Subject to applicable law, the Underwriter may, in connection with the Offering, over-allocate or effect transactions that stabilize or maintain the market price of the Common Shares at levels other than those that otherwise might prevail on the open market. Such transactions, if commenced, may be discontinued at any time. See “*Plan of Distribution*”.

Subscriptions for Units will be received subject to rejection or allotment in whole or in part and the Underwriter reserves the right to close the subscription books at any time without prior notice. Closing of the Offering is expected to take place on January 28, 2021 or such other date as may be agreed upon by the Company and the Underwriter (the “**Closing Date**”). The Units are to be taken up by the Underwriter, if at all, on or before the date that is not later than 42 days after the date of the receipt for the final short form prospectus related to the Offering. No certificates evidencing the Units are expected to be issued, except in certain limited circumstances, and registration will be made in the name of the nominee of CDS.

The Underwriter propose to offer the Units initially at the Offering Price specified above. After a reasonable effort has been made to sell all of the Units at the Offering Price, the Underwriter may subsequently reduce the selling price to investors from time to time in order to sell any of the Units remaining unsold. Any such reduction will not affect the proceeds received by the Company. See “*Plan of Distribution*”.

An investment in the Units is subject to various risks that should be considered by prospective subscribers including those risks inherent to the industries in which the Company operates. Prospective subscribers should carefully consider the risks described under “*Risk Factors*” before deciding whether to invest in any Units.

There is currently no market through which the Warrants may be sold and purchasers may not be able to resell the Warrants purchased under the short form prospectus. This may affect the pricing of the Warrants in the secondary market, the transparency and availability of trading prices, the liquidity of the Warrants and the extent of issuer regulation. See “*Risk Factors*”.

An officer of the Company resides outside of Canada. The person named below has appointed the Company as their agent for service of process. Purchasers are advised that it may not be possible for investors to enforce judgments obtained in Canada against any person or company that is incorporated, continued or organized under the laws of a foreign jurisdiction or resides outside of Canada, even if the party has appointed an agent for service of process.

Name of Officer	Title	Name and Address of Agent
Hans Derix	President	Red Light Holland Corp. 1 Adelaide Street East, Suite 801, Toronto, Ontario, M5C 2V9

The head and registered office of the Company is 1 Adelaide Street East, Suite 801, Toronto, Ontario, M5C 2V9.

Although the Company continues to explore further viable business opportunities to further develop and expand the Company’s business into one or more new jurisdictions, as at the date hereof, the Company’s active business operations are based exclusively within the Netherlands, where the Company is engaged in the sale and distribution of truffles through operators of brick-and-mortar retail stores authorized under applicable laws (where required) and located and operated within the Netherlands (“Smart Shops”), the Company’s advanced e-commerce platform, accessible online at “iMicrodose.nl” (the “E-Commerce Platform”), and an e-commerce platform operated by an industry partner of the Company (each an “Industry Partner”).

The regulation of truffles and activities pertaining to truffles within the Netherlands is unlike the regulatory framework in both Canada and the U.S. both of which have implemented robust regulatory frameworks for regulating certain controlled substances, such as cannabis, and activities relating to such controlled substances that are within the jurisdiction of the respective governmental body. In contrast, in the Netherlands, neither the federal government nor any local government has, as of the date hereof, implemented any direct regulatory or licensing framework in respect of the cultivation, production, and sale, and recreational consumption of fresh, unprocessed truffles within the Netherlands.

Notwithstanding the absence of a direct regulatory framework in respect of truffles within the Netherlands, the Opium Act (Netherlands) (*Opiumwet*) (the “Opium Act”), the primary drug legislation in the Netherlands, prohibit the possession, production, preparation, processing, selling, delivering, transporting, importing and exporting of any drug or substance listed on the schedules/lists accompanying the Opium Act (together, the “Opium Act Lists”), as well as preparations containing one or more of such prohibited substances. As of the date hereof, the Opium Act Lists expressly name magic mushrooms, as well as psilocin (psilocine) and psilocybin (psilocybine), both of which are substances that naturally occur within both magic mushrooms and truffles. However, the Opium Act Lists do not expressly name truffles. Accordingly, and as confirmed by case law from the Supreme Court of the Netherlands (the highest court in the Netherlands), the Opium Act does not prohibit the cultivation, production, and sale of fresh, unprocessed truffles, but, solely to the extent that (i) the fresh truffles are not subject to further processing that results in such truffles becoming a preparation prohibited under the Opium Act, and (ii) the biomatter that is cultivated, produced, and sold as fresh truffles has not progressed to a stage in growth where the biomatter has transitioned from sclerotia (truffles), to become a magic mushroom (*paddo*).

Prior to commencing operations within the Netherlands, the Company obtained legal advice in respect of its proposed operations in the Netherlands, and the legal requirements applicable to such operations. As at the date hereof, the Company’s operations within the Netherlands are conducted in accordance with such legal advice, and are in strict compliant with all applicable laws governing such operations. The Company oversees and monitors compliance with applicable laws in the Netherlands on an ongoing basis, with the assistance of its local personnel and local counsel.

For a detailed description of the regulatory framework in the Netherlands, as well as the steps taken by the Company to ensure ongoing compliance with applicable laws, please see the heading in the the annual information form of the Company dated January 11, 2021 for the year ended March 31, 2020 (the "Annual Information Form") entitled "*Regulatory Overview*".

Although the Company is, to its knowledge, in compliance with all applicable laws (and intends to continue to comply), there can be no assurance that new laws, regulations, and guidelines will not be enacted, or that existing or future laws and regulations will not be changed. Any introduction of new (or changes to existing) laws, regulations, and guidelines, or other unanticipated events could, among other things, (a) require the Company to implement extensive changes to its operations (which could, among other things increase compliance costs, and give rise to material liabilities), and (b) subject the Company to heightened scrutiny by regulators, stock exchanges, clearing agencies and other authorities. There are a number of additional risks associated with the business of the Company. See "*Risk Factors*" herein and "*Risk Factors*" in the Annual Information Form.

SUMMARY DESCRIPTION OF THE BUSINESS

Overview

Red Light Holland is an Ontario-based corporation engaged in the production, growth and sale of a premium brand of truffles to the legal, recreational market within the Netherlands, in compliance with applicable laws. As at the date hereof, Red Light Holland's operations are based exclusively within the Netherlands, where the Company is engaged in the sale and distribution of the Psilocybe Galindoi strain of truffles under a single brand, "iMicrodose", through Smart Shops (currently nine (9) store locations), the Company's advanced e-commerce platform, accessible online at "iMicrodose.nl", and an e-commerce platform operated by McSmart, at www.tatanka.nl. Smart Shops are retail establishments focused on the sale of psychoactive substances, generally including psychedelics and truffles, as well as related literature and paraphernalia.

As one of Canada's first publicly listed companies focused on the production, growth and sale of truffles, Red Light Holland continues to remain focused on rapid growth and expansion, both organically and via strategic acquisitions, with the goal of emerging as a leader in the evolving truffles space.

Red Light Holland commenced operations within the Netherlands in August 2020. Accordingly, Red Light Holland did not generate any revenues from operations during the financial year of Red Light Holland ended March 31, 2020. As at the date hereof, management anticipates that Red Light Holland will derive more than 80% of its revenues from the sale and distribution of truffles within the Netherlands for the financial year of Red Light Holland ending March 31, 2021.

Red Light Holland currently engages in the cultivation and production of truffles within a leased facility,

which is an approximately 3,000 square feet, custom built, indoor growing, production and distribution facility, in Horst, the Netherlands (the “**Facility**”). The Facility, which has been fitted with appropriate heating, ventilation, and air conditioning systems to produce the optimal environment required for the indoor cultivation of (non-European Union-Good Manufacturing Practices (“**EU-GMP**”)) truffles, is capable of producing up to 10,000 kilograms of truffles per year.

See “*Corporate Structure*”, “*General Development of Business*” and “*Description of the Business*” in the Annual Information Form for a detailed description of the business and operations of the Company, including corporate governance of the Company’s subsidiaries. Further details concerning the Company, including information with respect to the Company’s assets, operations and history, are provided in the Annual Information Form and the other documents incorporated by reference into this short form prospectus. Readers are encouraged to thoroughly review these documents as they contain important information concerning the Company.

