

FORM 7

MONTHLY PROGRESS REPORT

Name of CNSX Issuer: **Renforth Resources Inc. (the “Issuer”)**

Trading Symbol: **RFR**

Number of Outstanding Listed Securities: **261,953,669**

Date: **July 8, 2021**

Report on Business for month ending June 30, 2021.

1. Provide a general overview and discussion of the development of the Issuer’s business and operations over the previous month. Where the Issuer was inactive disclose this fact.
 - **On June 2, 2021, the Issuer announced a drill program at Malartic West, commencing immediately. Renforth’s geologists will undertake a maiden 1000m drill program targeting the ~160m surface copper/silver discovery (the Beaupré Shear) in the northern part of Renforth’s Malartic West property.**
 - **On June 3, 9, 16 & 29, 2021, the Issuer provided an update on additional Parbec drill program assay results.**
 - **June 9, 2021, the Issuer informed shareholders of the change in the June exploration focus from our Malartic West copper and silver discovery to our wholly owned Surimeau District battery metals project, with ~1000m of drilling and field prospecting on this largely unexplored 260 km² property, hosting nickel, copper and zinc mineralization on surface and in drill core, contiguous to the Canadian Malartic Mine property in NW Quebec.**
 - **June 16, 2021, the Issuer provided a Surimeau Project Drilling and Prospecting Update.**
2. Provide a general overview and discussion of the activities of management.

During the month Management:

- **Managed items noted in #1, and continued general corporate operations**
3. Describe and provide details of any new products or services developed or offered. For resource companies, provide details of new drilling, exploration or production programs and acquisitions of any new properties and attach any mineral or oil and gas or other reports required under Ontario securities law.

Parbe Drill Program

June 3, 2021 update – see press release for full update..highlights were:

- **PAR-21-133 successfully twins PAR-88-44 with mineralized intervals which include 7m of 7.11 g/t gold and 7.5m of 3.25 g/t gold.**

- PAR-21-127 is now fully reported with the addition of 5m of 1.02 g/t gold starting at 102.5m down the hole.
- PAR-21-127 a previously reported interval of 18.75m of 4.59 g/t gold has been extended to a length of 24.1m of 3.78 g/t when lower grade material is taken into account, in the opinion of management this is not unreasonable as this interval currently falls just outside the May 2020 pit contour and would likely come into any re-countering of an open pit at Parbec.
- PAR-21-130 is now fully reported with the addition of 1.35m of 2.46 g/t gold at only 14.45m down the hole.

June 9, 2021 update – see press release for full update..highlights were:
 Renforth would like to inform shareholders of the receipt of partial assays for PAR-21-131, an 87m long hole which was successfully drilled as a twin of PAR-93-54. PAR-21-131 intersected 9.55m of 4.42 g/t gold, with a sub-interval of 3.9m grading 10.31 g/t gold, commencing at 48.45m down the hole, a vertical depth of approximately 40m, within the area of the Whittle open pit which accompanies the May 2020 Resource Estimate for Parbec. PAR-93-54 intersected 7.25m of 9.5 g/t gold between 50.66 and 57.91m down the hole, the PAR-21-131 interval lines up with the PAR-93-54 interval. Subsequent to the resource estimate there has been 15,569m of drilling completed at Parbec, including a certain number of twinned holes designed to validate the inclusion of assay data produced in ~13,000m of drilling which took place between 1986 and 1993 and was not included in the May 2020 Resource Estimate.

June 16, 2021 update – see press release for full update..highlights were:

- PAR-21-128 delivers 12.6m grading 4.39 g/t gold, as measured in the core box, including a sub-interval of 4.1m of 9.3 g/t gold.
- PAR-21-128 also delivers 10.25m of 2.37 g/t gold as measured higher in the core box.
- PAR-21-129 delivers 3.5m of 5.89 g/t gold, as measured in the core box, amongst several other intervals, including a high assay value of 15.4 g/t gold over 0.25m deeper in the hole.
- PAR-21-133, restated, delivers an interval of 12.5m of 6.9 g/t gold, as measured in the core box. Several sub-intervals are presented below, the highest grade sub-interval is 118.7 g/t gold over 0.35m.

