Company CEO and President, Sonny Newman: “We are very pleased with the record Q2 and July performance at our Nevada dispensaries which is a testament to the dedication of our team. We are proud to be celebrating our fifth anniversary as Nevada’s first licensed dispensary. Despite beginning the quarter under state-mandated delivery-only sales, we responded quickly and began operating three complementary sales channels in May as restrictions eased. Our strong and loyal customer base continues to mitigate the impact of the pandemic on our Nevada business. While both dispensaries are performing exceptionally well, our Fernley dispensary continues to significantly exceed expectations with July recording its best month of sales to date.”

“In the second quarter C21 has continued to optimize its Oregon operations. As of June, several non-core Oregon assets are subject to third-party management agreements and nearing the completion of sale, which will generate cash, and reduce costs and liabilities from mid-June onwards. With operations streamlined in Oregon, and robust revenue and EBITDA margins at our Silver State dispensaries, C21 is working to deepen its presence in Nevada as we continue to make progress in establishing our debt facility.”

“As reported in our recent year-end financials, our Nevada dispensaries generated an average of approximately \$16 million in revenue and \$6 million in adjusted EBITDA per dispensary. With the ability to replicate and scale both our profitable dispensary model, and our vertically integrated operations in Nevada, and with 80% of our cultivation and production facility still untapped, we expect to build on Q2’s record retail revenue and enhance shareholder value moving forward,” said Mr. Newman.