Recent Developments

In September, 2020, following careful market research, the Company launched its first and primary product offering, truffles microdosing kits known as “iMicrodose Packs,” under the brand name “iMicrodose”, which are currently produced, supplied and packaged under the Company’s brand by McSmart.

In August 2020, within 3 months of its listing on the CSE, Red Light Holland commenced growing its first batch of truffles at the Facility (the “**Initial Batch**”) and in December 2020, Red Light Holland completed harvest of the Initial Batch, comprised of three separate strains of truffles.

As of the date hereof, Red Light Holland has allocated and sold 70,000 grams of truffles from the Initial Batch to SR Wholesale B.V., pursuant to their non-binding letter of intent executed in November 2020, and has allocated the remaining 15,000 grams of truffles for internal testing, sample packaging, and product photography.

Harvesting

The cultivation of truffles begins with the sealed airtight bags, which contain the necessary substrate, and spores. The sealed airtight bags, with the aforementioned contents, must remain in a temperature controlled room for approximately 16 weeks, at which point they are ready for harvest. However, once the truffles are ready for harvest, they do not need to be harvested immediately, but rather can be harvested over a time period of up to 8 weeks. Harvesting entails opening the sealed airtight bags and separating the truffles from the substrate using a mesh. Following the mesh separation, the truffles are washed to further remove any substrate from the truffles. Once all substrate is removed from the truffles, a spinner is used to help remove excess water. Truffles are then laid out to dry until most external moisture has evaporated. Once the truffles are sufficiently dry, they are weighed and packaged into vacuum sealed bags and stored in a fridge that holds a temperature between 2-4 degrees Celsius. The costs associated with harvesting include labour, rent of the Facility, the equipment needed for harvesting, hydro and electricity costs for the water and refrigerator storage. All of the aforementioned costs are included in inventory.

COVID-19

Although Red Light Holland initially anticipated that it would package and distribute the Initial Batch within the Netherlands under the “iMicrodose” brand, amid the uncertainty inherent in prevailing market and economic conditions due to the outbreak of the novel coronavirus (“**COVID-19**”) (which has resulted in, among other things, a temporary closure of Smart Shops within the Netherlands), the proposed sale to SR Wholesale B.V. presented Red Light Holland with a level of certainty as to the timely sale of the Initial Batch. The Company’s decision to sell to SR Wholesale B.V. instead of under its iMicrodose brand resulted in the Company realizing \$164,344 less revenue than initially anticipated.

On March 11, 2020, the World Health Organization declared the outbreak of COVID-19. Since the outbreak

of COVID-19, the Company has focused its efforts on safeguarding the health and well-being of its employees, consultants and community members. To help slow the spread of COVID-19, the Company's employees have been working remotely, where possible, and abiding by local and national guidance put in place in Canada and the Netherlands related to social distancing and restrictions on travel outside of the home. The Company has and will continue to abide by the protocols within Canada and the Netherlands regarding the performance of work activities.

The duration and the immediate and eventual impact of the COVID-19 pandemic remains unknown. In particular, it is not possible to reliably estimate the length and severity of these developments and the impact on the financial results and condition of the Company and its Industry Partners. To date, a number of businesses have suspended or scaled back their operations and development as cases of COVID-19 have been confirmed, for precautionary purposes or as governments have declared a state of emergency or taken other actions. In the event that the operations or development of the Company or one or more of the Industry Partners is suspended or scaled back, or if the Company's supply chains are disrupted, such events may have a material adverse effect on the Company. The breadth of the impact of the COVID-19 pandemic on investors, businesses, the global economy and financial and commodity markets may also have a material adverse effect on the Company. See "*Risk Factors*".

The expected use of net proceeds from the Offering represents the Corporation's current intentions based upon its present plans and business condition, which could change in the future as its plans and business conditions evolve. The amounts and timing of the actual use of the net proceeds will depend on multiple factors and there may be circumstances where, for sound business reasons, a reallocation of funds may be necessary in order for the Corporation to achieve its stated business objectives. The Corporation may also require additional funds in order to fulfill its expenditure requirements to meet existing and any new business objectives, and the Corporation expects to either issue additional securities or incur debt to do so. As a result, management will retain broad discretion in the application of the net proceeds, and investors will be relying on management's judgment regarding the application of the net proceeds from the Offering. See "*Risk Factors*".

Certain COVID-19 related risks could delay or slow the implementation of the planned objectives resulting in additional costs for the Company to achieve its business objectives. The extent to which COVID-19 may impact the Company's business activities will depend on future developments, such as the ultimate geographic spread of the disease, the duration of the outbreak, travel restrictions, business disruptions, and the effectiveness of actions taken in Canada, the Netherlands and other countries to contain and treat the disease. As these events are highly uncertain and, the Company cannot determine their potential impact

on operations at this time. The COVID-19 pandemic may negatively impact the Company's business through disruption of supply and manufacturing, which would influence the amount and timing of planned expenditure. For example, prolonged disruptions in the supply of services relied on by the Company to conduct its cultivation, production and distribution activities in the Netherlands resulting from government regulation, including restrictions on travel, may adversely impact the Company's business. See "*Summary Description of the Business*" and "*Risk Factors*".

The Company currently has a negative operating cash flow, which may continue for the foreseeable future. During the fiscal year ended March 31, 2020, the Company had negative cash flow from operating activities. The Company anticipates it will continue to have negative cash flow from operating activities in future periods until commercial production is achieved at the Facility. To the extent that the Company has negative operating cash flows in future periods, it may need to deploy a portion of its existing working capital, including certain proceeds of the Offering, to fund such negative cash flows. See "*Risk Factors*".

DESCRIPTION OF SECURITIES BEING DISTRIBUTED

Units

Each Unit will be comprised of one Unit Share (being a Common Share forming a part of each Unit) and one Warrant that will entitle the holder to purchase one Warrant Share (being a Common Share issuable upon valid exercise of a Warrant) at a price of \$0.38 prior to 4:00 p.m. (Toronto time) on the date that is 42 months from the Closing Date, subject to the Acceleration Clause. The Units will separate into Unit Shares and Warrants immediately upon issue.

Common Shares

Each Common Share entitles its holder to notice of, and to one vote at, all meetings of shareholders. Each Common Share carries an entitlement to receive dividends if, as and when declared by the Board. In the event of the liquidation, dissolution or winding-up of the Company, the assets available for distribution to shareholders will be distributed proportionately among the holders of Common Shares.

The authorized share capital of the Company consists of an unlimited number of Common Shares of which 258,688,546 Common Shares are issued and outstanding as of the date hereof.

Warrants

The Warrants will be issued under, and be governed by, the terms of a warrant indenture (the "**Warrant Indenture**") to be entered into between the Company and TSX Trust Company (the "**Warrant Agent**"). The Company will appoint the principal transfer offices of the Warrant Agent in Toronto, Ontario as the location at which Warrants may be surrendered for exercise or transfer. The following summary of certain provisions of the Warrant Indenture contains the material attributes and characteristics of the Warrants but does not purport to be complete and is qualified in its entirety by reference to the provisions of the Warrant Indenture, which will be available on SEDAR.

Each Warrant will entitle the holder to purchase one Warrant Share at a price of \$0.38. The exercise price and the number of Warrant Shares issuable upon exercise are both subject to adjustment in certain circumstances as more fully described below. Warrants will be exercisable at any time prior to 4:00 p.m. (Toronto time) on the date that is 42 months from the Closing Date, after which time the Warrants will expire and become null and void, subject to the Acceleration Clause.

