and marijuana is legal for medical and recreational use so the market is beyond huge and we will be ready! Our land is paid for. The buildings, equipment and many other items are paid for. We are in good shape financially with close to \$4 million in cash presently for working capital for the Las Vegas project and credit facilities are available if required. The building plans for the entire build-out will be ready shortly, to reflect the height changes to accommodate our vertical plus farming model, and then we go into the final construction stage.
