MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITIONS AND RESULTS OF OPERATIONS

For the three-month period ended June 30, 2020

August 31, 2020

This Management's Discussion and Analysis ("MD&A") of Origen Resources Inc. (the "Company" and "Origen") provides analysis of the Company's financial results for the three-month period ended June 30, 2020. The following information should be read in conjunction with the condensed interim financial statements including the notes thereto for the period ended June 30, 2019 and with the audited financial statements from incorporation on September 12, 2019 to March 31, 2020, and the notes to those financial statements, prepared in accordance with International Financial Reporting Standards ("IFRS") and interpretations of the International Financial Reporting Interpretations Committee ("IFRIC"). Financial information contained herein is expressed in Canadian dollars, unless stated otherwise. All information in this MD&A is current as of August 31, 2020 unless otherwise indicated. This MD&A is intended to supplement and complement the Company's condensed interim financial statements for the three-month period ended June 30, 2020 and the notes thereto. Readers are cautioned that this MD&A contains "forward-looking statements" and that actual events may vary from management's expectations. Readers are encouraged to read the cautionary note contained herein regarding such forward-looking statements. This MD&A was reviewed, approved and authorized for issue by the Company's Audit Committee, on behalf of our Board of Directors, on August 31, 2020.

Description of Business

Origen Resources Inc. (formerly 1223104 B.C. LTD.) (the "Company") was incorporated under the Business Corporations Act (British Columbia) ("BCBCA") on September 12, 2019. The address of its head office is located at Suite 488-625 Howe Street, Vancouver, British Columbia, Canada V6C 2T6. The Company's registered and records office is 400 – 725 Granville Street, Vancouver, British Columbia, Canada, V7Y 1G5.

Origen is an exploration company engaged in generating, acquiring and advancing base and precious metal properties. The Company currently holds a property portfolio of four 100% owned precious and base metal projects in southern British Columbia and recently acquired a 100% interest in the 26,771 ha LGM project and an option to acquire a 100% interest in the 3,971 ha Wishbone property in the mineral rich Golden

Triangle of British Columbia. The Company has listed its common shares on the Canadian Securities Exchange under the symbol ORGN.

On April 28, 2020, the Company and Raffles Financial Group Limited, formerly Explorex Resources Inc. (“Raffles”), closed their plan of arrangement (the “Plan of Arrangement”). Pursuant to the Plan of Arrangement, which Raffles has spun out certain assets and liabilities to the Company, along with the transfer of \$500,000 in cash, for consideration of 13,621,958 common shares and 935,325 warrants to Raffles’ shareholders.

Pursuant to the Plan of Arrangement, Raffles’ shareholders exchanged their existing common shares of Raffles’ and received 0.03541 “new” common share of Raffles’, 0.50 common shares of the Company, and 0.50 warrants of the Company. A fair value of \$Nil was estimated with respect to the share purchase warrants using the residual value method.

The fair value of the net assets transferred to the Company, pursuant to the Plan of Arrangement consisted of the following assets and liabilities:

Assets:	\$
Cash	506,899
Receivables	6,287
Prepays	2,375
Exploration and evaluation assets	1,710,169
Total assets	2,225,730
Liabilities:	
Accounts payable and accrued liabilities	(194,730)
Flow through obligation	(31,000)
Fair value of net assets contributed	2,000,000

In accordance with IFRIC 17, Distribution of Non-Cash assets to Owners, the Company recognized the distribution of net assets to the Company’s shareholders at fair value.

The Plan of Arrangement resulted in an increase of share capital amount to \$2,000,000. The Company has allocated \$814,995 to the Silver Dollar Property, \$34,042 to the Arlington Property, \$34,080 to the Beatrice Property, \$587,842 to the Kagoot Brook Property and \$241,210 to the Bonanza Property.

The Company assumed a flow through obligation of \$31,000 as Raffles had not completely fulfilled its commitment to incur exploration expenditures by December 31, 2018 in relation to flow-through share financings in October 2017. The Company may be required to indemnify flow through individual investors for the amount of increased taxes payable by the flow-through investor as a consequence of the failure of the Company to incur qualifying exploration expenditures previously renounced to the flow through investors.

