with Probe Metals Inc. ("Probe").

Now that Probe has successfully earned a 50% interest in the Property, the Company and Probe have formed a joint venture based on the joint venture terms set out in the Option Agreement. Probe will be the operator under the joint venture for so long as it holds at least a 50% interest in the Property. The joint venture terms provide that: each party will be required to contribute to further Property expenditures in amounts equal to its percentage interest in the Property; a party that doesn't participate in joint venture expenditures in accordance with its percentage interest in the Property will have its interest in the Property reduced accordingly; and if a party's interest in the Property is reduced to 10%, the joint venture will terminate, the participating party will receive a 100% interest in the Property and the non-participating party will receive a 2% net smelter royalty ("NSR") in the Property.
