SponsorsOne Announces 2nd Hemp Smokes Brand Named Suede For Domestic Markets

Hemp Smokes "Suede" Brand joins Primero Hemp Smokes Brand

Waterloo, Ontario, November 2 , 2021, **SponsorsOne Inc., (CSE: SPO) (Frankfurt: 5SO), (OTC:SPONF)**, a company that utilizes its proprietary platform that combines digital marketing, wholesale and retail distribution, branding, and operational & funding capital, giving it a competitive first-mover advantage in rapidly growing its proprietary brands focused in the Alcohol, Functional Beverage, and Hemp Sectors is pleased to announce the launch of a second Hemp Smokes brand "Suede" for the domestic markets. This announcement is on the heels of a recent press release where the Company announced, Primero Hemp Smokes, designed for the domestic and international Latin American market/consumer.

Myles Bartholomew, CEO of SponsorsOne, said, "Suede Hemp Smokes is the second Brand of CBD- rich hemp product introduced to the industrial hemp industry segment, and we are very pleased to offer high quality, organically grown products. SponsorsOne's manufacturer is an FDA - USDA certified manufacturer and organic industrial hemp cultivator producing Suede Hemp Smokes. Consistent quality at high volumes to meet the growing demand among the expanding number of hemp smoke customers, as well as tobacco and marijuana smokers considering a switch to hemp smokes."

Suede Hemp Smokes are custom produced according to our proprietary standards and specifications. Strict production standards and high-volume production capability ensure quality and consistency at any quantity. Cultivation is on organic soils using organic materials and methods. Precise production records detail every finished product and are 100% traceable back to the seed, the farm lot, and continuously throughout the manufacturing process; seeds, soils, and irrigation water are tested for contaminants before planting. All hemp sourced and used by the manufacturer contains full spectrum levels of cannabinoids, terpenes, and flavonoids. Certified laboratories test "Industrial Hemp" for full compliance with Federal Law. THC levels are consistently being tested and have been low the Federal Statute THC limit of 0.3% but often reported as undetectable.

All hemp used in Suede passes certified third-party testing for heavy metals, pesticides, microbial, and other contaminants before and after production for consistency and impurities to ensure the highest quality, clean smokes. Suede contains only trimmed, selected flower and leaves of the pure highest quality, processed to be branch, stalk, and seed-free and custom-cut so hemp smokes have a tight, solid structure, no gaps or lost hemp in packs. Strictly no Isolates, free of ground-up hemp powder; dust; seeds; fillers, no other herbs, and contain no raw tobacco or converted tobacco or nicotine.

Suede is packed in standard, traditional packaging: Standard 15 mg CBD per stick; 20 per pack; 10 packs to a Carton