Overall Performance

The ability of the Company to continue as a going concern is dependent on its ability to obtain additional equity financing and achieve future profitable operations. As at June 30, 2020, the Company had working capital/(deficiency) of \$141,266 (March 31, 2020 - \$(129,806)), had not yet achieved profitable operations and has an accumulated deficit of \$532,873 since its inception. The Company expects to incur further losses in the development of its business. All of these circumstances comprise a material uncertainty which may cast significant doubt on the Company's ability to continue as a going concern. While the Company has been successful in securing financings in the past, there is no assurance that it will be able to do so in the future. If the going concern assumption were not appropriate for the Company's financial statements, it could be necessary to restate the Company's assets and liabilities on a liquidation basis.

In March 2020, the World Health Organization declared coronavirus COVID-19 a global pandemic. This contagious disease outbreak, which has continued to spread, and any related adverse public health developments, has adversely affected workforces, economies, and financial markets globally, potentially leading to an economic downturn. It is not possible for the Company to predict the duration or magnitude of the adverse results of the outbreak and its effects on the Company's business or ability to raise funds.

Corporate Update

On April 28, 2020, the Plan of Arrangement closed and as a result, the Company appointed to the Board Gary Schellenberg, Mike Sieb, William Wishart, James Mustard and Jerry Bella.

On May 6, 2020, the Company announced that Jerry Bella resigned from the Board of Directors, effective immediately. Origen wishes to thank Mr. Bella for his efforts and wishes him well in his future endeavors. As well, the Company appointed Geoff Schellenberg as a director. Mr. Geoff Schellenberg has over 10 years of experience in the mineral exploration industry. He is currently the president and a director of Troubadour Resources Inc., and a managing director of Coast Mountain Geological Ltd. where he provides oversight and management on exploration and development projects for a variety of clients ranging from junior exploration to large international mining companies. Mr. Schellenberg holds a Bachelor of Commerce degree from the University of British Columbia.

On May 14, 2020, Origen appointed Blake Morgan to the roles of President and Director effective immediately. Mr. Morgan has 15 years' experience in the mining industry including 10 years dedicated to the mining and natural resource sector in Australia with Rio Tinto, BMA Metals (subsidiary of BHP) and Santos Ltd. Gaining first-hand knowledge, culture, and an understanding of mining operations he then made the move from Australia to Canada and has been instrumental in consolidating significant exploration land packages and financing their development for private resource exploration companies in British Columbia.

On June 1, 2020, the Company appointed Michael Collins as a director. Mr. Collins has an exceptional skill set in project development and analysis which is supported by a wide industry network. Through his work as a geologist and running a mining engineering office in Vancouver, he has developed an understanding of numerous mineral camps and deposit types around the world. His experience steps beyond mineral deposits with a breadth of expertise in the feasibility process and the pitfalls of project construction and optimization. With over 14 years as an officer and director of public companies, Michael understands the

intricacies of building corporate structure, marketing and value accretion. Michael graduated with a BSc. Honours from Dalhousie University in 1996 and is an accredited P.Geo. with EGBC.

In order to facilitate the addition of Mr. Collins to the Board, the Company has accepted the resignation of William Wishart as a Director. The Company wishes to thank Mr. Wishart for his years of service to the former parent Company Raffles and for his assistance in launching Origen as a newly listed company.

The current board and management of Origen are as follows as at the date of this MD&A:

Directors

Gary Schellenberg

Michael Collins

Blake Morgan

Mike Sieb

Geoff Schellenberg

Jim Mustard

Officers and Position

Gary Schellenberg, CEO

Blake Morgan, President

Elizabeth Richards, CFO

Monita Faris, Corporate Secretary

Significant Subsequent Events

Subsequent to June 30, 2020, the Company:

