Global Gaming Secures USD \$5.6M Financing from Alpha Blue Ocean

Vancouver, BC, March 18, 2019 — GLOBAL GAMING TECHNOLOGIES CORP. (CSE: BLOC.U) (FSE: BWSP) (OTC: BLKCF) ("GGAM", or the "Company") is pleased to announce that it has entered into an agreement (the "**Agreement**") to obtain funds in order to help finance its game development pipeline.

This Agreement was entered into with European High Growth Opportunities Securitization Fund ("**EHGO**"), advised by Alpha Blue Ocean Inc. ("**Alpha Blue**") a money manager based in London, United Kingdom with a strong track record of partnering with public companies and delivering meaningful value to their shareholders.

Alpha Blue's advisee, EHGO, has agreed to subscribe for up to USD \$5,600,000 aggregate principal amount of senior unsecured convertible debentures (the "**Notes**") and accompanying warrants (the "**Warrants**"). The Notes shall be convertible into, and the Warrants shall be exercisable for, common shares ("**Common Shares**") in the capital of the Company, at prices to be determined at each closing under the Agreement.

The Notes and accompanying Warrants shall be issuable in 12 separate tranches (each a "**Tranche**"). The Company shall issue the Notes in the principal amount of USD\$550,000 for the first tranche (the "**First Tranche**") and the second tranche, and shall issue Notes in the principal amount of USD\$450,000 for each additional Tranche (each, a "**Subsequent Tranche**") and, in respect of each Tranche, the accompanying Warrants, as applicable. The Notes shall bear no interest and the maturity date of the Notes shall be the date that is 12 months after their applicable issue date.

Subject to regulatory compliance, the Notes shall be automatically converted into such number of Common Shares as is equal to the aggregate principal amount of the Notes being converted divided by the applicable conversion price, immediately following the earlier of: (i) five trading days after the delivery by the holder of a conversion notice, or (ii) the applicable maturity date of the Notes. In the event of a default under the Notes, there is an option to have the Notes redeemed in cash.

On closing of the First Tranche the Company will also issue additional Notes representing a commitment fee equal to 5% of the aggregate amount of the Notes issuable under the Agreement based on the committed amount of the total investment.
