(a) Statement of compliance

These Financial Statements, including comparatives, have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and in accordance with International Accounting Standards ("IAS") 34, Interim Financial Reporting. The Financial Statements have been prepared on a historical cost basis, except for financial instruments classified as financial instruments at fair value through profit and loss, which are stated at their fair value. In addition, these Financial Statements have been prepared using the accrual basis of accounting except for cash flow information.

Certain comparative figures have been reclassified to conform to the restated financial statement presentation for the current period. Since the unaudited Financial Statements do not include all disclosures required by IFRS for annual consolidated financial statements, they should be read in conjunction with the Company's audited annual consolidated financial statements for the year ended December 31, 2019.

The policies set out were consistently applied to all the periods presented unless otherwise noted below. The preparation of condensed interim consolidated financial statements in accordance with IAS 1 requires the use of certain critical accounting estimates, judgments, and assumptions that affect the application of policies and reported amounts of assets and liabilities, profit and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

These Financial Statements were authorized for issue by the Board of Directors on August 31, 2020 and have been prepared under the historical cost convention, except for certain financial instruments. The estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and further periods if the review affects both current and future periods.