The Warrant Indenture is expected to provide for adjustment to the exercise price of the Warrants and/or to the number or kind of securities issuable upon the exercise of the Warrants upon the occurrence of certain events, including:

- (a) a subdivision of the Common Shares into a greater number of Common Shares or a consolidation

of the Common Shares into a lesser number of Common Shares;

- (b) the issuance of Common Shares or securities exchangeable or convertible into Common Shares to all or substantially all the holders of Common Shares by way of a stock dividend or other distribution;
- (c) the issuance to all or substantially all of the holders of Common Shares of rights, options or warrants under which such holders are entitled, during a period expiring not more than 45 days after the record date for such issuance, to subscribe for or purchase Common Shares, or securities exchangeable for or convertible into Common Shares, at a price per Common Share to the holder (or at an exchange or conversion price per share) of less than 95% of the "current market price", as defined in the Warrant Indenture, of Common Shares on such record date; and/or
- (d) subject to certain exceptions, a distribution by the Company to all or substantially all the holders of the Common Shares, of securities of any class (whether of the Company or any other corporation) other than Common Shares, rights, options or warrants, evidences of indebtedness, or cash, securities, or other property or assets.

The Warrant Indenture is also expected to provide for adjustment in the class and/or number of securities issuable upon the exercise of the Warrants and/or exercise price per security in the event of the following additional events:

- (a) a reclassification of the Common Shares;
- (b) a consolidation, amalgamation, plan of arrangement or merger of the Company with or into another entity (other than a consolidation, amalgamation, plan of arrangement or merger which does not result in any reclassification of the Common Shares or a change of the Common Shares into other shares); or
- (c) a transfer (other than to one of the Company's subsidiaries) of the undertaking or assets of the Company as an entirety or substantially as an entirety to another corporation or other entity.

No adjustment in the exercise price or the number of Warrant Shares purchasable upon the exercise of the Warrants will be required to be made unless the cumulative effect of such adjustment or adjustments would change the exercise price by at least one percent (1%) or the number of Common Shares purchasable upon exercise by at least one one-hundredth ($1/100^{\text{th}}$) of a Common Share.

The Company also expects to covenant in the Warrant Indenture that, during the period in which the Warrants are exercisable, it will give notice to holders of Warrants of certain stated events, including events that would result in an adjustment to the exercise price for the Warrants or the number of Warrant Shares issuable upon exercise of the Warrants, at least 14 days prior to the record date or effective date, as the case may be, of such event.

No fractional Warrant Shares will be issuable upon the exercise of any Warrants, and no cash or other consideration will be paid in lieu of fractional shares. Holders of Warrants will not have any voting or preemptive rights or any other rights, which a holder of Common Shares would have.

From time to time, the Company and the Warrant Agent, without the consent of or notice to the holders of Warrants, may amend or supplement the Warrant Indenture for certain purposes, including curing defects or inconsistencies or making any change that does not adversely affect the rights of any holder of Warrants. Any amendment or supplement to the Warrant Indenture that adversely affects the interests of the holders of the Warrants may only be made by "extraordinary resolution", which is expected to be defined in the Warrant Indenture as a resolution either: (i) passed at a meeting of the holders of Warrants at which there are holders of Warrants present in person or represented by proxy representing at least 20% of the aggregate number of the then outstanding Warrants and passed by the affirmative vote of holders of Warrants representing not less than 66 $\frac{2}{3}$ % of the aggregate number of all the then outstanding Warrants represented at the meeting and who voted on such resolution; or (ii) adopted by an instrument in writing signed by the holders of Warrants representing not less than 66 $\frac{2}{3}$ % of the aggregate number of all the then

outstanding Warrants.

The Warrants and the Warrant Shares have not been registered under the U.S. Securities Act or any U.S. state securities laws and the Warrants will not be exercisable by or on behalf of, or for the account or benefit of, a person in the U.S. or a U.S. person, nor will certificates representing the Warrant Shares issuable upon exercise of the Warrants be registered or delivered to an address in the United States, unless an exemption from registration under the U.S. Securities Act and any applicable U.S. state securities laws is available and the Company has received an opinion of counsel of recognized standing or other evidence to such effect in form and substance reasonably satisfactory to the Company; provided, however, that a holder who is a “qualified institutional buyer” (a “**Qualified Institutional Buyer**”) as defined in Rule 144A under the U.S. Securities Act (“**Rule 144A**”) at the time of exercise of the Warrants who purchased Units in the Offering to, or for the account or benefit of, persons in the United States or U.S. Persons will not be required to deliver an opinion of counsel or such other evidence in connection with the exercise of Warrants that are a part of those Units.

The foregoing summary of certain provisions of the Warrant Indenture does not purport to be complete and is qualified in its entirety by reference to the provisions of the Warrant Indenture, which will be filed by the Company on SEDAR following the closing of the Offering.

PLAN OF DISTRIBUTION

Pursuant to the Underwriting Agreement, the Company has agreed to sell, and the Underwriter has agreed to purchase on the Closing Date, an aggregate of 33,334,000 Units at the Offering Price for aggregate gross proceeds of \$8,500,170 payable in cash to the Company against delivery of the Units. The Offering Price was determined by arm's length negotiation among the Company and the Underwriter with reference to the prevailing market price of the Common Shares on the CSE.

Each Unit will consist of one Unit Share and one Warrant. Each Warrant will entitle the holder thereof to acquire, subject to adjustment in accordance with the Warrant Indenture, one Warrant Share at an exercise price of \$0.38 per Warrant Share at any time prior to 4:00 p.m. (Toronto time) on the date that is 42 months from the Closing Date, subject to the Acceleration Clause. The Warrants will be created and issued pursuant to the terms of the Warrant Indenture to be dated as of the Closing Date between the Company and the Warrant Agent. The Warrant Indenture will contain provisions designed to protect holders of the Warrants against dilution upon the happening of certain events. No fractional Warrants will be issued.

Pursuant to the Underwriting Agreement, the Company has granted to the Underwriter the Over-Allotment Option, exercisable in whole or in part, at any time and from time to time, in the sole discretion of the Underwriter, for a period of 30 days from and including the Closing Date, to purchase up to an additional amount of Units equal to up to 15% of the Units sold pursuant to the Offering, being 5,000,100 Additional Units, at the Offering Price, to cover the Underwriter's over-allocation position, if any, and for market stabilization purposes. The Over-Allotment Option is exercisable by the Underwriter in respect of: (1) Additional Units at the Offering Price; or (2) Additional Shares at a price of \$0.224 per Additional Share; or (3) Additional Warrants at a price of \$0.031 per Additional Warrant; or (4) any combination of the Additional Securities, so long as the aggregate number of Additional Shares and Additional Warrants which may be issued under the Over-Allotment Option does not exceed 5,000,100 Additional Shares and 5,000,100 Additional Warrants. The grant of the Over-Allotment Option and the Additional Securities issuable upon exercise of the Over-Allotment Option are hereby qualified for distribution under this short form prospectus. A purchaser who acquires securities forming part of the Underwriter's over-allocation position acquires such securities under this short form prospectus regardless of whether the over-allocation position is ultimately filled through the exercise of the Over-Allotment Option or through secondary market purchases. If the Over-Allotment Option is exercised in full, the aggregate gross proceeds, Underwriter's Fee and net proceeds to the Company (before payment of the expenses of the Offering) will be approximately \$9,775,195.50, \$684,263.69 and \$9,090,931.82, respectively.

Subject to applicable law, the Underwriter may, with the consent of the Company, offer to sell the Units outside of Canada, in each case in accordance with applicable laws provided that no prospectus, registration statement or similar document is required to be filed in any such jurisdiction.

The Units, the Unit Shares and the Warrants comprising the Units, and the Warrant Shares issuable upon exercise of the Warrants, have not been and will not be registered under the U.S. Securities Act or any U.S. state securities laws, and the Units, the Unit Shares and the Warrants may not be offered, sold or delivered, directly or indirectly, to, or for the account or benefit of, persons in the United States or U.S. Persons, except

in transactions exempt from the registration requirements of the U.S. Securities Act and applicable U.S. state securities laws. The Underwriter has agreed that, except as permitted by the Underwriting Agreement and as expressly permitted by applicable United States federal and U.S. state securities laws, it will not offer or sell any of the Units, the Unit Shares or the Warrants to, or for the account or benefit of, persons in the United States or U.S. Persons. The Underwriting Agreement permits the Underwriter to offer the Units, the Unit Shares and the Warrants outside the United States to non-U.S. Persons in compliance with Regulation S under the U.S. Securities Act. The Underwriting Agreement also permits the Underwriter, through its U.S. registered broker-dealer affiliate, to offer and resell the Units, the Unit Shares and the Warrants to, or for the account or benefit of, persons in the United States and U.S. Persons where such persons are Qualified Institutional Buyers in compliance with Rule 144A and applicable U.S. state securities laws.

