Date: **May 6, 2020**

Report on Business for month ending April 30 2020.

1. Provide a general overview and discussion of the development of the Issuer's business and operations over the previous month. Where the Issuer was inactive disclose this fact.

COVID has had little impact in the past month on Renforth's operations. Our recent drill program was completed as planned, with the field portion ending in March 2020, the data resultant from this work was received and press released in April 2020 (see summary below). In addition to this metallic screen work has been ongoing, this has not been impacted in that our samples were able to be packed and shipped to the lab to carry out the work, they remain open. Our geological team spent April integrating the recent drill data into our project database and writing the report summarizing the winter 2020 drilling, this work is all able to be done remotely, and actually usually is in any case, it was not affected by COVID.

2. Provide a general overview and discussion of the activities of management.

During the month Management:

- **Managed items noted in #1, and continued general corporate operations**

3. Describe and provide details of any new products or services developed or offered. For resource companies, provide details of new drilling, exploration or production programs and acquisitions of any new properties and attach any mineral or oil and gas or other reports required under Ontario securities law.

The Company received results from the final three holes drilled at New Alger in February/March 2020, each of which intersected gold as anticipated in the mine area veins. This successful campaign resulted in deeper pierce points than the bulk of the previous drilling at New Alger, extending the mine area veins down dip. The mine area veins are hosted within the Piché volcanics, on the south side of the Cadillac Break. The entire mineralized system, which strikes for approximately 1.4kms on the New Alger property, is open at depth.

Highlights included:

- **Deepest gold mineralization drilled to date at New Alger in REN-20-40 which intersected 6.3m of 1.46 g/t Au in the #3 vein at a vertical depth of 410m**
- **Mine area veins exhibit high grade nugget effect again, with the most recent interval obtained of 32.33 g/t Au over 0.4m in REN-20-39**
- **Mine area veins also continue to display the "halo" effect unique to the mineralization at New Alger, where alteration with a generally lower grade of**

gold adds width to the zone, such as REN-20-39 where Vein #1 intersected 0.71 g/t Au over a width of 17.4m, including 3.5m within this interval which graded 1.23 g/t Au.

4. Describe and provide details of any products or services that were discontinued. For resource companies, provide details of any drilling, exploration or production programs that have been amended or abandoned.

Not applicable.

5. Describe any new business relationships entered into between the Issuer, the Issuer's affiliates or third parties including contracts to supply products or services, joint venture agreements and licensing agreements etc. State whether the relationship is with a Related Person of the Issuer and provide details of the relationship.

Not applicable.

6. Describe the expiry or termination of any contracts or agreements between the Issuer, the Issuer's affiliates or third parties or cancellation of any financing arrangements that have been previously announced.

Not applicable.

7. Describe any acquisitions by the Issuer or dispositions of the Issuer's assets that occurred during the preceding month. Provide details of the nature of the assets acquired or disposed of and provide details of the consideration paid or payable together with a schedule of payments if applicable, and of any valuation. State how the consideration was determined and whether the acquisition was from or the disposition was to a Related Person of the Issuer and provide details of the relationship.

None.

8. Describe the acquisition of new customers or loss of customers.

Not applicable.

9. Describe any new developments or effects on intangible products such as brand names, circulation lists, copyrights, franchises, licenses, patents, software, subscription lists and trade-marks.

Not applicable.

10. Report on any employee hires, terminations or lay-offs with details of anticipated length of lay-offs.

Not applicable.

11. Report on any labour disputes and resolutions of those disputes if applicable.

Not applicable.

12. Describe and provide details of legal proceedings to which the Issuer became a party, including the name of the court or agency, the date instituted, the principal parties to the proceedings, the nature of the claim, the amount claimed, if any, if the proceedings are being contested, and the present status of the proceedings.

Not applicable.

13. Provide details of any indebtedness incurred or repaid by the Issuer together with the terms of such indebtedness.

Not applicable.

14. Provide details of any securities issued and options or warrants granted/expired.

Not applicable.

15. Provide details of any loans to or by Related Persons.

Not applicable.

16. Provide details of any changes in directors, officers or committee members.

None.

17. Discuss any trends which are likely to impact the Issuer including trends in the Issuer's market(s) or political/regulatory trends.

The Issuer's level of activity and expenditures during a specific quarter are influenced by the availability of working capital, the availability of additional external financing, the time required to gather, analyze and report on geological data related to mineral properties, the results of the Company's prior exploration activities on its properties and the amount of expenditure required to advance its projects. There is no certainty in this industry that any expenditures on mineral exploration and development activities and/or programs will result in the discovery of an economic ore body.