- On July 22, 2020, the Company provided highlights from the historical trenching and drill programs conducted at the Company's Wishbone property prominently situated within British Columbia's Golden Triangle with exploration field crews at site assessing the numerous high grade gold occurrences reported from the historical work conducted at the Windy Gold Zone.
 - Key Highlights
 - Seven gold mineralized quartz-sulphide veins were uncovered by Teck in 1986 within a small 400 x 500 metre area;
 - Main Vein was traced for 500 metres in length and is apparently getting wider to the east where depth of overburden precluded exposure by hand trenching; 7.8 g/t Au over 3.3m, including 19.1 g/t Au over 1.6m, chip samples at the eastern end of the Main Vein;
 - All the known veins remain open along trend;
 - Nine drill holes tested the central area of the exposed veins with all the holes reporting notable intersections of gold mineralization;
 - Region of highly anomalous gold in soils remains unexplored 200m to the south of the Main Vein; and
 - Origen geological crews are currently in the field.

- On August 5, 2020, the Company announced the commencement of fieldwork on its wholly-owned LGM property, comprising 26,771 hectares (ha.) in the highly prospective Golden Triangle of Northwest British Columbia. Field work commenced in mid-July designed to target three separate gold +/- copper targets within the Property in preparation for a larger, follow-up exploration program.
 - Key Highlights
 - 2020 Phase 1 exploration program is currently underway.
 - The newly identified and highly gossanous Red Zone, on strike from Evergold Corp.'s Snoball property, undergoing first ever systematic exploration.
 - The Grizzly prospect will be explored upslope from the historical Au-Cu soil anomaly as data analysis points to an upslope source.
 - The Origen team will investigate an overlooked quartz-sericite-pyrite altered zone 1 km NE of the Lucifer Au-Cu mineral showing with multiple samples > 100 ppb Au in soil and rock.
 - Some of the mineralization discovered to date on the Property appears to be associated with the same intrusive rocks thought to be responsible for the Snip (Au), KSM (Au-Cu-Ag), Bronson Slope (Au-Cu), Brucejack (Au-Ag) and other important mineral occurrences.
 - Assay results will be expedited to allow for follow up work and possibly drilling during this exploration season.

Mineral Properties

The following is a breakdown of the material components of the Company's acquisition, and deferred exploration costs for the period ended June 30, 2020.

	Silver Dollar Property	Arlington Property	Beatrice Property	Kagoot Brook Property	Bonanza Mountain Project	Broken Handle Property	Wishbone Property	LGM Property	Total
Acquisition Costs									
Opening, March 31, 2020	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -

Below is a description of the material mineral projects and the underlying agreements:

Kagoot Brook Cobalt Project, New Brunswick

On April 29, 2020, the Company acquired the Kagoot Brook Cobalt Project (“Kagoot Brook”) as part of the Plan of Arrangement.

On May 11, 2020, the Company entered into a Sale, Assignment and Assumption Agreement (the “Assumption Agreement”) with Ironwood Capital Corp. (“Ironwood”) (TSX-V: IRN.P) with respect to the purchase and assumption by Ironwood of all of the Company’s rights, title and interest in, to and under its interest in an option and joint venture agreement (the “Underlying Agreement”) relating to Kagoot Brook Cobalt Project (“Kagoot Brook”) dated May 10, 2018, as amended on January 7, 2020, with Great Atlantic Resources Corp. (“Great Atlantic”).

Under the Assumption Agreement, Origen will sell, transfer, assign, convey and set over to Ironwood all of Origen’s right, title, benefit, interest and obligations in, to and under the Underlying Agreement. As consideration for the assignment, Ironwood will issue an aggregate of 500,000 common shares of Ironwood to Origen. The transaction is subject to completion of certain conditions precedent, including without limitation receipt of Exchange approval and written consent of Great Atlantic to the assignment of the Underlying Agreement.

Pursuant to the Underlying Agreement, Origen, as optionee, has the right to earn (the “Option”) a 75% interest (subject to a 2% net smelter return (“NSR”) royalty contained in the Underlying Agreement) in the Kagoot Brook property (the “Property”) located near Bathurst, New Brunswick, comprised of one mineral tenure covering 4,233 hectares and registered in Great Atlantic’s name. Origen is current in its obligations under the Underlying Agreement, including incurring \$100,000 in exploration expenditures on the Property during the 2018 exploration season.

