FORM 7
MONTHLY PROGRESS REPORT

Name of CNSX Issuer: Renforth Resources Inc. (the “Issuer”)
Trading Symbol: RFR
Number of Outstanding Listed Securities: 280,166,846
Date: June 7, 2022

1. Provide a general overview and discussion of the development of the Issuer's business and operations over the previous month. Where the Issuer was inactive disclose this fact.

   On May 5, 2022, the Issuer announced the commencement of the 2022 field season at Surimeau with a comprehensive list of targets with an emphasis on lithium mineralization present on the property.

   On May 31, 2022, the Issuer announced that the Surimeau’s Lalonde polymetallic "battery metals" mineralization has been extended to the east by ~1.7km and to the west by ~400m by surface sampling of EM anomalies located on the magnetic structure, bringing Lalonde’s strike length to ~2.4km and concluding work at Lalonde in the current program.

2. Provide a general overview and discussion of the activities of management.

   During the month Management:
   
   • Managed items noted in #1, and continued general corporate operations, and planned future work programs.
   • Management also retained Red Cloud Financial Services Inc. for corporate finance and marketing purposes for an initial term of one year.

3. Describe and provide details of any new products or services developed or offered. For resource companies, provide details of new drilling, exploration or production programs and acquisitions of any new properties and attach any mineral or oil and gas or other reports required under Ontario securities law.

   Surimeau update – May 31, 2022 update see press release for details
   
   • Current fieldwork discovered surface battery metals sulphides within the northern magnetic structure hosting Lalonde, co-incident with EM anomalies, over 2.4km in E/W strike length
   • Lalonde, within Renforth’s 330 km2 Surimeau District Property, is located ~3.7km north of the Victoria West mineralization previously drilled by Renforth over 2.2 km in E/W strike length
   • Lalonde has delivered one of Surimeau’s best visually mineralized samples, at 50-80% disseminated sulphide (pyrite and sphalerite) with rare coarse
pyrite clots within albitized ultramafic rock, visually similar to material channel sampled within the stripped area at Victoria West

- **Prospecting success validates the accuracy of EM anomalies indicating the presence of sulphides within magnetic structures at Surimeau.**

4. Describe and provide details of any products or services that were discontinued. For resource companies, provide details of any drilling, exploration or production programs that have been amended or abandoned.

   **Not applicable.**

5. Describe any new business relationships entered into between the Issuer, the Issuer’s affiliates or third parties including contracts to supply products or services, joint venture agreements and licensing agreements etc. State whether the relationship is with a Related Person of the Issuer and provide details of the relationship.

   **Not applicable.**

6. Describe the expiry or termination of any contracts or agreements between the Issuer, the Issuer’s affiliates or third parties or cancellation of any financing arrangements that have been previously announced.

   **Not applicable.**

7. Describe any acquisitions by the Issuer or dispositions of the Issuer’s assets that occurred during the preceding month. Provide details of the nature of the assets acquired or disposed of and provide details of the consideration paid or payable together with a schedule of payments if applicable, and of any valuation. State how the consideration was determined and whether the acquisition was from or the disposition was to a Related Person of the Issuer and provide details of the relationship.

   **None**

8. Describe the acquisition of new customers or loss of customers.
