

## **NuRAN Signs Preliminary Agreement for Expansion of Tier-One Operator Network**

Quebec, QC, Canada, April 14<sup>th</sup>, 2020 – [NuRAN Wireless Inc.](#) (“NuRAN Wireless”) ([CSE: NUR](#)) ([OTC: NRRWF](#)) ([FSE: 1RN](#)), a leading supplier of mobile and broadband wireless infrastructure solutions, announces it has signed a preliminary agreement with an undisclosed tier-one mobile operator for the deployment of rural sites under a network-as-a-service model, also referred to by NuRAN as “Mobile Network Enabler”, or “MNE”.

Through its MNE model, NuRAN facilitates network expansion for mobile operators by taking in charge the build, operation, and maintenance of cellular sites, along with associated capital expenditures. The sites are then monetized by providing connectivity on an as-a-service basis. Leveraging its carrier-grade mobile network infrastructure solutions as well as its extensive expertise in the build of cost-effective cellular infrastructure, NuRAN is able to setup network operation from the ground up with better return on investment. While deployments under the MNE model require the Company to make upfront investments, they generate significant value whereby NuRAN benefits from long-term recurring revenues with compelling returns. By expanding its offering in such a way, the Company is responding to the increasing client demand and global trend for fully-managed, outsourced network infrastructure.

The signed preliminary agreement confirms the intent of NuRAN and the tier-one mobile operator to engage into a network expansion project and lays out the commercial parameters under which the parties plan to enter into. The agreement allows NuRAN to further its network build strategy while the terms of the definitive contract are being finalized.

## Forward Looking Statements

*This press release contains "forward-looking information" within the meaning of applicable Canadian securities legislation. Forward-looking information includes, without limitation, statements regarding the timing of the Offering, the use of proceeds from the Offering, and the future plans or prospects of the Company. Generally, forward-looking information can be identified by the use of forward-looking terminology such as "plans", "expects" or "does not expect", "is expected", "budget", "scheduled", "estimates", "forecasts", "intends", "anticipates" or "does not anticipate", or "believes", or variations of such words and phrases or state that certain actions, events or results "may", "could", "would", "might" or "will be taken", "occur" or "be achieved". Forward-looking information is subject to known and unknown risks, uncertainties and other factors that may cause the actual results, level of activity, performance or achievements of NuRAN Wireless Inc., as the case may be, to be materially different from those expressed or implied by such forward-looking information. Although the Company has attempted to identify important factors that could cause actual results to differ materially from those contained in forward-looking information, there may be other factors that cause results not to be as anticipated, estimated or intended. There can be no assurance that such information will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking information. Other factors which could materially affect such forward-looking information are described in the risk factors in the Company's most recent annual management's discussion and analysis that is available on the Company's profile on SEDAR at [www.sedar.com](http://www.sedar.com). The Company does not undertake to update any forward-looking information, except in accordance with applicable securities laws.*