To successfully exercise the Option, the optionee is required to:

- (a) as operator on the Property, make a total of \$650,000 of exploration expenditures on the Property on or before May 10, 2022; and
- (b) make aggregate cash payments of \$110,000 to Great Atlantic, as follows: \$30,000 by May 23, 2020 (paid by the Company); \$30,000 by January 23, 2021; and \$50,000 by January 23, 2022.

Once the Option has been exercised, certain tenures comprising the Property will be subject to a 2% NSR royalty in favour of the prospectors who staked those tenures, with 1% of such NSR royalty being subject to a repurchase right for \$500,000.

Upon successful exercise of the Option, the optionee shall have acquired an undivided 75% interest in the Property, which interest will be subject to the 75%/25% joint venture formed between the optionee and Great Atlantic under the terms provided in the Underlying Agreement.

If a joint venture party does not contribute its proportionate share of expenditures on the Property, the non-contributing party's joint venture interest will be reduced proportionately. If Great Atlantic's joint venture interest is reduced to 5% or less, Great Atlantic will be deemed to have withdrawn from the joint venture and its remaining interest in the Property will convert into a 3% NSR, with the optionee having the right to repurchase up to 2% of such royalty for \$1,000,000 per each 1%.

Arlington Property, British Columbia

On April 29, 2020, the Company acquired the Arlington property as part of the Plan of Arrangement.

On January 19, 2015, the Company acquired a 100% interest in the Arlington property by staking.

The Arlington property covers 586.46 hectares, is road accessible and is centered on Hall Creek at the south end of Arlington Lakes, and covers 10 mineral showings listed in the BCMEM (British Columbia Ministry of Energy and Mines) Minfile. The bulk of the historical work on the claims dates back to the early part of the century while the Beavercreek-Mt. Wallace mining camp was developing and during the construction of the Kettle Valley Railway.

Silver Dollar Property, British Columbia

On April 29, 2020, the Company acquired the Silver Dollar property as part of the Plan of Arrangement. As well, the Company acquired 100% of the Beatrice Mineral Property located in the southern portion of the Silver Dollar property (referred to as the Gilman portion) and form part of the Silver Dollar Property and therefore are included in the Mariner Agreement.

Origen owns a 100% interest in the 3,345-hectare Silver Dollar project that covers approximately 10 km of the 40 km long Camborne Fault System (CFS) and is 45 km southeast of Revelstoke, British Columbia. The CFS hosts over 85 mineral deposits and showings, including 18 past producing historic mines of high-grade gold & silver + lead and zinc. The Silver Dollar Property is subject to an existing 1.0% net smelter royalty held by Happy Creek Minerals Ltd, beginning upon commencement of commercial production on the Property.

Raffles entered into an option agreement with Mariner Resources Corp. ("Mariner") on August 14, 2018, the companies were related by virtue of a director of Mariner and officers of the Company being related, whereby Mariner has the right to acquire a 75 percent interest in the Silver Dollar property. Pursuant to the option agreement, Mariner is required to make cash payments, issue shares, and meet exploration expenditure requirements as follows:

- Cash payments: Mariner is required to pay \$25,000 upon execution of the agreement (received by Raffles), an additional \$50,000 in cash or common shares of Mariner, at Mariner's discretion, on or before May 30, 2021, \$100,000 in cash on or before May 30, 2022; and an additional \$250,000 in cash on or May 30, 2023 for an aggregate total consideration of \$425,000;
- Share issuances: Mariner is required to issue 100,000 common shares on May 30, 2021, an additional 300,000 shares on or before May 30, 2022 and an additional 500,000 shares on or before May 30, 2023 for an aggregate total of 900,000 shares;
- Work commitments: Mariner is required to incur \$75,000 in exploration expenditures on or before the May 30, 2020; an additional \$150,000 on or before May 30, 2021, an additional

\$350,000 on or before May 30, 2022 and an additional \$425,000 on or before May 30, 2023 for an aggregate \$1,000,000 in exploration expenditures; and

- Upon Mariner earning 75-percent interest in Silver Dollar, the parties will enter into a joint venture.

