### **About Summa Silver Corp**

Summa Silver Corp is a Canadian junior mineral exploration company. The Company’s assets consist of the Hughes property located in central Nevada, and the Donna property located in central British Columbia. The Hughes property is host to the high-grade past-producing Belmont Mine, one of the most prolific silver producers in the United States between 1903 and 1929. The mine has remained inactive since commercial production ceased in 1929 due to heavily depressed metal prices and little to no modern exploration work has ever been completed.