This short form prospectus does not constitute an offer to sell, or a solicitation of an offer to buy, any of the Units, the Unit Shares or the Warrants to, or for the account or benefit of, persons in the United States or U.S. Persons.

The Warrants will not be exercisable by, or on behalf of, a person in the United States or a U.S. Person, nor will certificates representing the Warrant Shares issuable upon exercise of the Warrants be registered or delivered to an address in the United States, unless an exemption from the registration requirements of the U.S. Securities Act and any applicable U.S. state securities laws is available and the Company has received an opinion of counsel of recognized standing to such effect in form and substance satisfactory to the Company; provided, however, that a holder who is a Qualified Institutional Buyer and purchased Units in the Offering to, or for the account or benefit of, persons in the United States or U.S. Persons will not be required to deliver an opinion of counsel in connection with the exercise of Warrants that are a part of those Units.

The Unit Shares, the Warrants and the Warrant Shares issuable upon exercise of the Warrants issued to, or for the account or benefit of, persons in the United States or U.S. Persons will be “restricted securities” within the meaning of Rule 144(a)(3) under the U.S. Securities Act. Any certificates representing any securities that are offered, sold or issued to, or for the account or benefit of, persons in the United States or U.S. Persons will be subject to restrictions to the effect that such securities have not been registered under the U.S. Securities Act or any applicable state securities laws and may only be offered, sold, pledged or otherwise transferred pursuant to certain exemptions from the registration requirements of the U.S. Securities Act and any applicable U.S. state securities laws.

Terms used and not otherwise defined in the three preceding paragraphs shall have the meanings ascribed to them by Regulation S under the U.S. Securities Act.

The Company has given notice to the CSE to list the Securities (including those underlying the Broker Warrants). Listing will be subject to the Company fulfilling all of the listing requirements of the CSE. There is currently no market through which the Warrants may be sold. See “Risk Factors”.

The obligations of the Underwriter under the Underwriting Agreement are conditional and may be terminated at their discretion upon the occurrence of certain stated events, including on the basis of “disaster out”, “material adverse change out”, and “breach out” provisions contained in the Underwriting Agreement. The Underwriter is, however, obligated to take up and pay for all of the Units if any of the Units are purchased under the Underwriting Agreement.

In consideration of the services rendered by the Underwriter to the Company in connection with the Offering and pursuant to the Underwriting Agreement, the Company has agreed to pay to the Underwriter the Underwriter’s Fee which will be equal to 7% of the gross proceeds from the issue and sale of the Units and the Additional Units, if any, (subject to the President’s List) and Broker Warrants entitling the Underwriter to acquire a number of Units equal to 7% of the number of Units sold under the Offering, including any Additional Units sold pursuant to the exercise of the Over-Allotment Option (subject to the President’s List). Each Broker Warrant shall entitle the Underwriter to purchase one Unit at the Offering Price at any time on or before the date which is 42 months after the Closing Date. The Company has also agreed to reimburse

the Underwriter for their out-of-pocket fees and expenses, including the fees and expenses of their legal counsel, whether or not the Offering is completed. All amounts payable to the Underwriter will be paid from the proceeds of the Offering.

The Company has agreed not to, directly or indirectly, issue or sell or authorize or agree to issue or sell (or announce any intention to do any of the foregoing) any additional debt, any Common Shares or securities or other financial instruments convertible or exchangeable for or exercisable into Common Shares, except in conjunction with: (1) the Offering, including the Over-Allotment Option; (2) the exercise of outstanding stock options pursuant to the stock option plan of the Company or any other existing share compensation arrangements; (3) the exercise of outstanding warrants, convertible securities or other existing contractual rights; or (4) any bona fide arm's length acquisition by the Company), in each case for a period starting on the Closing Date and ending on the date that is 90 days from the Closing Date without the prior written consent of the Underwriter, such consent not to be unreasonably withheld or delayed.

Pursuant to the Underwriting Agreement, the Company has also agreed that it will use best efforts to cause each of its directors and officers to enter into lock-up agreements in a form satisfactory to the Company and the Underwriter, each acting reasonably, to be executed concurrently with the Closing of the Offering, pursuant to which each such person agrees, among other things, to not, for a period of 90 days from the Closing Date, without the prior written consent of the Underwriter, such consent not to be unreasonably withheld or delayed, directly or indirectly, offer, sell, contract to offer or sell, transfer, assign, grant or sell any option or warrant to purchase, lend, hypothecate, secure, pledge or otherwise transfer or dispose of any securities of the Company or any financial instruments convertible into, exercisable or exchangeable for, or that represent the right to receive, securities of the Company, whether through the facilities of a stock exchange, by private placement or otherwise, or make any short sale of, engage in any hedging transaction with respect to, or enter into any swap, forward or other transaction or arrangement that transfers all or a portion of the economic consequences associated with the ownership of such securities (regardless of whether any such transaction or arrangement is to be settled by the delivery of securities of the Company, securities of another person, cash or otherwise), subject to certain exceptions to be negotiated by the Company and the Underwriter.

Pursuant to rules and policy statements of certain Canadian securities regulatory authorities, the Underwriter may not, throughout the period of distribution under the Offering, bid for or purchase Common Shares for their own accounts or for accounts over which they exercise control or direction. The foregoing restriction is subject to certain exceptions, including: (i) a bid for or purchase of Common Shares if the bid or purchase is made through the facilities of the CSE, in accordance with the Universal Market Integrity Rules administered by the Investment Industry Regulatory Organization of Canada relating to market stabilization and passive market making activities; and (ii) a bid or purchase made for or on behalf of a client, other than certain prescribed clients, provided that the client's order was not solicited by the Underwriter, or if the client's order was solicited, where the solicitation did not occur during the period of distribution.

The Underwriter may engage in market stabilization or market balancing activities on the CSE where the bid for or purchase of the Common Shares is for the purpose of maintaining a fair and orderly market in the Common Shares, subject to price limitations applicable to such bids or purchases. Such transactions, if commenced, may be discontinued at any time. In particular, the Underwriter may over-allocate or effect transactions which stabilize or maintain the market price of the Common Shares at levels other than those which might otherwise prevail on the open market, including: stabilizing transactions; short sales; purchases to cover positions created by short sales; imposition of penalty bids; and syndicate covering transactions. Stabilizing transactions consist of bids or purchases made for the purpose of preventing or slowing a decline in the market price of the Common Shares while the Offering is in progress. These transactions may also include over-allocating or making short sales of the Common Shares, which involve the sale by the Underwriter of a greater number of Common Shares than it is required to purchase in the Offering. In making this determination, the Underwriter will consider, among other things, the price of Common Shares available for purchase in the open market compared to the price at which they may purchase Common Shares through the Over-Allotment Option. The Underwriter must close out any naked short position by purchasing Common Shares in the open market. A naked short position is more likely to be created if the

Underwriter is concerned that there may be downward pressure on the price of the Common Shares in the open market that could adversely affect investors who purchase Common Shares in the Offering. Any naked short position would form part of the Underwriter's over-allocation position. A purchaser who acquires Common Shares forming part of the Underwriter's over-allocation position will, in each case, acquire such Common Shares under this short form prospectus, regardless of the fact that the over-allocation position is ultimately filled through the exercise of the Over-Allotment Option or through secondary market purchases.

As a result of these activities, the price of the Common Shares offered hereby may be higher than the price that otherwise might exist in the open market. If these activities are commenced, they may be discontinued by the Underwriter at any time. The Underwriter may carry out these transactions on the CSE, in the over-the-counter market or otherwise.

The Company has agreed, pursuant to the Underwriting Agreement, to indemnify the Underwriter and its affiliates and each of its directors, officers, employees, affiliates and agents and each person, if any, who controls any Underwriter, and certain other related parties, harmless from and against certain losses, claims, suits, liabilities, costs, damages, or expenses, including liabilities under Canadian securities legislation in certain circumstances or to contribute to payments the Underwriter may have to make because of such liabilities.

