

Planet 13 Achieved Record Revenue in January

All figures are reported in United States dollars (\$) unless otherwise indicated

Las Vegas, Nevada – February 6, 2020 – Planet 13 Holdings Inc. (CSE: PLTH) (OTCQX: PLNHF) (“Planet 13” or the “Company”), a leading vertically-integrated Nevada cannabis company, today announced a record-breaking January driven by strong traffic and the 2nd consecutive month of approximately \$100 average ticket size. January revenue was ~10% higher than the seasonally slow months of November and December. Preliminary unaudited gross margin was consistent with previously reported range of 56-59%.

The restaurant and event space that were opened as part of the Phase II development increased customer awareness of the Planet 13 Las Vegas Cannabis Entertainment Complex (the “**SuperStore**”) and enhanced customer engagement resulting in longer average time spent exploring the SuperStore and higher average ticket size.

“January is a strong proof point for the network effect of Phase II [restaurant, event center, and consumer-facing production facility]. As we add additional attractions and store-in-store options we expect the cross promotion and improved customer experience to continue to drive traffic and ticket growth,” said Larry Scheffler, Co-CEO of Planet 13. “I would like to thank our customers who continue to choose Planet 13 for their cannabis shopping experience when visiting Las Vegas. It is gratifying to see the SuperStore’s year over year growth and to witness our return customers’ excitement when they discover the SuperStore’s new features.”
