BIOMARK ANNOUNCES NEW PATENT GRANTED IN CHINA

Vancouver, British Columbia – (March 12, 2019) – BioMark Diagnostics Inc. (“BioMark”) (CSE: BUX); (FSE: 20B); (OTCMKTS: BMKDF) is pleased to announce that its patent titled “DETECTION AND QUANTIFICATION OF ACETYLAMANTADINE IN URINE SAMPLES” has been granted in China on February 15, 2019.

Rashid Ahmed, President and CEO, says, “Granting of this patent expands and strengthens our metabolite measurement capabilities by offering options to cost effectively and reliably quantify the substrate of interest (acetylamantadine) in a biological sample for our SSAT1 urine-based assay using Raman spectroscopy. This technology can be used in economically and resource challenged environments on a global basis once the SSAT1 assay is approved by regulators”.

About BioMark Diagnostics Inc.

BioMark is developing proprietary, non-invasive, and accurate cancer diagnostic solutions which can help detect, monitor and assess treatment for cancer early and cost effectively. The technology can also be used for measuring response to treatment and potentially for serial monitoring for cancer survivors.

Further information about BioMark is available under its profile on the SEDAR website www.sedar.com and on the CSE website <https://thecse.com/>.