The Underwriter propose to offer the Units initially at the Offering Price specified above. After a reasonable effort has been made to sell all the Units at the Offering Price, the Underwriter may subsequently reduce the selling price to investors from time to time in order to sell any of the Units remaining unsold. Any such reduction will not affect the proceeds received by the Company.

Subscriptions for the Units will be received subject to rejection or allotment in whole or in part and the right is reserved to close the subscription books at any time without notice. Other than pursuant to certain exceptions, the Units, and the Unit Shares and Warrants underlying the Units, will be available for delivery in book-based form through CDS or its nominee and will be deposited with CDS on the Closing Date. A purchaser of Units will receive only a customer confirmation from the Underwriter or other registered dealer who is a CDS Participant through which the Units are purchased.

Book-Based System

Subscriptions for the Units will be received subject to rejection or allotment in whole or in part and the Underwriter reserve the right to close the subscription books at any time without prior notice. Closing is expected to take place on January 28, 2021 or such later date as may be agreed upon by the Company and the Underwriter. The Offering will be conducted under the book-based system. A subscriber who purchases Units will receive a customer confirmation from the registered dealer from or through whom Units are purchased and who is a CDS depository service participant. CDS will record the CDS participants who hold Units on behalf of owners who have purchased Units in accordance with the book-based system. No certificates evidencing the Units are expected to be issued, except in certain limited circumstances, and registration will be made in the name of the nominee of CDS.

ELIGIBILITY FOR INVESTMENT

In the opinion of Garfinkle Biderman LLP, counsel to the Company, and Cassels Brock & Blackwell LLP, counsel to the Underwriter, based on the provisions of the *Income Tax Act* (Canada) (the "**Tax Act**") and the regulations thereunder in force on the date of this short form prospectus, and subject to the provisions of any particular plan, the Unit Shares, Warrants and Warrant Shares will, on the Closing Date, be a qualified investment for a trust governed by a registered retirement savings plan ("**RRSP**"), registered education savings plan ("**RESP**"), registered retirement income fund ("**RRIF**"), deferred profit sharing plan,

registered disability savings plan (“**RDSP**”) or tax-free savings account (a “**TFSA**”) (each, a “**Registered Plan**”), provided that at such time:

- (a) in the case of the Unit Shares and Warrant Shares, such shares are listed on a “designated stock exchange” within the meaning of the Tax Act (which on the date hereof includes the CSE) or the Company otherwise qualifies as a “public corporation”, as defined in the Tax Act; and
- (b) in the case of the Warrants,
 - (i) the Warrants are listed on a “designated stock exchange” as defined in the Tax Act; or
 - (ii) the Warrant Shares are qualified investments as described in (a) above and the Company is not an annuitant, a beneficiary, an employer or a subscriber under or a holder of the particular Registered Plan and deals at arm’s length with each person who is an annuitant, a beneficiary, an employer or a subscriber under or a holder of such Registered Plan.

Notwithstanding that the Unit Shares, Warrants and Warrant Shares may be a qualified investment for a trust governed by an RRSP, RRIF, RESP, RDSP or a TFSA, the annuitant under an RRSP or RRIF, the subscriber under a RESP or the holder of a TFSA or RDSP, as the case may be, will be subject to a penalty tax if the securities are a “prohibited investment” within the meaning of the Tax Act for the RRSP, RRIF RESP, RDSP or TFSA. The Unit Shares, Warrants and Warrant Shares will generally not be a “prohibited investment” for a trust governed by an RRSP, RRIF RESP, RDSP or TFSA provided the holder of the TFSA or RDSP, the subscriber under a RESP or annuitant of the RRSP or RRIF, as the case may be: (i) deals at arm’s length with the Company for the purposes of the Tax Act; and (ii) does not have a “significant interest” (as defined in subsection 207.01(4) of the Tax Act) in the Company. In addition, the Unit Shares and Warrant Shares will generally not be a prohibited investment if such securities are “excluded property” (as defined in subsection 207.01(1) of the Tax Act) for trusts governed by an RRSP, RRIF RESP, RDSP or TFSA. **Prospective purchasers who intend to hold Unit Shares, Warrants or Warrant Shares in a Registered Plan should consult their own tax advisors regarding their particular circumstances.**

CERTAIN CANADIAN FEDERAL INCOME TAX CONSIDERATIONS

The following is, as of the date of this short form prospectus, a summary of the principal Canadian federal income tax considerations generally applicable to an investor who acquires Units pursuant to the Offering. For purposes of this summary, references to Common Shares include Unit Shares and Warrant Shares unless otherwise indicated. This summary applies only to a purchaser who is a beneficial owner of Unit Shares and Warrants acquired pursuant to this Offering and who, for the purposes of the Tax Act, and at all relevant times: (i) deals at arm’s length with the Company and the Underwriter, (ii) is not affiliated with the Company or the Underwriter; and (iii) acquires and holds the Unit Shares, Warrants and any Warrant Shares acquired on the exercise of the Warrants as capital property (a “**Holder**”).

Common Shares and Warrants will generally be considered to be capital property to a Holder unless they are held in the course of carrying on a business of trading or dealing in securities or were acquired in one or more transactions considered to be an adventure or concern in the nature of trade.

This summary is not applicable to a Holder: (i) that is a “financial institution” within the meaning of section 142.2 of the Tax Act; (ii) that is a “specified financial institution” as defined in the Tax Act; (iii) that has made a “functional currency” reporting election under section 261 of the Tax Act; (iv) an interest in which is, or for whom a Common Share or Warrant would be, a “tax shelter investment” for the purposes of the Tax Act; (v) that has entered into a “derivative forward agreement” or a “synthetic disposition arrangement”, as defined in the Tax Act, in respect of Common Shares or Warrants; or (vi) that receives dividends on the Common Shares under or as part of a “dividend rental arrangement”, as defined in the Tax Act. Such Holders should consult their own tax advisor.

Additional considerations, not discussed herein, may be applicable to a Holder that is a corporation resident in Canada, and is, or becomes as part of a transaction or event or series of transactions or events that

includes the acquisition of the Units, controlled by a non-resident corporation (or pursuant to the Proposed Amendments, a non-resident person or a group of persons comprised of any combination of non-resident corporations, non-resident individuals or non-resident trusts that do not deal with each other at arm's length) for purposes of the "foreign affiliate dumping" rules in section 212.3 of the Tax Act. Such Holders should consult their tax advisors with respect to the consequences of acquiring Common Shares.

In addition, this summary does not address the deductibility of interest by a purchaser who has borrowed money to acquire Units pursuant to the Offering or to exercise Warrants to acquire Warrant Shares.

This summary is based upon: (i) the current provisions of the Tax Act and the regulations thereunder ("**Regulations**") in force as of the date hereof; (ii) all specific proposals ("**Proposed Amendments**") to amend the Tax Act or the Regulations that have been publicly announced by, or on behalf of, the Minister of Finance (Canada) prior to the date hereof; and (iii) counsel's understanding of the current published administrative policies and assessing practices of the Canada Revenue Agency ("**CRA**"). No assurance can be given that the Proposed Amendments will be enacted or otherwise implemented in their current form, if at all. If the Proposed Amendments are not enacted or otherwise implemented as presently proposed, the tax consequences may not be as described below in all cases. This summary does not otherwise take into account or anticipate any changes in law, administrative policy or assessing practice, whether by legislative, regulatory, administrative, governmental or judicial decision or action, nor does it take into account the tax laws of any province or territory of Canada or of any jurisdiction outside of Canada.

This summary is of a general nature only, is not exhaustive of all possible Canadian federal income tax considerations and is not intended to be, nor should it be construed to be, legal or tax advice to any particular Holder. Accordingly, Holders should consult their own tax advisors with respect to their particular circumstances.

Allocation of Cost

A Holder who acquires Units pursuant to this Offering will be required to allocate the purchase price paid for each Unit on a reasonable basis between the Unit Share and the Warrant comprising each Unit in order to determine their respective costs to such Holder for the purposes of the Tax Act.

