### **About Imagin Medical**

Imagin is developing powerful new imaging solutions for the detection and visualization of cancer. The Company believes its technology will radically improve physicians’ ability to detect cancer with minimally invasive endoscopes, improving their ability to visualize, identify and remove cancerous cells. Imagin’s initial target market is bladder cancer, the sixth most common cancer in the U.S., and the costliest cancer to treat due to a greater than 50% recurrence rate. Developed at the Lawrence Livermore National Laboratory, Imagin’s advanced, ultrasensitive imaging technology is based upon improved optical designs and advanced light sensors.
