About PUDO Inc.

Founded in 2015, PUDO Inc. is developing North America's only “carrier-neutral” parcel pick-up/drop-off network. No other company in North America offers staffed retail locations; open for extended hours, to receive consumer deliveries by any carrier. PUDOp^{oints} include convenience stores, gas station mini-marts, and grocery stores.

Through the PUDOp^oint™ network, consumers can control parcel deliveries – receiving online parcels *wherever they want, whenever they want* – a fully customizable and convenient method of delivery. When packages arrive at the chosen PUDOp^oint, customers are automatically notified via text or email that their package has arrived and is ready for pick-up. E-commerce companies and other shippers utilizing PUDO can save on residential “last mile” delivery costs. Consumers can avoid the frustration and inconvenience of missed or stolen deliveries. The final destination of the parcel becomes the safe, staffed retail environment of a PUDOp^oint.

With a growing network of PUDOp^oint locations across the U.S. and Canada, PUDO is revolutionizing the North American parcel shipping model. PUDO was recently named one of the Top 20 most innovative public technology companies by the Canadian Innovation Exchange. For more information, please visit: www.pudoinc.com or www.pudopoint.com.