Bonanza Mountain Project, British Columbia

On April 29, 2020, the Company acquired the Bonanza Mountain project as part of the Plan of Arrangement.

The Company holds a 100% interest in the 803-hectare high-grade gold and copper Bonanza Mountain project (“Bonanza Mountain”), in the historic Knight’s Mining Camp, Grand Forks area, British Columbia.

To earn the 100% interest, the Company issued 300,000 common shares (issued).

On June 12, 2020, the Company has granted Tearlach Resources Ltd. (“Tearlach”) an option to acquire a 75% interest in the project by incurring \$500,000 in exploration expenditures on the property, paying the Company \$210,000 and issuing 500,000 shares over a three-year period.

Upon exercise of the option, Origen will be granted a 1.5% NSR royalty on the property, of which Tearlach can purchase 1.0% of the NSR royalty for \$1,000,000 within one year of commencement of commercial production.

Broken Handle Project, British Columbia

On May 11, 2020, the Company acquired 100% interest in the Broken Handle Project located 50km north of Grand Forks, British Columbia, through issuance of 1,500,000 shares to the vendor. The property is subject to a 1% NSR royalty. The Company has the option to purchase one-half (0.5%) of the 1.0% NSR Royalty for \$1,000,000.

LGM Property and Wishbone Project, British Columbia

On May 27, 2020, the Company entered into a Sale and Assignment Agreement to acquire 100% interest in the LGM property located in British Columbia and an option to acquire 100% interest in the Wishbone property located in British Columbia from Orogenic Regional Exploration Ltd. (“Orogenic”). The transaction is deemed to be a related party transaction by virtue of two common directors.

In consideration for the assignment and the property transfer, the Company:

- Paid a non-interest-bearing advance to Orogenic in the amount of \$25,000 which is repayable by September 10, 2020 with a fee of up to \$10,000;
- Issued 5,000,000 common shares of which 1,000,000 common shares will be held by the Company until repayment of the \$25,000 advance; and
- Granted Orogenic a right to appoint a further member to the Board of Directors of the Company.

The LGM and Wishbone properties are subject to a NSR royalty of 2% and 1%, respectively.

The LGM project hosts three highly prospective exploration zones comprising the Red, Grizzly and Lucifer zones, and borders Evergold Corp.'s Snoball project. In the Red Zone area, the newly exposed gossanous exploration targets lie within Hazelton Group rocks along the Northmore Fault and bear geological and structural similarities to mineralization on the adjacent Snoball property immediately to the northwest. The Grizzly prospect is a Cu-Au porphyry target defined by a 1200 m x 500 m Cu-Au soil anomaly and the Lucifer target consists of a 300 m x 300 m gold-in-soil anomaly discovered by Noranda in 1991 and has only experienced minimal field exploration to date.

The Wishbone project, located 12km to the west of LGM, hosts numerous high-grade precious metal showings and has only seen sporadic exploration work since the 1980's.

Exploits Gold Corp. ("Exploits")

On June 4, 2020, the Company entered into a strategic investment agreement with Exploits Gold Corp. ("Exploits"). Exploits is a private exploration company engaged in exploring for district scale high-grade gold deposits in the Central Newfoundland Gold Belt. The Company has been granted an exclusive one year right of first refusal to acquire any of the new projects generated by Exploits in exchange for a subscription of 666,667 common shares of Exploits at a price of \$0.15 per share for gross proceeds of \$100,000. The transaction is deemed to be a related party transaction by virtue of two common directors.

Results of Operations

Selected Annual Results

For the period ended March 31,	2020
	\$
Financial results:	
Net loss for the period	(129,807)
Basic and diluted loss per share	(129,807)
Statement of financial position date:	
Cash	808
Total assets	1,078
Shareholder's deficiency	129,806

Net Loss and Operating Expenses

For the period from incorporation on September 12, 2019 to ended March 31, 2020, the Company reported a loss of \$129,807.

