

NuRAN Wireless to Present at the TIP OpenCellular Workshop in Kenya

NuRAN Wireless was selected in November 2016 as an original equipment manufacturer (OEM) and distributor of Open Cellular, a disruptive open-source and cost effective software-defined wireless access platform specifically designed to improve Internet and mobile connectivity in rural and remote areas. During the Telecom Infra Project (TIP) session hosted by Facebook at Mobile World Congress 2017, Facebook also announced that NuRAN had been additionally retained for the front-end development of the LTE OpenCellular platform.

Quebec, QC, Canada, May 23rd, 2017 – NuRAN Wireless Inc. (“NuRAN Wireless” or the “Company”) (CSE: NUR) (OTC:NRRWF), a leading supplier of mobile and broadband wireless solutions to connect the next billion and Original Equipment Manufacturer (OEM) and distributor of the OpenCellular platform, will be a presenter and share its expertise in wireless and rural connectivity as well as act as a moderator at the upcoming 2nd OpenCellular Workshop, the first to be presented in Africa.

The first Telecom Infra Project (TIP) OpenCellular Workshop in Africa will be presented in Nairobi, Kenya on June 19th and 20th 2017. The objective of this workshop is to bring together all the participants to the OpenCellular project, a group that aims to democratize the access to mobile connectivity in remote areas through the development of open source and low-cost wireless access platforms. Regulators, mobile network operators and OEMs will have an opportunity to participate to hands-on demos of the latest hardware, keynotes, panel sessions and discussions on the most recent developments in the OpenCellular initiative.

NuRAN Wireless Director of Research & Development, and also Co-Lead of the Radio Access working group of Open Cellular, Mr David Bourget and Maxime Dumas, Head of Strategy & Business Development, will participate and moderate several discussions at the workshop:

Track 1 – Tech Talks

- OC-2G: Optimized Access Solution for Small Communities, 1:20 PM, June 19th
- Efficient and Modular LTE Front-End, 10:30 AM, June 20th

Track 2 – Application, business and deployments session

- Solution Overview & Deployment Use Cases, 1:30 PM, June 19th

About NuRAN Wireless

NuRAN Wireless is a leading supplier of mobile and broadband wireless solutions. Its innovative products dramatically drop the total cost of ownership, thereby creating new opportunities for mobile network operators and internet service providers.

The Corporation provides a variety of specialist systems for indoor coverage, rural and urban connectivity in emerging markets, connectivity to offshore platforms and ships, and for emergency and crisis communications.

Forward Looking Statements

This press release contains forward-looking statements. Often, but not always, forward-looking statements can be identified by the use of words such as “plans”, “expects” or “does not expect”, “is expected”, “estimates”, “intends”, “anticipates” or “does not anticipate”, or “believes”, or variations of such words and phrases or state that certain actions, events or results “may”, “could”, “would”, “might” or “will” be taken, occur or be achieved. Forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of NuRAN Wireless to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. Examples of such statements include: the Company’s quest to connect the next billion; that this strategic acquisition allows Nuran to offer a complete mobile and broadband solution and the ability to secure the Nuran solution as the leader in rural and remote mobile connectivity, that the acquisition reinforces NuRAN’s strategic positioning towards new and small operators by offering an end-to-end mobile small-cell network solution with the lowest Total-Cost-of-Ownership (TCO) on the market and that the acquisition will allow NuRAN the opportunity to bring cellular coverage to emerging market where the return on investment (ROI) was previously simply too low. Actual results and developments are likely to differ, and may differ materially, from those expressed or implied by the forward-looking statements contained in this press release. Such forward-looking statements are based on a number of assumptions which may prove to be incorrect, including, but not limited to: the ability of NurRAN Wireless to obtain necessary financing; general economic conditions in Canada and globally; competition for, among other things, capital and skilled personnel; our ability to hire and retain qualified employees and key management personnel; possibility that government policies or laws may change; possible disruptive effects of organizational or personnel changes; technological change, new products and standards; risks related to acquisitions and international expansion; reliance on large customers; reliance on a limited number of suppliers; risks related to the Company’s competition; failure to integrate the technology and assets acquired from the Vendors and the Company’s failure to adequately protect its intellectual property; interruption or failure of information technology systems and other risk factors described in the Company’s reports filed on SEDAR), including its financial statements for the year ended October 31, 2015, and those referred to under the heading “Risk Factors”. These forward-looking statements should not be relied upon as representing NuRAN Wireless’ views as of any date subsequent to the date of this press release.
