(CSE: SX) (OTC: SXOOF) (FSE: 85G1) At the request of IIROC, St-Georges wishes to confirm that the Company's management is unaware of any material change in the Company's operations that would account for the recent increase in market activity.

The Company is committed to deliver positive results on its different business initiatives and to keep its shareholders and stakeholders informed and up to date on any and all developments as early as results or progress can be disclosed.

ON BEHALF OF THE BOARD OF DIRECTORS

"Frank Dumas"

FRANK DUMAS, PRESIDENT & CEO

About St-Georges

St-Georges is developing new technologies to solve the biggest environmental problems in the mining industry. If these new technologies are successful, they should improve the financial bottom line of current mining producers. The potential success of these technologies would also involve upgrading certain current known metal resources to economic status while addressing the environmental and social acceptability issues.

The Company controls directly or indirectly all of the active mineral tenures in Iceland. It also explores for nickel on the Julie Nickel Project & for industrial minerals on Quebec's North Shore and for lithium and rare metals in Northern Quebec and in the Abitibi area. Headquartered in Montreal, St-Georges' stock is listed on the CSE under the symbol SX, on the US OTC under the Symbol SXOOF and on the Frankfurt Stock Exchange under the symbol 85G1.
