

FORM 7

MONTHLY PROGRESS REPORT

Name of CNSX Issuer: **Renforth Resources Inc. (the “Issuer”)**

Trading Symbol: **RFR**

Number of Outstanding Listed Securities: **205,771,167**

Date: **February 5, 2020**

Report on Business for month ending January 31, 2020.

1. Provide a general overview and discussion of the development of the Issuer’s business and operations over the previous month. Where the Issuer was inactive disclose this fact.

During the month the Issuer:

- **Discovered New Gold Bearing Zones at New Alger in the first drill program on the Discovery Veins**

2. Provide a general overview and discussion of the activities of management.

During the month Management:

- **Managed items noted in #1, and continued general corporate operations**
- **Renforth held its’ Annual General Meeting pursuant to the notice which was given, >30% of the outstanding shares were voted at the meeting in support of management’s recommendations.**

3. Describe and provide details of any new products or services developed or offered. For resource companies, provide details of new drilling, exploration or production programs and acquisitions of any new properties and attach any mineral or oil and gas or other reports required under Ontario securities law.

New Alger Cadillac Break Results Summary

New Alger mine area results from this drill program indicate that the Cadillac Break is gold-bearing within and outside of the previously focused on area where the Piché volcanics meet the Pontiac sediments in the south. In this program, Renforth obtained mineralization, as targeted, within the 3 vein systems that formed the historic Thompson-Cadillac Mine in the eastern portion of New Alger, recognized as the same veins present at the adjacent historic O’Brien Mine. These drill holes were selected as “undercuts” of Renforth’s previous (2007, 2010) drilling, successfully extending mineralization deeper. The “mine vein” package strikes East-West across ~1.4 kms of the property and is approximately 100m in width. The discovery of the gold-bearing sericite zone in the previously undrilled north zone of the Cadillac Break adds ~40m to the width of the mineralized package, as seen in the only 3 holes to have tested this zone to date. One of the 3 holes went further north than the other two and encountered additional previously unknown gold mineralization at lithological contacts within the Cadillac Break schists, outside of the ~140 width of the currently defined mineralized package. Renforth’s next drill

program at New Alger will focus on drilling through the Cadillac Break and extending these findings and recent discoveries.

New Alger Discovery Vein Results Summary

Renforth has sampled the Discovery Vein System across >500m of strike in the Pontiac Sediments South of the Cadillac Break, and stripped ~250m of this mineralization located on the crest of a hill, approximately 250m south of the New Alger mine area. This program drilled a total of 7 holes under the Discovery Vein stripping, each of the 7 holes returned gold values over the 250m of strike drilled. This program established that the Discovery Veins consist of multiple mineralized veins in the sediments, parallel to the Cadillac Break, which Renforth will explore further in the future as an open pit target. Mineralization in the Discovery Veins occurs on surface and up to a drilled depth of 120m; neither the width of the system, its' strike length or its' maximum depth have yet been defined. Assay values in this system range from 0.43 g/t Au to 20.8 g/t Au on surface and 0.45 g/t Au to 1.7 g/t Au underground, based upon sampling and drilling to date. The holes drilled in the Discovery Vein system consisted of a first hole targeting under the access trail, then 3 pairs of holes, each pair from the same set up but at different dips, in the eastern, central and western end of the Discovery Veins, in that order. Each of these holes undercut surface values, successfully extending the mineralization to depth in sub-vertical veins.

4. Describe and provide details of any products or services that were discontinued. For resource companies, provide details of any drilling, exploration or production programs that have been amended or abandoned.

Not applicable.

5. Describe any new business relationships entered into between the Issuer, the Issuer's affiliates or third parties including contracts to supply products or services, joint venture agreements and licensing agreements etc. State whether the relationship is with a Related Person of the Issuer and provide details of the relationship.

Not applicable.

6. Describe the expiry or termination of any contracts or agreements between the Issuer, the Issuer's affiliates or third parties or cancellation of any financing arrangements that have been previously announced.

Not applicable.

7. Describe any acquisitions by the Issuer or dispositions of the Issuer's assets that occurred during the preceding month. Provide details of the nature of the assets acquired or disposed of and provide details of the consideration paid or payable together with a schedule of payments if applicable, and of any valuation. State how the consideration was determined and whether the acquisition was from or the disposition was to a Related Person of the Issuer and provide details of the relationship.

None.

8. Describe the acquisition of new customers or loss of customers.
Not applicable.
9. Describe any new developments or effects on intangible products such as brand names, circulation lists, copyrights, franchises, licenses, patents, software, subscription lists and trade-marks.
Not applicable.
10. Report on any employee hires, terminations or lay-offs with details of anticipated length of lay-offs.
Not applicable.
11. Report on any labour disputes and resolutions of those disputes if applicable.
Not applicable.
12. Describe and provide details of legal proceedings to which the Issuer became a party, including the name of the court or agency, the date instituted, the principal parties to the proceedings, the nature of the claim, the amount claimed, if any, if the proceedings are being contested, and the present status of the proceedings.
Not applicable.
13. Provide details of any indebtedness incurred or repaid by the Issuer together with the terms of such indebtedness.
Not applicable.
14. Provide details of any securities issued and options or warrants granted/expired.
Not applicable.
15. Provide details of any loans to or by Related Persons.
Not applicable.
16. Provide details of any changes in directors, officers or committee members.
None.
17. Discuss any trends which are likely to impact the Issuer including trends in the Issuer's market(s) or political/regulatory trends.

The Issuer's level of activity and expenditures during a specific quarter are influenced by the availability of working capital, the availability of additional external financing, the time required to gather, analyze and report on geological data related to mineral properties, the results of the Company's prior exploration

activities on its properties and the amount of expenditure required to advance its projects. There is no certainty in this industry that any expenditures on mineral exploration and development activities and/or programs will result in the discovery of an economic ore body.

Certificate of Compliance

The undersigned hereby certifies that:

1. The undersigned is a director and/or senior officer of the Issuer and has been duly authorized by a resolution of the board of directors of the Issuer to sign this Certificate of Compliance.
2. As of the date hereof there were is no material information concerning the Issuer which has not been publicly disclosed.
3. The undersigned hereby certifies to CNSX that the Issuer is in compliance with the requirements of applicable securities legislation (as such term is defined in National Instrument 14-101) and all CNSX Requirements (as defined in CNSX Policy 1).
4. All of the information in this Form 7 Monthly Progress Report is true.
