# **The Hash Corporation Implements Custom-Made System for Making Bubble Hash Jointly Designed with Maratek**

## **The Company Stands to Earn a Royalty from Maratek's Potential Commercialization of the Unique Bubble Hash System**

**Toronto, Ontario -- (Newsfile Corp. – September 14, 2021) - The Hash Corporation (CSE: REZN) ("HashCo" or the "Company")**, a business focusing on the production of hashish and other premium cannabis products using the adaptation of old-world traditions, is pleased to announce that it has installed and begun operating a unique, custom-designed system for making isolated bubble hash (the "**Custom Bubble Hash System**") that was developed in collaboration with Maratek Environmental Inc. ("**Maratek**").

Based in Bolton, Ontario, Maratek is a market leader in professionally engineered solvent recycling and cannabis and hemp extraction technologies. Subject to the terms of the General Service Agreement (the "**Agreement**") between HashCo and Maratek, the Company is entitled to earn a 1.5% royalty on revenues generated by Maratek from the sale of the Custom Bubble Hash System over a five-year period from the date of the Agreement,

HashCo has a vision of being the brand most preferred by hash consumers in Canada, and the partner-of-choice for licenced producers, as the legal market for this classic category of cannabis concentrate products continues to grow. The Custom Bubble Hash System was recently delivered to HashCo within the facility of its previously announced collaborator, Medz Cannabis Incorporated, which is strategically located near the Toronto Pearson International Airport.

It was designed not only to enable the Company to produce a wide range of bubble hash products of high quality, but also at a level of scale that is expected to lower per-unit costs and increase gross margins. With the Bubble Hash System now in place, the Company can advance the development of new HashCo-branded SKUs and while-label products for the Canadian adult use recreational cannabis market.

### **Management Commentary**

"The design, and installation of the Custom Bubble Hash System is a significant milestone for our Company as it provides a competitive advantage for HashCo that is not possessed by anyone else

in our industry. HashCo is now strongly positioned to execute on its goal of safely delivering authentic hashish experiences crafted to modern standards and regulations," said Chris Savoie, the Chief Executive Officer and Director of HashCo.

"I would like to thank Maratek for collaborating with us on the design and fabrication of the Custom Bubble Hash System and I appreciate their professional and innovative approach along the way. I am optimistic that our unique Custom Bubble Hash System will attract interest from other companies in the rapidly growing global cannabis industry and that HashCo will be able to earn royalties from Maratek's facilitation of those expected inquiries," added Mr. Savoie.

"Maratek develops solutions for the Cannabis & Hemp market by working together with our clients to develop the ideal solutions to their problems. HashCo was the ideal partner for Maratek here, with their depth of knowledge around cannabis and hash products, as well as their team's desire to work with us to develop their ideal Bubble Hash Solution.", said Kyle Georges, Vice President, Sales & Business Development, of Maratek.

### **About The Hash Corporation**

The Hash Corporation ("**HashCo**") is a Canadian company positioning itself to focus on the production and sale of cannabis-based hashish and other cannabis products. HashCo intends to apply its separation and curing techniques to produce a suite of high-quality cannabis resin products, which are all-natural and free of additives and carcinogenic solvents. The Company intends to tailor its product offerings to pay tribute to historic traditions, fragrances and tastes, while upholding the highest health and safety standards.

As of the date of this press release, HashCo is actively seeking and developing partnerships and collaborations with licensed cultivators and other strategic partners within Canada, with the goal of crafting and introducing to the regulated market authentic products which reflect quality and innovation.
