VANCOUVER, WA - November 10, 2020 - **ORCHID VENTURES, INC. (CSE: ORCD OTC: ORVRF)** (the “Company” or “Orchid”), a multi-state cannabis innovation company, is pleased to announce that multi-state brand, Stash Fine Edibles and Concentrates, has launched CELLg8® gummies in retail outlets throughout Oregon. These are the first THC CELLg8® products available in the US and feature clinically proven CELLg8® technology.

Stash is an Oregon born edibles & concentrates brand that believes superior products have a higher purpose in life. Their new line of “fast acting” gummies, sold as a 50mg single pack in Apple Pie, Lemon Drop and Tangerine flavors are promoting an activation time of 5-10 minutes. “After 6 months of testing, internal focus groups and formulation development, we’re ready to

release the first and finest fast acting gummy to the Oregon market” says Sean Davis, CEO of Stash Brands LLC. “Stash gummies are also available in a 5 pack with 50mg of THC in Oregon and 10 pack 100mg THC in Oklahoma. All Stash gummies are Vegan and Non-GMO making them one of the highest quality gummies available in the industry.”

“Today is an exciting day for our organization, and the future of bioavailability solutions that enhance the absorption time of edibles and the overall customer experience. The major difference between CELLg8® and other solutions is the quality and safety of the product and the fact that it’s vegan, all-natural and surfactant free and doesn’t require anything that is believed to be unhealthy or harmful” said Corey Mangold, CEO of Orchid Ventures, Inc. “The development process of this product has been months in the works and underwent several formulation adjustments to achieve the perfect product and user experience. The formulation team at Stash is an amazing group of highly experienced individuals that worked tirelessly with the team at CELLg8® Sciences to perfect the product. The delays that COVID-19 has placed on all companies, including our own, has definitely impacted the speed-to-market but we are pleased that our first client is now in the market with many others making good progress in formulation.”
