Management Commentary

Randy Rolph, President and CEO of Pineapple Express: "We are excited by the prospect of partnering with Namaste, as I see this as an excellent fit for both companies. Namaste has built an excellent reputation within the medicinal cannabis industry and has focused on expanding its services so that its customers benefit from a wider array of product offerings. As an extension of these efforts, we believe that our company can ensure their customers get a secure delivery of these products within a very quick turnaround from time of order. Through other businesses, we have successfully offered fast product delivery options for over 10 years across Canada, including same day as well as deliveries in less than one hour. We are familiar with the issues and most importantly the solutions to bring similar levels of service to the medicinal cannabis industry. Customer service has always been our main focus and what has driven the success of our business. We look forward to offering this same level of service to all customers."

Sean Dollinger, President and CEO of Namaste comments: "We are very pleased to have signed this LOI to acquire shares of an amazing company offering a unique service with a proven record of success. As the cannabis market continues to grow, so too has the competitiveness among our industry peers looking to expand their market share. We believe that our ability to offer same-day delivery service for medical cannabis will provide a competitive edge to the Company in terms of offering an incredible buying experience for our patients. Namaste's mandate from the outset has been focused on providing patients with unparalleled customer service. This transaction reaffirms our team's ability to identify shortcomings within the cannabis industry, seek viable solutions, and then explore opportunities that aim to further enhance our patient's experience. We believe this transaction will not only help Namaste attract new patients, but more importantly, it will help us retain patients who see value in the services we provide.