- Professional fees of \$124,623 were incurred in relation to legal, audit and accounting services which related to the completion of the Plan of Arrangement.

Summary of Quarterly Reports

Results for the most recent quarters ending with the last quarter for the period ended June 30, 2020:

	Three Months Ended		
	June 30, 2020	March 31, 2020	December 31, 2019
	\$	\$	\$
Interest income	Nil	Nil	Nil
Net loss	(403,066)	(129,807)	Nil
Basic and diluted per share	(0.03)	(129,807)	-

As the Company was incorporated on September 12, 2019 there is only three quarters to present. During the three-month period ended March 31, 2020, the Company incurred costs comprised mainly of legal, audit and accounting services which related to the completing the Plan of Arrangement. During the three-month period ended June 30, 2020, the Company issued 1,800,000 stock options with an exercise price of \$0.15 per share, at a fair value of \$183,929 compared to March 31, 2020 where nil was issued. During the June 30, 2020 period ended, the Company incurred costs relating to maintaining a public company.

Mineral exploration is typically a seasonal business, and accordingly, the Company's operating expenses, and cash requirements will fluctuate depending upon the season and the level of activity. The Company's primary source of funding is through the issuance of share capital. When the capital markets are depressed, the Company's activity level normally declines accordingly. As capital markets strengthen, and the Company is able to secure equity financing with favorable terms, the Company's activity levels and the size and scope of planned exploration projects will typically increase.

Related Party Transactions

Key management personnel are the persons responsible for the planning, directing and controlling the activities of the Company and include both executive and non-executive directors, and entities controlled by such persons. The Company considers all directors and officers of the Company to be key management personnel.

During the period ended June 30, 2020, the Company entered into the following transactions with related parties:

- Paid or accrued exploration costs of \$14,940 (2019 - \$Nil) that were capitalized as exploration and evaluation assets to a company controlled by a director and Chief Executive Officer of the Company.
- Paid or accrued management fees of \$22,500 (2019 – \$Nil) to a company controlled by a director and Chief Executive Officer of the Company.
- Paid or accrued management fees of \$15,000 (2019 - \$Nil) to a company controlled by a director and officer of the Company.
- Paid or accrued management fees of \$6,000 (2019 - \$Nil) to a company controlled by a director of the Company.
- Paid or accrued consulting fees of \$4,375 (2019 - \$Nil) to a director of the Company.
- Paid or accrued rent of \$4,500 (2019 - \$Nil) to a company controlled by a director and Chief Executive Officer of the Company.
- Paid or accrued professional fees of \$7,500 (2019 - \$Nil) to a company controlled by the Chief Financial Officer of the Company.
- Paid or accrued professional fees of \$3,000 (2019 - \$Nil) to a company controlled by a director and Chief Executive Officer of the Company.

During the period ended June 30, 2020, the Company issued 1,500,000 (2019 – \$Nil) stock options to the officers and directors of the Company. Upon the issuance, \$153,275 (2019 – \$Nil) in share-based compensation expense was recorded.

As at June 30, 2020, \$69,624 (March 31, 2020 - \$Nil) was included in accounts payable and accrued liabilities owing to officers and directors of the Company in relation to services provided and reimbursement of expenses.

Commitments – Consulting Agreements

On April 28, 2020, the Company assumed a consulting agreement, whereby the Company will receive consulting service at an annual cost of \$63,000 expiring on August 31, 2021. On May 15, 2020, the Company has entered into a termination agreement in respect of this management contract and settled all future contractual obligations by issuing 275,000 shares (issued and valued at \$50,875) of the Company and paid \$25,000 recorded as consulting fees.

Liquidity and Capital Resources

As At	June 30, 2020 \$	March 31, 2020 \$
Working capital (deficiency)	141,266	(129,806)
Deficit	532,873	129,807
Cash	139,509	808
Current assets	281,174	1,078
Current liabilities	139,908	130,884
Shareholder's deficiency	3,022,927	129,806

The Company does not have any commitments for material capital expenditures, and none are presently contemplated other than normal operating requirements. The Company is dependent on the sale of common shares to finance its exploration activities, property acquisition payments and general and administrative costs. There can be no assurance that financing, whether debt or equity, will always be available to the Company in the amount required at any particular time, for any particular period, or if available, that it can be obtained on terms satisfactory to the Company.