For its purposes, the Company has advised counsel that, of the \$0.255 subscription price for each Unit, it intends to allocate \$0.224 to each Unit Share and \$0.031 to each Warrant and believes that such allocation is reasonable. The Company's allocation, however, is not binding on the CRA or on a Holder. Holders should consult their own tax advisors in this regard.

The adjusted cost base to a Holder of each Unit Share comprising a part of a Unit acquired pursuant to this Offering will be determined by averaging the cost of such Unit Share with the adjusted cost base to such Holder of all other Common Shares (if any) held by the Holder as capital property immediately prior to the acquisition.

Exercise of Warrants

No gain or loss will be realized by a Holder of a Warrant upon the exercise of such Warrant. When a Warrant is exercised, the Holder's cost of the Warrant Share acquired thereby will be equal to the adjusted cost base of the Warrant to such Holder, plus the amount paid on the exercise of the Warrant. For the purpose of computing the adjusted cost base to a Holder of each Warrant Share acquired on the exercise of a Warrant, the cost of such Warrant Share must be averaged with the adjusted cost base to such Holder of all other Common Shares (if any) held by the Holder as capital property immediately prior to the exercise of the Warrant.

Holders Resident in Canada

This section of the summary applies to a Holder who, at all relevant times, is, or is deemed to be, resident

in Canada for the purposes of the Tax Act (a “**Resident Holder**”). A Resident Holder whose Common Shares might not otherwise qualify as capital property may be entitled to make the irrevocable election provided by subsection 39(4) of the Tax Act to have the Common Shares and every other “Canadian security” (as defined in the Tax Act) owned by such Resident Holder in the taxation year of the election and in all subsequent taxation years deemed to be capital property. Resident Holders should consult their own tax advisors for advice as to whether an election under subsection 39(4) of the Tax Act is available and/or advisable in their particular circumstances. Such election is not available in respect of Warrants.

Dividends

Dividends received or deemed to be received by a Resident Holder on its Common Shares will be included in computing the Resident Holder’s income for the taxation year in which they are received. In the case of a Resident Holder that is an individual (other than certain trusts), such dividends will be subject to the gross-up and dividend tax credit rules that apply to taxable dividends received from taxable Canadian corporations (as defined in the Tax Act). Taxable dividends received from a taxable Canadian corporation which are designated by such corporation as “eligible dividends” will be subject to an enhanced gross-up and dividend tax credit regime in accordance with the rules in the Tax Act.

In the case of a Resident Holder that is a corporation, the amount of any such taxable dividend that is included in its income for a taxation year will generally be deductible in computing its taxable income for that taxation year. In certain circumstances a dividend or deemed dividend received by a Resident Holder that is a corporation may be treated as a capital gain or proceeds of disposition. Resident Holders should contact their own tax advisors in this regard.

A Resident Holder that is a “private corporation” or a “subject corporation”, as defined in the Tax Act, will generally be liable to pay a refundable tax under Part IV of the Tax Act on dividends received on the Common Shares to the extent such dividends are deductible in computing the Resident Holder’s taxable income for the year. A “subject corporation” is generally a corporation resident in Canada (other than a private corporation) controlled directly or indirectly by or for the benefit of an individual (other than a trust) or a related group of individuals (other than trusts).

Dispositions of Common Shares and Warrants

A Resident Holder who disposes of or is deemed to have disposed of a Common Share (other than on a disposition to the Company that is not a sale in the open market in the manner in which shares would normally be purchased by any member of the public in an open market) or Warrant (other than on the exercise of a Warrant) will generally realize a capital gain (or capital loss) in the taxation year of the disposition equal to the amount by which the proceeds of disposition, net of any reasonable costs of disposition, are greater (or are less) than the adjusted cost base to the Resident Holder of the Common Share or Warrant, as applicable, immediately before the disposition or deemed disposition.

Generally, the expiry of an unexercised Warrant will give rise to a capital loss equal to the adjusted cost base to the Resident Holder of such expired Warrant.

Taxable Capital Gains and Losses

A Resident Holder will generally be required to include in computing its income for the taxation year of disposition, one-half of the amount of any capital gain (a “**taxable capital gain**”) realized in such year. Subject to and in accordance with the provisions of the Tax Act, a Resident Holder will be required to deduct one-half of the amount of any capital loss (an “**allowable capital loss**”) against taxable capital gains realized in the taxation year of disposition. Allowable capital losses in excess of taxable capital gains for the taxation year of disposition may be carried back and deducted in any of the three preceding taxation years or carried forward and deducted in any subsequent taxation year against net taxable capital gains

realized in such years, to the extent and under the circumstances specified in the Tax Act.

The amount of any capital loss realized on the disposition or deemed disposition of a Common Share by a Resident Holder that is a corporation may, in certain circumstances, be reduced by the amount of dividends received or deemed to have been received by it on such Common Shares to the extent and under the circumstances specified in the Tax Act. Similar rules may apply where a corporation is a member of a partnership or a beneficiary of a trust that owns Common Shares, directly or indirectly, through a partnership or trust. Resident Holders to whom these rules may be relevant should consult their own tax advisors.

Other Income Taxes

A Resident Holder that is throughout the relevant taxation year a “Canadian-controlled private corporation” (as defined in the Tax Act) may be liable to pay a refundable tax on its “aggregate investment income” (as defined in the Tax Act) for the year, which includes dividends and taxable capital gains.

In general terms, a Resident Holder who is an individual (other than certain trusts) that receives or is deemed to have received taxable dividends on the Common Shares or realizes a capital gain on the disposition or deemed disposition of Common Shares or Warrants may be liable for minimum tax under the Tax Act. Resident Holders that are individuals should consult their own tax advisors in this regard.

Holders Not Resident in Canada

This portion of the summary is generally applicable to a Holder who, at all relevant times, for purposes of the Tax Act: (i) is not, and is not deemed to be, resident in Canada; and (ii) does not use or hold the Common Shares or Warrants in connection with carrying on a business in Canada (a “**Non-Resident Holder**”). This summary does not apply to a Holder that carries on, or is deemed to carry on, an insurance business in Canada and elsewhere or that is an “authorized foreign bank” (as defined in the Tax Act). Such Non-Resident Holders should consult their own tax advisors.

Dividends

Dividends paid or credited or deemed under the Tax Act to be paid or credited by the Company to a Non-Resident Holder on the Common Shares will be subject to Canadian withholding tax at the rate of 25% on the gross amount of the dividend, subject to any reduction in the rate of withholding to which the Non-Resident Holder is entitled to under any applicable income tax convention between Canada and the country in which the Non-Resident Holder is resident. For example, where a Non-Resident Holder is a resident of the United States, is fully entitled to the benefits under the *Canada-United States Tax Convention (1980)*, as amended, and is the beneficial owner of the dividend, the applicable rate of Canadian withholding tax is generally reduced to 15%. Non-Resident Holders should consult their own tax advisors.

Dispositions of Common Shares and Warrants

A Non-Resident Holder will not be subject to tax under the Tax Act in respect of any capital gain realized on a disposition or deemed disposition of a Common Share or Warrant unless the Common Share or Warrant (as applicable) is, or is deemed to be, “taxable Canadian property” of the Non-Resident Holder for the purposes of the Tax Act and the Non-Resident Holder is not entitled to an exemption under an applicable income tax convention between Canada and the country in which the Non-Resident Holder is resident.

Generally, a Common Share or Warrant (as applicable) will not constitute taxable Canadian property of a Non-Resident Holder provided that the Common Shares are listed on a “designated stock exchange” for the purposes of the Tax Act (which currently includes the CSE) at the time of disposition of such Common Shares or Warrants (as applicable), unless at any time during the 60 month period immediately preceding the disposition, (i) at least 25% of the issued shares of any class or series of the capital stock of the Company were owned by or belonged to any combination of (a) the Non-Resident Holder, (b) persons with whom the Non-Resident Holder did not deal at arm’s length, and (c) partnerships in which the Non-Resident

Holder or a person described in (b) holds a membership interest directly or indirectly through one or more partnerships; and (ii) at such time, more than 50% of the fair market value of the Common Shares was derived, directly or indirectly, from any combination of real or immovable property situated in Canada, "Canadian resource property" (as defined in the Tax Act), "timber resource property" (as defined in the Tax Act), or options in respect of, interests in, or for civil law rights in such properties, whether or not such property exists. Notwithstanding the foregoing, a Common Share or Warrant may also be deemed to be taxable Canadian property to a Non-Resident Holder under other provisions of the Tax Act. Non-Resident Holders should consult their own tax advisors as to whether their Common Shares or Warrants constitute "taxable Canadian property" in their own particular circumstances.

