InMed Reports No Material Change

Vancouver, BC – November 14, 2017 - **InMed Pharmaceuticals, Inc.** ("InMed" or the "Company") (CSE:IN; OTCQB: IMLFF), a biopharmaceutical company specializing in the research and development of novel, cannabinoid-based drug therapies, at the request of the Investment Industry Regulatory Organization of Canada, has confirmed that its management is unaware of any material change in the operations of the Company that would account for the recent market activity. The Company will continue to provide updates of any material changes if and when they occur.

About InMed

InMed is a preclinical stage biopharmaceutical company specializing in the research and development of novel, cannabinoid-based prescription drug therapies utilizing novel drug delivery systems. InMed conducts research, discovery, preclinical, clinical, regulatory, manufacturing and commercial development activities for its product candidates. InMed's proprietary bioinformatics platform, its biosynthesis manufacturing process and its drug development programs are the fundamental value drivers of the Company.