The Company does not generate sufficient cash flow from operations to fund its exploration activities, its acquisitions and its administration costs. The Company is reliant on equity financing to provide the necessary cash to continue its operations.

For the period ended	June 30, 2020 \$	March 31, 2020 \$
Cash use in operating activities	(432,693)	807
Cash used in investing activities	(135,351)	Nil
Cash provided by financing activities	706,745	1
Change in cash	138,701	808

Off Balance Sheet Agreements

The Company has not engaged in any off-balance sheet arrangements during the period ended June 30, 2020.

Critical Accounting Policies and Estimates

The details of the Company's accounting policies are presented in Note 3 of the condensed interim financial statements ended June 30, 2020.

Capital Management

Capital is comprised of items within the Company's shareholder's deficiency. As at June 30, 2020, the Company's shareholder's deficiency was \$532,873. The Company's objectives when managing capital are to maintain financial strength and to protect its ability to meet its on-going liabilities, to continue as a going concern, to maintain creditworthiness and to maximize returns for shareholders over the long term. Protecting the ability to pay current and future liabilities includes maintaining capital above minimum regulatory levels, current financial strength rating requirements and internally determined capital guidelines and calculated risk management levels.

The Company is dependent on the capital markets as its sole source of operating capital and the Company's capital resources are largely determined by the strength of the junior resource markets and by the status of the Company's projects in relation to these markets, and its ability to compete for investor support for its projects. The Company is not subject to any externally imposed capital requirements.

Management Financial Risks

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are:

Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;

Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and

Level 3 – Inputs that are not based on observable market data.

The fair value of cash is based on Level 1 inputs of the fair value hierarchy.

The fair value of the Company's receivables and accounts payable and accrued liabilities approximates their carrying values due to their short-term nature.

The Company's risk exposures and the impact on the Company's financial instruments are summarized below:

Credit risk

Credit risk is the risk of loss associated with a counterparty's inability to fulfill its payment obligations. The Company believes it has no significant credit risk.

Liquidity risk

The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. As at June 30, 2020, the Company had a cash balance of \$139,509 to settle current liabilities of \$139,908.

Market risk

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, foreign exchange rates, and commodity and equity prices.

(a) Interest rate risk

The Company has cash balances and no interest-bearing debt. The interest rate risk on cash is not considered significant.

(b) Foreign currency risk

The Company does not have assets or liabilities in a foreign currency.

(c) Price risk

The Company is exposed to price risk with respect to commodity prices. Commodity price risk is defined as the potential adverse impact on earnings and economic value due to commodity price movements and volatilities. The Company closely monitors commodity prices and the stock market to determine the appropriate course of action to be taken by the Company.

Risk and Uncertainties

The Company's operations and results are subject to a number of different risks at any given time. These factors include, but are not limited to, disclosure regarding exploration, additional financing, project delay, titles to properties, price fluctuations and share price volatility, operating hazards, insurable risk and limitations of insurance, management, foreign country and regulatory requirements, currency fluctuations and environmental regulation risk.

a) the state of the capital markets, which will affect the ability of the Company's to finance mineral property acquisitions and expand its contemplated exploration programs;

b) the prevailing market prices for base metals and precious metals;

c) the consolidation and potential abandonment of the Company's property as exploration results provide further information relating to the underlying value of the property; and

d) the ability of the Company to identify and successfully acquire additional mineral properties in which the Company may acquire an interest whether by option, joint venture or otherwise, in addition to or as an alternative to the property.

Other Risk Factors

Additional Financing

The Company has limited financial resources and provides no assurance that it will obtain additional funding for future acquisitions and development of projects or to fulfill its obligations under applicable agreements. The Company provides no assurance that it will be able to obtain adequate financing in the future or that the terms of such financing will be favourable. Failure to obtain such additional financing could result in delay or indefinite postponement of further exploration and development of the Company's properties with the possible dilution or loss of such interests. Further, revenues, financings and profits, if any, will depend upon various factors, including the success, if any, of exploration programs and general market conditions for natural resources. The Company provides no assurance that it can operate profitably or that it will successfully implement its plans for its further exploration and development of its properties.

