MONTHLY PROGRESS REPORT

Name of CNSX Issuer: **Renforth Resources Inc. (the "Issuer")**

Trading Symbol: **RFR**

Number of Outstanding Listed Securities: **106,310,829**

Date: **December 7, 2017**

Report on Business for month ending November 30, 2017.

1. Provide a general overview and discussion of the development of the Issuer's business and operations over the previous month. Where the Issuer was inactive disclose this fact.

- **Completed 230m of stripping of gold bearing vein horizon at New Alger**
- **Commenced Drill Program at Parbec Surface Gold Deposit**
- **Continued general corporate operations**

2. Provide a general overview and discussion of the activities of management.

Management was responsible for the activities noted in #1 above.

3. Describe and provide details of any new products or services developed or offered. For resource companies, provide details of new drilling, exploration or production programs and acquisitions of any new properties and attach any mineral or oil and gas or other reports required under Ontario securities law.

Results of Stripping program at New Alger:

- **The completed stripping has revealed several en-echelon quartz veins over the entirety of the 230m stripped. A preliminary description of the newly discovered system is that it is comprised of a continuous, strongly dipping vein structure containing a sulfide poor (1-5%), free gold system. The mineralized veins are hosted by a strongly folded sedimentary package at greenschist facies and are controlled by detachment planes along preserved fold hinges. Channels have been cut perpendicularly across the veining uncovered in the stripped area as depicted above, assay results will be released once available.**

Parbec drill program: Renforth has planned the drill program at Parbec to be between 1000 and 1500m.

Holes planned for the 2017 drill program can be categorized as follows;

(a) - #2 Zone Infill – 3 proposed holes (12-14) fall within the existing resource model, designed to test poorly explored or sampled areas of the porphyry and the tuff horizons. There will also be drilling underneath 2015 trenching results. These proposed holes are logistically the simplest and will be drilled first.

(b) Camp Zone Expansion and Infill – 2 holes (7,11) have been planned to test the outer margins of the known tuff horizon, as well as drill through the historically

un-sampled porphyry. 3 shallow holes (8-10) have been selected in order to twin poorly sampled historic holes.

(c) West Camp Zone Extension – 6 drillholes (1-6) are planned to test the largely undrilled western portion of the property, using 1940's drillholes which record the presence of gold mineralization as a guide. These exploration holes, which will be drilled from the east to the west, will extend mineralization along strike almost to the property boundary if successful. These holes will also undercut gold-bearing porphyry mineralization discovered in the recently completed trenching program, which has extended the mineralization 150m on surface, testing the surface occurrences at depth.

Renforth will commence drilling and drill until December 22, completing as many of these holes as possible in that time, beginning with the #2 Zone Infill holes.

4. Describe and provide details of any products or services that were discontinued. For resource companies, provide details of any drilling, exploration or production programs that have been amended or abandoned.

Not applicable.

5. Describe any new business relationships entered into between the Issuer, the Issuer's affiliates or third parties including contracts to supply products or services, joint venture agreements and licensing agreements etc. State whether the relationship is with a Related Person of the Issuer and provide details of the relationship.

Not applicable.

6. Describe the expiry or termination of any contracts or agreements between the Issuer, the Issuer's affiliates or third parties or cancellation of any financing arrangements that have been previously announced.

Not applicable.

7. Describe any acquisitions by the Issuer or dispositions of the Issuer's assets that occurred during the preceding month. Provide details of the nature of the assets acquired or disposed of and provide details of the consideration paid or payable together with a schedule of payments if applicable, and of any valuation. State how the consideration was determined and whether the acquisition was from or the disposition was to a Related Person of the Issuer and provide details of the relationship.

Not applicable.

8. Describe the acquisition of new customers or loss of customers.