June 29, 2021 update – see press release for full update..highlights were:

PAR-20-101 mineralized interval extended to 31.5m of 0.69 g/t gold, joining two previously released mineralized intervals

Surimeau, Victoria West Drill Program

June 16, 2021 update – see press release for full update..highlights were:

Drill Update At the end of shift on June 15th the drill program had completed 87m of drilling after a day and a half. It is anticipated that each hole drilled will go to either a length of 300m, or until the sedimentary contact in the north is reached, whichever is first. The program is planned for ~1000m, which is likely to be 4 holes, drilled from the previously used drill pads located within the magnetic anomaly at Victoria West (the southern collar in each pair of holes), with the hole drilled to the north in order to attempt to obtain depth extension of the mineralization seen in the

Spring 2021 drilling. Prospecting Update Prospecting at Surimeau to date has focused on the Victoria West target area and the Lalonde target area, located approximately 3kms north of Victoria West. Both areas have been explored previously, with records of sampling, trenching and drilling available. During the drill program at Victoria West earlier this year Renforth's field geologist noted similarity between the drilled rock at Victoria West and previously prospected rock at Lalonde.

June 29, 2021 update – see press release for full update..highlights were:
Renforth is pleased to advise shareholders that the first drill hole in our June 2021 drill program at Surimeau has been completed, at a length of 237.7m. This hole was drilled to the north from the drill pad used for SUR-21-12, which, like all the holes drilled in the April/May 2021 drill program at Suite 269 – 1099 Kingston Road Pickering ON L1V 1B5 www.renforthresources.com Surimeau, encountered visual mineralization. SUR-21-19 undercuts SUR-21-15. The goal, which was met, for SUR-21-19 was to obtain a deeper intersection of the mineralization and structure observed in SUR-21-15. The drill hole intersected mineralization from 175.5-178.65m down the hole with 5- 10% fine to medium grained disseminated pyrite and pyrrhotite. The best (visual) bit is from 176- 176.7m where there are fine clotty chalcopyrite stringers (5%), semi-massive pyrite and pyrrhotite (15-20%) and trace sphalerite. The core will be sampled and sent for assay, to be reported on when results are received.

4. Describe and provide details of any products or services that were discontinued. For resource companies, provide details of any drilling, exploration or production programs that have been amended or abandoned.

Not applicable.

5. Describe any new business relationships entered into between the Issuer, the Issuer's affiliates or third parties including contracts to supply products or services, joint venture agreements and licensing agreements etc. State whether the relationship is with a Related Person of the Issuer and provide details of the relationship.

Not applicable.

6. Describe the expiry or termination of any contracts or agreements between the Issuer, the Issuer's affiliates or third parties or cancellation of any financing arrangements that have been previously announced.

Not applicable.

7. Describe any acquisitions by the Issuer or dispositions of the Issuer's assets that occurred during the preceding month. Provide details of the nature of the assets acquired or disposed of and provide details of the consideration paid or payable together with a schedule of payments if applicable, and of any valuation. State how the consideration was determined and whether the acquisition was from or the disposition was to a Related Person of the Issuer and provide details of the relationship.

None.

8. Describe the acquisition of new customers or loss of customers.

Not applicable.

9. Describe any new developments or effects on intangible products such as brand names, circulation lists, copyrights, franchises, licenses, patents, software, subscription lists and trade-marks.

Not applicable.

10. Report on any employee hires, terminations or lay-offs with details of anticipated length of lay-offs.

None.

11. Report on any labour disputes and resolutions of those disputes if applicable.

Not applicable.

12. Describe and provide details of legal proceedings to which the Issuer became a party, including the name of the court or agency, the date instituted, the principal parties to the proceedings, the nature of the claim, the amount claimed, if any, if the proceedings are being contested, and the present status of the proceedings.

Not applicable.

13. Provide details of any indebtedness incurred or repaid by the Issuer together with the terms of such indebtedness.

Not applicable.

14. Provide details of any securities issued and options or warrants granted/expired.

Not applicable

15. Provide details of any loans to or by Related Persons.

Not applicable.

16. Provide details of any changes in directors, officers or committee members.

Not Applicable.

17. Discuss any trends which are likely to impact the Issuer including trends in the Issuer's market(s) or political/regulatory trends.

The Issuer's level of activity and expenditures during a specific quarter are influenced by the availability of working capital, the availability of additional external financing, the time required to gather, analyze and report on geological data related to mineral properties, the results of the Company's prior exploration

activities on its properties and the amount of expenditure required to advance its projects. There is no certainty in this industry that any expenditures on mineral exploration and development activities and/or programs will result in the discovery of an economic ore body.

Certificate of Compliance

The undersigned hereby certifies that:

1. The undersigned is a director and/or senior officer of the Issuer and has been duly authorized by a resolution of the board of directors of the Issuer to sign this Certificate of Compliance.
2. As of the date hereof there were is no material information concerning the Issuer which has not been publicly disclosed.
3. The undersigned hereby certifies to CNSX that the Issuer is in compliance with the requirements of applicable securities legislation (as such term is defined in National Instrument 14-101) and all CNSX Requirements (as defined in CNSX Policy 1).
4. All of the information in this Form 7 Monthly Progress Report is true.