In cases where a Non-Resident Holder disposes (or is deemed to have disposed) of a Common Share or Warrant that is taxable Canadian property to that Non-Resident Holder, and the Non-Resident Holder is not entitled to an exemption under an applicable income tax convention, the consequences described above under the heading "*Taxable Capital Gains and Losses*" will generally be applicable to such disposition. Such Non-Resident Holders should consult their own tax advisors.

INSIDER TRADING POLICY AND CODE OF ETHICS AND BUSINESS CONDUCT

Insider Trading Policy

The Company has adopted an insider trading policy to set forth basic guidelines for trading in the Company's securities (including, without limitation, its Common Shares) to avoid any situation that might have the potential to damage the Company's reputation or which could constitute a violation of federal or provincial securities law by the Company, its officers, directors and employees ("**Insiders**"). Under this policy, Insiders are prohibited from trading in Common Shares and other securities on the basis of such material non-public information until after the information has been disclosed to the public and investors have been given a reasonable amount of time to analyze the information, or during a blackout period. The policy also outlines additional pre-clearance and other trading restrictions and provisions for maintaining the confidentiality of information in certain circumstances.

The obligation not to trade on inside information applies not only to the Insiders, but also to persons who obtain such information from Insiders and use it to their advantage. Thus, liability may be imposed upon the Company, its Insiders and also outsiders who are the source of leaks of material information not yet disclosed to the public and the leaks coincide with purchases or sales of the Company's securities by such insiders, outsiders or by "tippees".

In order to provide a degree of certainty as to when insider trading is permissible, the policy imposes a mandatory blackout period beginning two weeks before the end of each fiscal quarter and lasting until two trading days after the financial results have been disclosed by the Company. Trading black-out periods may also be prescribed from time to time as a result of special circumstances relating to the Company. All directors and officers and employees with knowledge of such special circumstances will be covered by the black-out. The Chief Executive Officer will notify affected persons of any blackout period.

The policy also outlines the Company's reporting obligations for changes in Common Shares owned by Insiders as well as the penalties for violating such policy and applicable laws.

Code of Ethics and Business Conduct

The Company has adopted a Code of Ethics & Business Conduct (the "**Code**"). The Code sets forth standards designed to reasonably: deter wrongdoing, promote honest and ethical conduct, promote prompt internal reporting of violations of the Code and promote accountability. All personnel are expected to show a duty of loyalty and faithfulness to the Company and to take actions to prevent damage to its interests or reputation. All personnel, in discharging their duties, must comply with applicable laws and regulations, the rules of the stock exchange(s) on which the Common Shares are listed as well as the Company's internal policies.

The Code sets the expectation that personnel (a) learn about laws, rules and regulations that affect what they do at the Company, (b) attend periodic training and seek to keep up on any legal developments, and (c) raise any questions concerning the applicability, existence or interpretation of any law or regulation or conduct with a designated Company officer. The Code prohibits personnel from making or participating in making any payments designed to cause or improperly influence the decisions of an individual, a company or a governmental official to act in a way that gives the Company or its personnel an advantage or soliciting, encouraging or actually receiving any bribe or other payment, contribution, gifts or favor that could influence that individual or another's decision.

The Code encourages personnel to report any actual or suspected fraud to the CFO or the CEO. In order to avoid participation by personnel of any potential financial crime, personnel are prohibited from accepting or marking cash payments of any kind, accepting payments from entities other than the contractual customer, in each case, without obtaining approval from the CEO. The Code mandates a safe work environment and a no tolerance policy towards harassment and violence in the workplace.

The Code outlines the requirements of personnel as it relates to disclosure of Company information, confidentiality and maintaining the integrity of the Company's books and records and intellectual property. The Code also establishes a whistleblower program which promotes integrity and deters unethical or illegal behaviour and requires that all personnel report unethical or illegal behaviour, including questionable accounting, internal controls or auditing matters.

RISK FACTORS

An investment in the Units involves a number of risks, including risks inherent in the industry in which the Company operates. In addition to the information set out below and the other information contained in this short form prospectus, including in the section entitled "*Cautionary Note Regarding Forward-Looking Information*", prospective purchasers should carefully consider the risk factors related to our business and operations set out in our Annual Information Form and in the other documents incorporated by reference in this short form prospectus. Any one or more of such risk factors could have a material adverse effect on our business, results of operations and financial condition, causing prospective investors to lose all or part of their investment. The risks and uncertainties described below are not the only ones faced by the Company. Additional risks and uncertainties that the Company is not aware of or focused on, or currently deems to be immaterial, may also impair the Company's business operations and cause the price of the Company's Common Shares to decline. There is no assurance that risk management steps taken will avoid future loss due to the occurrence of the risks described below (or incorporated by reference herein) or other unforeseen risks.

Risks Related to the Offering

Loss of Entire Investment

An investment in the Units is speculative and may result in the loss of an investor's entire investment. Only potential investors who are experienced in high risk investments and who can afford to lose their entire investment should consider an investment in the Company.

Dilution

The Company may sell or issue additional Common Shares or other securities in the future to finance future activities, including its growth strategy. The Company cannot predict the size of future issuances of securities or the effect, if any, that future issuances and sales of securities will have on the market price of the Common Shares. Issuances of substantial numbers of Common Shares, or the perception that such issuances could occur, may adversely affect prevailing market prices of the Common Shares. Also, additional Common Shares may be issued by the Company upon the exercise of stock options and upon the exercise or conversion of other securities convertible into Common Shares. With any additional

issuance of Common Shares, investors will suffer dilution to their voting power and the Company may experience dilution in its earnings per share.

Forward-looking Statements May Prove to be Inaccurate

Investors should not place undue reliance on forward-looking statements. By their nature, forward-looking statements involve numerous assumptions, known and unknown risks and uncertainties, of both general and specific nature, that could cause actual results to differ materially from those suggested by the forward-looking statements or contribute to the possibility that predictions, forecasts or projections will prove to be materially inaccurate. Additional information on the risks, assumptions and uncertainties can be found in this short form prospectus under the heading “*Cautionary Note Regarding Forward-Looking Information*”.

The Common Shares and Warrants are Subject to Market Price Volatility

The market price at which the Common Shares and Warrants will trade cannot be predicted. The market price of the Common Shares and Warrants may be adversely affected by a variety of factors relating to our business, including fluctuations in operating and financial results. In addition, the stock markets in general have recently experienced extreme volatility. This volatility may adversely affect the market price of the Common Shares and Warrants. The liquidity of the Common Shares and Warrants may also be impacted by general market volatility.

No Assurance of an Active or Liquid Market

No assurance can be given that an active or liquid trading market for the Common Shares will be sustained. If an active or liquid market for the Common Shares fails to be sustained, the prices at which such securities trade may be adversely affected. Whether or not the Common Shares will trade at lower prices depends on many factors, including the liquidity of the Common Shares, prevailing interest rates, the markets for similar securities, general economic conditions and the Company's financial condition, historic financial performance and future prospects.

Investment Eligibility

There can be no assurance that the Units will continue to be qualified investments under relevant Canadian tax laws for trusts governed by RRSPs, RRIFs, deferred profit sharing plans, RESPs, RDSPs and TFSAs. The Tax Act imposes penalties for the acquisition or holding of nonqualified or prohibited investments. See “*Eligibility for Investment*”.

No Market for the Warrants Currently Exists

The Company intends to apply to list the Warrants on the CSE, however approval of the CSE for such listing has not been received and there is currently no public market for the Warrants. There can be no assurance that a secondary market for the Warrants will develop or be sustained after the closing of the Offering. Even if a market develops for the Warrants, there can be no assurance that it will be liquid and that the price of the Warrants will be the same as the price allocated for the Warrants partially comprising the Units.

