### **1. NATURE AND CONTINUANCE OF OPERATIONS**

Spod Lithium Corp. (Formerly EEE Exploration Corp.) (the "Company") was incorporated on November 11, 2014 under the laws of British Columbia, Canada. On April 15, 2021, the Company changed its name to EEE Exploration Corp. and on September 21, 2022, the Company name was changed to Spod Lithium Corp. On June 21, 2021, the Company commenced trading on the Canadian Securities Exchange ("CSE" or "Exchange") under the symbol "SPOD", and on February 23, 2023, the common shares of the company also began trading on the OTCQB under the symbol "EEEXF" and then "SPODF" on May 4, 2023. The Company is engaged in the business of mineral exploration. The Company's corporate head office is located at Suite 1910, 1030 West Georgia Street, Vancouver, British Columbia, Canada.

These condensed interim financial statements have been prepared on the basis of accounting principles applicable to a going concern which assumes the Company will be able to realize its assets and discharge its liabilities in the normal course of business rather than through a process of forced liquidation. The Company's continuing operations, and its financial success will be dependent upon the extent to which it can successfully develop its exploration and evaluation assets and whether those assets contain ore reserves that are economically recoverable. The development of the Company's business may take many years to be successful and the amount of resulting income, if any, is difficult to determine with any certainty. On April 30, 2023, the Company had not yet achieved profitable operations, incurred a net loss of \$410,938 (2022: \$161,551) for the nine months then ended, had a deficit of \$1,180,652 (July 31, 2022 -\$769,714), and expects to incur further losses in the development of its business, all of which casts significant doubt about the Company's ability to continue as a going concern.

Since March 2020, several measures have been implemented in Canada and the rest of the world in response to the increased impact from novel coronavirus ("COVID-19"). The Company continues to operate its business at this time. While the impact of COVID-19 is expected to be temporary, the current circumstances are dynamic and the impacts of COVID-19 on business operations, cannot be reasonably estimated at this time. The Company anticipates this could have an adverse impact on its business, results of operations, financial position and cash flows in 2023.

The condensed interim financial statements were approved by the Board of Directors on June 29, 2023.

### **2. SIGNIFICANT ACCOUNTING POLICIES AND BASIS OF PRESENTATION**

These condensed interim financial statements have been prepared in accordance with International Accounting Standard ("IAS") 34, *Interim Financial Reporting*, as issued by the International Accounting Standards Board ("IASB"). Accordingly, certain information and footnote disclosure normally included in annual financial statements prepared in accordance with International Financial Reporting Standards ("IFRS") have been omitted or condensed, and therefore these condensed consolidated interim financial statements should be read in conjunction with the Company's July 31, 2022 audited annual financial statements and the notes to such financial statements.

These condensed interim financial statements have been prepared on a historical cost basis, except for financial instruments classified at fair value through profit and loss or fair value through other comprehensive income, if applicable, which are stated at their fair value. These condensed interim financial statements are presented in Canadian dollars, which is also the Company's functional currency. In addition, these condensed interim financial statements have been prepared using the accrual basis of accounting except for cash flow information.

Future changes in accounting policies

Accounting standards or amendments to existing accounting standards that have been issued but have future effective dates are either not applicable or are not expected to have a significant impact on the Company's financial statements.