Permits and Licenses

The Company will require licenses and permits from various governmental and non-governmental authorities for its operations. The Company has obtained, or plans to obtain, all necessary licenses and permits required to carry on the activities it is currently conducting or which it proposes to conduct under applicable laws and regulations. However, such licenses and permits are subject to change in regulations and in various operating circumstances. The Company provides no assurance that it will obtain all necessary licenses and permits required to carry out exploration, development and mining operations.

Political Regulatory Risks

Any changes in government policy may result in changes to laws affecting ownership of assets, mining policies, monetary policies, taxation, rates of exchange, environmental regulations, and labour relations, repatriation of income and return of capital. This may affect both the Company's ability to undertake exploration and development activities in respect of the properties in the manner currently contemplated, as well as its ability to continue to explore, develop and operate the properties. The possibility that future governments may adopt substantially different policies, which might extend to expropriation of assets, cannot be ruled out.

Currency Risk

Currency fluctuations may affect the cash flow which the Company may realize from its operations, since most mineral commodities are sold in a world market in United States dollars. The Company's costs are incurred primarily in Canadian dollars.

Dependence on Key Individuals

The Company is dependent on a relatively small number of key personnel, the loss of any one of whom could have an adverse effect on the Company. In addition, the Company will be highly dependent upon contractors and third parties in the performance of its exploration and development activities. The Company provides no guarantee that such contractors and third parties will be available to carry out such activities on behalf of the Company or be available upon commercially acceptable terms.

Competitive Factors in the Precious and Base Metals Markets

Most mineral resources including precious and base metals are essentially commodities markets in which one would expect to be a small producer with an insignificant impact upon world production. As a result, production, if any, would be readily sold and would likely have no impact on world market prices. The significant downturn in the world economies in recent months has driven the commodities prices much lower which has made raising capital more difficult than past years.

Outstanding Share Data

The following table summarizes the outstanding share capital as of the date of the MD&A:

	Number	Exercise Price	Expiry Date
Common Shares	21,910,825	n/a	n/a
Stock Options	1,800,000	\$0.15	June 1, 2025
Warrants	267,625	\$0.22	November 27, 2020
Warrants	104,750	\$0.22	December 19, 2020
Warrants	1,113,867	\$0.22	April 28, 2022

Forward-Looking Information

This MD&A, which contains certain forward-looking statements, are intended to provide readers with a reasonable basis for assessing the financial performance of the Company. All statements, other than statements of historical fact, are forward-looking statements. The words “believe”, “expect”, “anticipate”, “contemplate”, “target”, “plan”, “intends”, “continue”, “budget”, “estimate”, “may”, “will”, “schedule” and similar expressions identify forward looking statements. Forward looking statements are necessarily based upon a number of estimates and assumptions that, while considered reasonable by the Company, are inherently subject to significant business, economic and competitive uncertainties and contingencies.

Known and unknown factors could cause actual results to differ materially from those projected in the forward-looking statements. Such factors include, but are not limited to, fluctuations in the currency markets such as Canadian dollar, fluctuations in the prices of commodities, changes in government legislation, taxation, controls, regulations and political or economic developments in Canada, the United States, or other countries in which the Company carries or may carry on business in the future, risks associated with mining or development activities, the speculative nature of exploration and development, including the risk of obtaining necessary licenses and permits, and quantities or grades of reserves. Many of these uncertainties and contingencies can affect the Company’s actual results and could cause actual results to differ materially from those expressed or implied in any forward-looking statements made by, or on behalf of, the Company. Readers are cautioned that forward-looking statements are not guarantees of future performance. There can be no assurance that such statements will prove to be accurate and actual results and future events could differ materially from those acknowledged in such statements. The Company disclaims any intention or obligation to update or revise any forward-looking statements whether as a result of new information, future events or otherwise, except to the extent required by applicable laws.