If an active market for the Warrants does not develop, the liquidity of an investor's investment in the Warrants may be limited and the price may decline below the portion of the offering price allocated to the Warrants.

Warrants are Speculative in Nature and May Not Have Any Value

The Warrants do not confer any rights of Common Share ownership on their holders, such as voting rights or the right to receive dividends, but rather merely represent the right to acquire Common Shares at a fixed price for a limited period of time. Specifically, commencing on the date of issuance, holders of the Warrants

may exercise their right to acquire Common Shares and pay an exercise price of \$0.38 per Common Share, subject to certain adjustments, prior to the date that is 42 months following the Closing Date, subject to the Acceleration Clause, after which date any unexercised Warrants will expire and have no further value. Moreover, following completion of the Offering, the market value of the Warrants, if any, is uncertain and there can be no assurance that the market value of the Warrants will equal or exceed their imputed offering price. There can be no assurance that the market price of the Common Shares will ever equal or exceed the exercise price of the Warrants, and consequently, whether it will ever be profitable for holders of the Warrants to exercise the Warrants.

Unpredictable and Volatile Market Price for Common Shares

The market price for the Common Shares may be volatile and subject to wide fluctuations in response to numerous factors, many of which are beyond Red Light Holland's control, including the following:

- actual or anticipated fluctuations in Red Light Holland's quarterly results of operations;
- recommendations by securities research analysts;
- changes in the economic performance or market valuations of companies in the industry in which the Company operates;
- additions or departures of Red Light Holland's executive officers and other key personnel;
- release or expiration of lock-up or other transfer restrictions on Common Shares;
- sales or perceived sales of additional Common Shares;
- significant acquisitions or business combinations, strategic partnerships, joint ventures or capital commitments by or involving the Company or its competitors;
- fluctuations to the costs of vital production materials and services;
- changes in global financial markets and global economies and general market conditions, such as interest rates and pharmaceutical product price volatility;
- operating and share price performance of other companies that investors deem comparable to Red Light Holland or from a lack of market comparable companies; and
- news reports relating to trends, concerns, technological or competitive developments, regulatory changes and other related issues in Red Light Holland's industry or target markets.

In addition, financial markets have recently experienced significant price and volume fluctuations that have particularly affected the market prices of equity securities of companies and that have often been unrelated to the operating performance, underlying asset values or prospects of such companies. Accordingly, the market price of Common Shares may decline even if Red Light Holland's operating results, underlying asset values or prospects have not changed. Additionally, these factors, as well as other related factors, may cause decreases in asset values that are deemed to be other than temporary, which might result in impairment losses. There can be no assurance that continuing fluctuations in price and volume will not occur. If such increased levels of volatility and market turmoil continue, the Company's operations could be adversely affected and the trading price of the Common Shares might be materially adversely affected.

Discretion Over the Use of Proceeds

The Company currently intends to use the net proceeds received from the Offering (including on any exercise of the Over-Allotment Option) as described under "Use of Proceeds". However, the Company has broad discretion over the actual use of the net proceeds and may elect to allocate net proceeds differently from that described under "Use of Proceeds" if determined to be in the Company's best interests to do so. Shareholders may not agree with the manner in which the Company chooses to allocate and spend the net proceeds. The failure by the Company to use the net proceeds effectively could have a material adverse effect on the Company's business.

Risks Related to the Company's Financial Position and Need for Additional Capital

Negative Operating Cash Flow

The Company is an early stage company and has not generated cash flow from operations. The Company is devoting significant resources to the development and acquisition of its properties, however there can be no assurance that it will generate positive cash flow from operations in the future. The Company expects to continue to incur negative consolidated operating cash flow and losses until such time as it achieves commercial production at a particular project. To the extent that the Company has negative operating cash flows in future periods, it may need to deploy a portion of its existing working capital, including certain proceeds of the Offering, to fund such negative cash flows. The Company will be required to raise additional funds through the issuance of additional equity securities or through loan financing. There is no assurance that additional capital or other types of financing will be available if needed or that these financings will be on terms at least as favourable to the Company as those previously obtained, or at all. The Company currently has negative cash flow from operating activities.

LEGAL MATTERS

Certain legal matters relating to the Offering will be passed upon by Garfinkle Biderman LLP on behalf of the Company and Cassels Brock & Blackwell LLP on behalf of the Underwriter. As at the date of this short form prospectus, the partners and associates of each of Garfinkle Biderman LLP and Cassels Brock & Blackwell LLP who participated in or were in a position to directly influence the preparation of the opinions of their respective firms, each of the aforementioned partnerships (and their partners, associates and employees) beneficially own, directly or indirectly, less than 1% of the outstanding Common Shares and warrants, and such groups respectively each own less than 1% of the outstanding securities of any associate or affiliate of the Company.

PROMOTER

Other than as described below, no person or company has been a promoter of the Company during the two most recently completed financial years of Red Light Holland ended March 31, 2020 and 2019.

Todd Shapiro, the CEO and a director of Red Light Holland, may be considered to be a promoter of the Company. Subsequent to the fiscal year ended March 31, 2020, Mr. Shapiro assumed a more involved role with the Company, taking the initiative in organizing and establishing the business. As at the date of this short form prospectus, Mr. Shapiro continues to be a promoter of the Company. To the Company's knowledge, as of the date hereof, Mr. Shapiro holds, controls or directs, 9,625,000 Common Shares, representing approximately 3.72% of the issued and outstanding Common Shares on a diluted basis.

Mr. Shapiro was a former shareholder of Red Light Holland Debt Inc. ("**Debtco**"). The Company acquired all of the common shares of Debtco held, controlled and directed by Mr. Shapiro in connection with a three-cornered amalgamation completed by the Company on May 22, 2020. Pursuant to the three-cornered amalgamation, Debtco and 2747451 Ontario Inc., a wholly-owned subsidiary of the Company, amalgamated under the *Business Corporations Act* (Ontario), with the amalgamated entity continuing under the name "Red Light Holland (Subco 2) Inc." as a wholly-owned subsidiary of the Company. In connection with the three-cornered amalgamation, each former shareholder of Debtco received one (1) Common Share for each common share in the capital of Debtco ("**Debtco Share**") held, with Mr. Shapiro being issued an aggregate of 9,625,000 Common Shares in exchange for 9,625,000 Debtco Shares formerly held by Mr. Shapiro. The three-cornered amalgamation, including the number of Common Shares to be exchanged for each Debtco Share pursuant to the three-cornered amalgamation, was approved by the former members of the Board, in April 2020, prior to the date on which Mr. Shapiro became a director and executive officer of the Company. Mr. Shapiro was, at such time, independent of and unaffiliated with, the Board.

For additional information on remuneration that Mr. Shapiro will receive in connection with his role as CEO, and a director of the Company, see the section entitled: "*Statement of Executive Compensation*" in the

Information Circular and for additional information on the Debtco amalgamation, see the Annual Information Form, copies of which is available on the Company's profile on SEDAR at www.sedar.com

STATUTORY RIGHTS OF WITHDRAWAL AND RESCISSION

Securities legislation in certain of the provinces of Canada provides purchasers with the right to withdraw from an agreement to purchase securities. This right may be exercised within two business days after receipt or deemed receipt of a prospectus and any amendment. In several of the provinces, the securities legislation further provides a purchaser with remedies of rescission or, in some jurisdictions, revisions of the price or damages if the prospectus and any amendment contains a misrepresentation or is not delivered to the purchaser, provided that the remedies for rescission, revisions of the price or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser's province. Purchasers should refer to any applicable provisions of the securities legislation of their province for the particulars of these rights or consult with a legal advisor.

In an offering of Warrants, investors are cautioned that the statutory right of action for damages for a misrepresentation contained in a prospectus is limited, in certain provincial securities legislation, to the price at which the Warrant is offered to the public under the prospectus offering. This means that, under the securities legislation of certain provinces, if the purchaser pays additional amounts upon conversion, exchange or exercise of the security, those amounts may not be recoverable under the statutory right of action for damages that applies in those provinces. The purchaser should refer to any applicable provisions of the securities legislation of the purchaser's province for the particulars of this right of action for damages or consult with a legal adviser.
